Channeling Blackness Popular Television And The American Racial Order Media And African Americans:

Channeling Blackness Darnell M. Hunt, 2005 Blackness has always played a central role in the American imagination Therefore it should not be surprising that popular television a medium that grew up with the Civil Rights Movement has featured blackness as both a foil and a key narrative theme throughout its sixty year existence Ironically in modern colorblind times we are faced with a unique turn of events blackness is actually over represented in television sitcoms and dramas Channeling Blackness Studies on Television and Race in America presents fifteen classic and contemporary studies of the shifting complex relationship between popular television and blackness Using a variety of methodological and theoretical approaches these essays examine four key issues that have framed popular and scholarly inquiries into the nature of race on television The black white binary The power of media Distinguishing between negative and positive images The relative importance of markets versus racial motives in television Firmly establishing popular television as a central cultural forum in our society Channeling Blackness looks at how television has profoundly shaped and been shaped by America's ambivalent relationship with blackness It provides numerous examples of how our current interaction with television distinguishes the lived experiences of today from those of the past The book also shows how the entertainment function of television often masks its ideological purpose particularly its role in reflecting and reproducing America's racial order A useful supplement in any number of courses on race and society Channeling Blackness is an ideal text for advanced undergraduate and graduate courses on race and media media and society television studies television criticism communication studies and African American and ethnic studies

Black Television Travels Timothy Havens, 2013-04 Black Television Travels provides a detailed and insightful view of the roots and routes of the televisual representations of blackness on the transnational media landscape By following the circulation of black cultural

products and their institutionalized discourses including industry lore taste cultures and the multiple stories of black experiences that have and have not made it onto the small screen Havens complicates discussions of racial representation and exposes possibilities for more expansive representations of blackness while recognizing the limitations of the seemingly liberatory spaces created by globalization Bambi Haggins Associate Professor of Film and Media Studies at Arizona State University A major achievement that makes important contributions to the analysis of race identity global media nation and television production cultures Discussions of race and television are too often constricted within national boundaries yet this fantastic book offers a strong compelling and utterly refreshing corrective Read it assign it use it Jonathan Gray author of Television Entertainment Television Studies and Show Sold Separately Black Television Travels explores the globalization of African American television and the way in which foreign markets programming strategies and viewer preferences have influenced portrayals of African Americans on the small screen Television executives have been notoriously slow to recognize the potential popularity of black characters and themes both at home and abroad As American television brokers increasingly seek revenues abroad their assumptions about saleability and audience perceptions directly influence the global circulation of these programs as well as their content Black Television Travels aims to reclaim the history of African American television circulation in an effort to correct and counteract this predominant industry lore Based on interviews with television executives and programmers from around the world as well as producers in the United States Havens traces the shift from an era when national television networks often blocked African American television from traveling abroad to the transnational post network era of today While globalization has helped to expand diversity in African American television particularly in regard to genre it has also resulted in restrictions such as in the limited portrayal of African American women in favor of attracting young male demographics across racial and national boundaries Havens underscores the importance of examining boardroom politics as part of racial discourse in the late modern era when transnational cultural industries like television are the primary sources for dominant representations of blackness Timothy Havens is an Associate Professor of television and media studies in the Department of Communication Studies the Program in African American Studies and the Program in International Studies at the University of Iowa In the Critical Cultural Communication series Maid for Television L. S. Kim, 2023-08-11 Honorable Mention Association for Asian American Studies Book Award in the Media Performance and Visual Studies category Maid for Television examines race class and gender relations as embodied in a long history of television servants from 1950 to the turn of the millennium Although they reside at the visual peripheries these figures are integral to the idealized American family Author L S Kim redirects viewers gaze towards the usually overlooked interface between characters which is drawn through race class and gender positioning Maid for Television tells the stories of servants and the families they work for in so doing it investigates how Americans have dealt with difference through television as a medium and a mediator The book philosophically redirects the gaze of television and its projection of racial discourse

The Colorblind Screen Sarah E. Turner,Sarah Nilsen,2014 The election of President Barack Obama signaled for many the realization of a post racial America a nation in which racism was no longer a defining social cultural and political issue While many Americans espouse a colorblind racial ideology and publicly endorse the broad goals of integration and equal treatment without regard to race in actuality this attitude serves to reify and legitimize racism and protects racial privileges by denying and minimizing the effects of systematic and institutionalized racism In The Colorblind Screen the contributors examine television s role as the major discursive medium in the articulation and contestation of racialized identities in the United States While the dominant mode of televisual racialization has shifted to a colorblind ideology that foregrounds racial differences in order to celebrate multicultural assimilation the volume investigates how this practice denies the significant social economic and political realities and inequalities that continue to define race relations today Focusing on such iconic figures as President Obama LeBron James and Oprah Winfrey many chapters examine the ways in which race is read by television audiences and fans Other essays focus on how visual constructions of race in dramas like 24 *Sleeper Cell* and *The Wanted* continue to conflate Arab and Muslim identities in post 9 11 television The volume offers an important intervention in the study of the televisual representation of race engaging with multiple aspects of the mythologies developing around notions of a post racial America and the duplicitous discursive rationale offered by the ideology of colorblindness

Ward,2015-11-02 From The Real Housewives of Atlanta to Flavor of Love reality shows with predominantly black casts have often been criticized for their negative representation of African American women as loud angry and violent Yet even as these programs appear to be rehashing old stereotypes of black women the critiques of them are arguably problematic in their own way as the notion of respectability has historically been used to police black women s behaviors The first book of scholarship devoted to the issue of how black women are depicted on reality television Real Sister offers an even handed consideration of the genre The book s ten contributors black female scholars from a variety of disciplines provide a wide range of perspectives while considering everything from Basketball Wives to Say Yes to the Dress As regular viewers of reality television these scholars are able to note ways in which the genre presents positive images of black womanhood even as they catalog a litany of stereotypes about race class and gender that it tends to reinforce Rather than simply dismissing reality television as trash this collection takes the genre seriously as an important touchstone in ongoing cultural debates about what constitutes trashiness and respectability Written in an accessible style that will appeal to reality TV fans both inside and outside of academia Real Sister thus seeks to inspire a more nuanced thoughtful conversation about the genre s representations and their effects on the black community **Intercultural Communication for Everyday Life** John R.
