Chains Of Fortune Linking Women Producers And Workers With Global Markets:

Chains of Fortune Marilyn Carr, 2004 Extrait de la couverture Much has been written about the negative impact of globalisation on the world's poor and especially on women. But globalisation also opens up new economic opportunities if poor women producers and workers are enabled to take advantage of them. The need for assistance differs between independent producers on the one hand and wage workers in export industries on the other. In the former case the need mainly is for increased access to global markets. In the latter case the need mainly is for better organizing so as to bargain for better wages and working conditions. This edited volume brings together six case studies. Three link local producers with global markets. Three focus on improving the working conditions of the hundreds of thousands of wage workers in global value chains.

Fifty Years of Bangladesh Rounaq Jahan, Rehman Sobhan, 2013-11-30 Fifty Years of Bangladesh portrays the multi-faceted dimensions of Bangladesh's development journey: its economic and social transformation and political and cultural contestations. The book presents new empirical data supplemented with critical analysis of processes, actors and actions that have been the drivers of Bangladesh's transformation and offers new ways of understanding Bangladesh. Organized in six sections, the book provides a multi-disciplinary, holistic and interrelated narrative of the Bangladesh story covering its economic and social transformation, the political history and changing cultural landscapes. It presents new empirical data and proposes new theoretical and analytical frameworks to explain the country's complex and paradoxical developments. Capturing the vast landscape of changes that have taken place in different sectors of Bangladesh during the last fifty years, the contributors analyse the variety of Bangladesh's experiences, its achievements as well as the shortfalls and mistakes. They propose new models and perspectives to ground Bangladesh's developments, identify persistent and emerging challenges and suggest ways forward. A valuable addition to scholarship on Bangladesh, this book can be used as a reference in universities, research institutions and international development agencies interested in Development Studies, South Asian Studies and studies of the Global South.

Gender Dimensions of Investment Climate Reform Sevi Simavi,Clare Manuel,Mark Blackden,2010-01-06 The economic empowerment of women is increasingly seen as one of the most important forces behind economic growth and the fight against poverty Indeed women s economic participation in an economy as entrepreneurs employees and leaders is recognized as a measure of a country s dynamism and viability Gender Dimensions of Investment Climate Reform provides fresh solutions to common issues that women entrepreneurs face It presents actionable replicable and scalable tools for promoting gender sensitive investment climate reforms that would benefit both women and men The book enables development practitioners and policy makers who are not gender specialists to diagnose gender issues in an investment climate design creative and practical solutions and recommendations for addressing gender constraints and monitor and evaluate the implementation of those recommendations The Invisible Hand(out) Samuel Brazys,2025-07-11 The Invisible Hand out Aid Trade and Unequal Globalization examines the relationship between foreign aid market access and economic growth in developing countries during the era of globalization Despite the rapid integration of global markets lifting millions of people out of poverty disparities remain with some nations thriving while others falter This book argues that explanations focusing solely on domestic governance and institutions or geography fall short in explaining these divergences Instead it highlights the critical role of external factors specifically the availability of trade effective aid and the presence of meaningful market access opportunities Drawing on extensive fieldwork and novel datasets the book offers both quantitative and qualitative evidence in support of its arguments Brazys considers a number of in depth cases including success stories Indonesia and Vietnam where strategic aid and market access drove transformative growth alongside cases including Madagascar and the Federated States of Micronesia who have stagnated despite high overall levels of aid and de jure market

