Photographs, Museums, Collections Elizabeth Edwards,Christopher Morton,2015-07-14 The status of photographs in the history of museum collections is a complex one From its very beginnings the double capacity of photography as a tool for making a visual record on the one hand and an aesthetic form in its own right on the other has created tensions about its place in the hierarchy of museum objects While major collections of art photography have grown in status and visibility photographs not designated art are often invisible in museums Yet almost every museum has photographs as part of its ecosystem gathered as information corroboration or documentation shaping the understanding of other classes of objects and many of these collections remain uncatalogued and their significance unrecognised This volume presents a series of case studies on the historical collecting and usage of photographs in museums Using critically informed empirical investigation it explores substantive and historiographical questions such as what is the historical patterning in the way photographs have been produced collected and retained by museums How do categories of the aesthetic and evidential shape the history of collecting photographs What has been the work of photographs in museums What does an understanding of photograph collections add to our understanding of collections history more broadly What are the methodological demands of research on photograph collections The case studies cover a wide range of museums and collection types from art galleries to maritime museums national collections to local history museums and international perspectives including Cuba France Germany New Zealand South Africa and the UK Together they offer a fascinating insight into both the history of collections and collecting and into the practices and poetics of archives across a range of disciplines including the history of science museum studies archaeology and anthropology

Europe on Trial Istvan Deak,2018-04-27 Europe on Trial explores the history of collaboration retribution and resistance during World War II These three themes are examined through the experiences of people and countries under German occupation as well as Soviet Italian and other military rule Those under foreign rule faced innumerable moral and ethical dilemmas including the question of whether to cooperate with their occupiers try to survive the war without any political involvement or risk their lives by becoming resisters Many chose all three depending on wartime conditions Following the brutal war the author discusses the purges of real or alleged war criminals and collaborators through various acts of violence deportations and judicial

proceedings at the Nuremberg International Military Tribunal as well as in thousands of local courts Europe on Trial helps us to understand the many moral consequences both during and immediately following World War II **National Union Catalog** ,1973 Includes entries for maps and atlases *German Soldiers and the Occupation of France, 1940-1944* Julia S. Torrie,2018-10-11 From 1940 to 1944 German soldiers not only fought in and ruled over France but also lived their lives there While the combat experiences of German soldiers are relatively well documented as are the everyday lives of the occupied French population we know much less about occupiers daily activities beyond combat especially when it comes to men who were not top level administrators Using letters photographs and tour guides alongside official sources Julia S Torrie reveals how ground level occupiers understood their role and how their needs and desires shaped policy and practices At the same time as soldiers were told to dominate and control France they were also encouraged to sight see to photograph and to consume the country leading to a familiarity that limited violence rather than inciting it The lives of these ordinary soldiers offer new insights into the occupation of France the history of Nazism and the Second World War **Nazi Prisons in the British Isles** Gilly Carr,2020-09-30 With firsthand sources and archeological research this study explores life inside Nazi prisons during the occupation of the Channel Islands Through most of the Second World War Nazis occupied the Bailiwicks of Jersey and Guernsey two British Crown dependencies in the English Channel With extensive research archeologist Gilly Carr has uncovered the enduring legacies of this occupation In Nazi Prisons in Britain she shines a light on the lives of citizen resisters who became political prisoners on their own soil Carr explores political prisoner consciousness and solidarity through the letters of the Jersey 21 and the diaries of Frank Falla Guernsey s best known resister Drawing on memoirs poetry graffiti official archives and material culture as well as the words of war criminals traitors surrealist artists and many others she reveals what life was like inside these brutal Nazi prisons *Revue d'histoire de la deuxième guerre mondiale* Henri Michel,1978 *The Model Occupation* Madeleine Bunting,2014-07-24 A masterly work of profound research and reflection objective and humane Hugh Trevor Roper Sunday Telegraph What would have happened if the Nazis had invaded Britain How would the British people have responded with resistance or collaboration In Madeleine Bunting s pioneering study we begin to find the answers to this age old question Though rarely remembered today the Nazis occupied the British Channel Islands for much of the Second World War In piecing together the fragments left behind from the love affairs between island women and German soldiers the betrayals and black marketeering to the individual acts of resistance Madeleine Bunting has brought this uncomfortable episode of British history into full view with spellbinding clarity
