The Novel in Africa and the Caribbean Since 1950 Simon Gikandi, 2016 The Novel in Africa and the Caribbean since 1950 examines the institutional and social peculiarities that make fiction produced in Africa and the Atlantic World since 1950 important to the history of the novel in English **Oshun's Daughters** Vanessa K. Valdés, 2014-01-01 Examines the ways in which the inclusion of African diasporic religious practices serves as a transgressive tool in narrative discourses in the Americas Oshun s Daughters examines representations of African diasporic religions from novels and poems written by women in the United States the Spanish Caribbean and Brazil In spite of differences in age language and nationality these

women writers all turn to variations of traditional Yoruba religion Santería a Regla de Ocha and Candomblé as a source of inspiration for creating portraits of womanhood Within these religious systems binaries that dominate European thought man/woman mind/body light/dark good/evil do not function in the same way as the emphasis is not on extremes but on balancing or reconciling these radical differences Involvement with these African diasporic religions thus provides alternative models of womanhood that differ substantially from those found in dominant Western patriarchal culture namely that of virgin/asexual wife/mother and whore Instead we find images of the sexual woman who enjoys her body without any sense of shame the mother who nurtures her children without sacrificing herself and the warrior woman who actively resists demands that she conform to one dimensional stereotypes of womanhood

Hispanic New York Claudio Iván Remeseira, 2010 Over the past few decades a wave of immigration has turned New York into a microcosm of the Americas and enhanced its role as the crossroads of the English and Spanish speaking worlds Yet far from being an alien group within a mainstream and supposedly pure Anglo America people referred to as Hispanics or Latinos have been part and parcel of New York since the beginning of the city's history They represent what Walt Whitman once celebrated as the Spanish element of our nationality Hispanic New York is the first anthology to offer a comprehensive view of this multifaceted heritage Combining familiar materials with other selections that are either out of print or not easily accessible Claudio Iván Remeseira makes a compelling case for New York as a paradigm of the country's Latinoization His anthology mixes primary sources with scholarly and journalistic essays on history demography racial and ethnic studies music art history literature linguistics and religion and the authors range from historical figures such as José Martí Bernardo Vega or Whitman himself to contemporary writers such as Paul Berman Ed Morales Virginia Sánchez Korrol Roberto Suro