access With a focus on both economic data and the lived realities of development practitioners and exporters The Invisible Hand out bridges theoretical insights and practical implications offering policymakers academics and development professionals a fresh lens on addressing global inequality and fostering sustainable growth *Global Monitoring Report 2007* World Bank Publications,2007-01-01 The 2007 Global Monitoring Report on the Millennium Development Goals MDGs assesses the contributions of developing countries developed countries and international financial institutions toward meeting universally agreed development commitments Fourth in a series of annual reports leading up to 2015 this year s report reviews key developments of the past year emerging priorities and provides a detailed region by region picture of performance in the developing regions of the world drawing on indicators for poverty education gender equality health and other goals Subtitled Confronting the Challenges of Gender Equality and Fragile States this year s report highlights two key thematic areas gender equality and empowerment of women the third MDG and the special problems of fragile states where extreme poverty is increasingly concentrated The report which is jointly issued by the World Bank and the International Monetary Fund argues that gender equality and the empowerment of women are central to the development agenda This is because gender equality makes good economic sense and because it helps advance the other development goals including education nutrition and reducing child mortality Rapid progress has been made in some areas such as achieving educational parity for girls in primary and secondary school in most countries But in many other dimensions including political representation and participation in nonagricultural employment performance still falls short Better monitoring and efforts at mainstreaming gender equality requires realistic goals strong leadership technical expertise and financing **Rising**

Wages in Bangladesh Xiaobo Zhang,Shahidur Rashid,Kaikaus Ahmad,Valerie Mueller,Hak Lim Lee,Solomon Lemma,Saika Belal,Akhter Ahmed,2013-03-11 Using data from multiple sources we show that in Bangladesh the increase in real wages particularly female wages has accelerated since the late 2000s suggesting that the Lewis turning point the point at which the labor market starts to shift in favor of workers has arrived in Bangladesh Rising wages are likely a result of a combination of more ample job opportunities in the nonfarm sector especially in the manufacturing sector for females and a greater amount of remittances primarily from male workers overseas Since human capital is the most important asset for the poor the escalation in real wages has boosted the poor s earnings thereby reducing their likelihood of being poor **Securing food**

has been keeping ahead of population growth resulting in higher per capita availability of food over time In the early 1970s Bangladesh was a food deficit country with a population of about 75 million Today the population is 165 million and the country is now self sufficient in rice production which has tripled over the past three decades Along with enhanced food production increased income has improved people s access to food Furthermore nutritional outcomes have improved significantly Nevertheless the challenges to food and nutrition security remain formidable Future agricultural growth and food and nutrition security are threatened by population growth worsening soil fertility diminishing access to land and other scarce natural resources increasing vulnerability of crop varieties to pests and diseases and persistent poverty leading to poor access to food In addition the impacts of climate change an increase in the incidence of natural disasters sea intrusion and salinity will exacerbate food and nutrition insecurity in the coming decades if corrective measures are not taken Aligned with this context the authors of the book explore policy options and strategies for developing agriculture and improving food security in Bangladesh Securing Food for All in Bangladesh with its breadth and scope will be an invaluable resource for policymakers researchers and students dedicated to improving people s livelihoods in Bangladesh Phone Clones Kiran Mirchandani,2012-04-17 Transnational customer service workers are an emerging touchstone of globalization given their location at the intersecting borders of identity class nation and production Unlike outsourced manufacturing jobs call center work requires voice to voice conversation with distant customers part of the product being exchanged in these interactions is a responsive caring connected self In Phone Clones Kiran Mirchandani explores the experiences of the men and women who work in Indian call centers through one hundred interviews with workers in Bangalore Delhi and Pune As capital crosses national borders colonial histories and racial hierarchies become inextricably intertwined As a result call center workers in India need to imagine themselves in the eyes of their Western clients to represent themselves both as foreign workers who do not threaten Western jobs and as being just like their customers in the West In order to become these imagined ideal workers they must be believable and authentic in their emulation of this ideal In conversation with Western clients Indian customer service agents proclaim their legitimacy an effort Mirchandani calls authenticity work which involves establishing familiarity in light of expectations of difference In their daily interactions with customers managers and trainers Indian call center workers reflect and reenact a complex interplay of colonial histories gender practices class relations and national interests

Health in Megacities and Urban Areas Alexander Krämer, Mobarak Hossain Khan, Frauke Kraas, 2011-07-06 Diverse driving forces processes and actors are responsible for different trends in the development of megacities and large urban areas Under the dynamics of global change megacities are themselves changing On the one hand they are prone to increasing socio economic vulnerability due to pronounced poverty socio spatial and political fragmentation sometimes with extreme forms of segregation disparities and conflicts On the other hand megacities offer positive potential for global transformation e g minimisation of space consumption highly effective use of resources efficient disaster prevention and health care options if good strategies were developed At present in many megacities and urban areas of the developing world and the emerging economies the quality of life is eroding Most of the megacities have grown to unprecedented size and the pace of urbanisation has far exceeded the growth of the necessary infrastructure and services As a result an increasing number of urban dwellers are left without access to basic amenities like clean drinking water fresh air

and safe food Additionally social inequalities lead to subsequent and significant intra urban health inequalities and unbalanced disease burdens that can trigger conflict and violence between subpopulations The guiding idea of our book lies in a multi and interdisciplinary approach to the complex topic of megacities and urban health that can only be adequately understood when different disciplines share their knowledge and methodological tools to work together We hope that the book will allow readersto deepen their understanding of the complex dynamics of urban and megacity populations through the lens of public health geographical and other research perspectives

Islamic NGOs in Bangladesh Mohammad Musfequs Salehin,2016-01-13 NGOs Non Governmental Organizations have emerged in both a development and aid capacity in Bangladesh providing wide reaching public services to the country s population living in extreme poverty However resistance to and limitations of NGO led development which in conjunction with Bangladesh s social transformation led to a new religious based NGO development practice Looking at the role of Islamic NGOs in Bangladesh the book investigates new forms of neoliberal governmentality supported by international donors It discusses how this form of social regulation produces and reproduces subjectivities particularly Muslim women subjectivity and has combined religious and economic rationality further complicating the boundaries and the relationship between Islam modernity and development The book argues that both secular and Islamic NGOs target women in the name of empowerment but more importantly as the most reliable partners to meet their debt obligations of micro financing schemes including shari a based financing The targeted

women in turn experience Islamic NGOs as less coercive and more sensitive to their religious environment in the rural village community than are secular NGOs Providing a comparative study of the role of religious and secular NGOs in the implementation of neoliberal policies and development strategies this book will be a significant addition to research on South Asian Politics Development Studies Gender Studies and Religion **Trading Stories** Marilyn Carr, Mariama Williams, 2010 Comprises 20 case studies on the gender impact of trade frameworks such as the General Agreement on Trade and Services and sanitary and phytosanitary measures Presents best practice models that link women with global markets including fair trade organic niche and mainstream markets **The Palgrave Handbook of International Trade and Development in Africa** Matthew Kofi Ocran, Joshua Yindenaba Abor, 2024-11-06 This book explores the intricate activities and systems that underpin international trade and development in Africa The relationship between trade and economic performance is analysed with a particular emphasis on financial development trade liberalization and the welfare implications of FTA A critical reflection of international trade and development in Africa is provided that highlights how institutions that govern the international trade system largely found in the Global North have enabled developed countries to benefit most from African trade Emerging issues such as FDI the COVID 19 pandemic the gendered nature of trade remittances and digital trade are also discussed This book aims to examine how Africa can play a more active role international trade and how the trade systems can be altered to help drive economic growth and development in Africa It will be relevant to students and researchers interested in development and African economics **Gender Aspects of the Trade and Poverty Nexus** Maurizio Bussolo, Rafael E. De Hoyos, 2009-04-09 Trade liberalization can create economic opportunities for poor people But are these opportunities available to men and women equally Do the gender disparities in access to education health credit and other resources limit the gains from trade and the potential benefits to poor women This volume introduces the gender dimension into empirical analyses of the links between trade and poverty which can improve policy making The collection of chapters in this book is close to an ideal macro micro evaluation technique that explicitly assesses the importance of gender in determining the poverty effects of trade shocks Part I relying on ex ante simulation approaches focuses on the macroeconomic links between trade and gender where labor market structure and its functioning play a key role Part II concentrates on micro models of households and attempts to identify the ex post effects of trade shocks on household income levels and consumption choices It also addresses questions about possible changes in inequality within households due to improved economic opportunities for women Gender Aspects of the Trade and Poverty Nexus will be invaluable to policy makers development practitioners and researchers journalists and students
