Challenge Of Urban Government Policies And Practices:

The Challenge of Urban Government Mila Freire, Richard E. Stren, 2001-01-01 Cities and towns are vital for the development of economic systems and social organisations. However, cities face tremendous challenges. They have to simultaneously attract business, provide a good livelihood for their inhabitants, generate enough resources to finance infrastructure and social needs, and take care of their poor. The Challenge of Urban Government Policies and Practices looks at the consequences of globalisation on city management. This book focuses on the complex of issues generated in urban areas such as the dynamics of metropolitan spaces and the need to define strategic territory for operational and policy purposes. Some urgent challenges include how to handle spillovers across municipalities and the need to create a new city structure over an existing city to give the suburbs some elements of centrality. It examines the dynamics of governance and how to get stakeholders' participation in the government process.

International Public Policy Analysis George Guess, Thomas Husted, 2016-07-15 Most public policy analysis books currently on the market are US centric and focused on quantitative analysis, while comparative public policy textbooks are oriented around countries and specific policy processes. International Public Policy Analysis is the first textbook to take a truly comparative and cross-cultural approach, organized around policy issues to examine important policy lessons that affect the everyday lives of citizens. Authors George Guess and Thomas Husted demonstrate that incremental marginal changes in sectoral policy systems using cross-national lessons can lead to larger changes in country policies, democracy, and better governance. While whole systems policy transfer without major adaptation to local cultural and institutional contexts often does not work, many opportunities exist in each sector for operational level piecemeal transfer of lessons and practices to improve policy performance. Jargon-free and using a cross-cultural approach, the individual chapters in this book utilize a 3-level analysis to review the policy issue areas, present analytic tools and frameworks, and provide cases/exercises for practice in applying the methods and frameworks. International Public Policy Analysis is an essential upper-level undergraduate and graduate textbook for courses on comparative public policy, policy process, political economy, and international policy analysis, and may also be used as required reading in introductory public affairs and policy courses at the graduate level.

Improving the Lives of the Poor by Investing in Cities Roy Gilbert, 2003 Cities are home to 525 million poor people throughout the world. This study assesses the performance of 99 World Bank urban development operations completed since 1993, focusing on how these interventions have improved the living conditions of the urban poor. Findings include that the projects improved livability conditions significantly, including access to better basic water, sewerage, and solid waste disposal. However, there is a need for more systematic monitoring and evaluation of the poverty alleviation results of such urban development assistance.

Guide to Municipal Finance Naomi Enid Slack, 2009

Urban Development and Planning Bikram Pattanaik, 2025-03-20 This book details the most contemporary concerns related to urban development, governance, and planning, as well as the challenges to urban administration. It

analyses the policies and programmes adopted by both high income and lower middle income countries to achieve sustainable urbanization and their application and treatment to help students get a holistic practical perspective of the issues at hand This volume elucidates urban development theories and approaches coupled with urban planning local government finance urban management and urban governance It also discusses urban issues and challenges such as education health waste management land use planning housing and transport Critical concerns related to urban water bodies open spaces urban heritage and smart cities and urban future are similarly addressed This book will be useful to students researchers and teachers of urban planning and architecture urban sociology economics geography environmental science and public administration It shall also be useful to NGOs parastatal bodies and trainers of urban planning and development Planners policymakers functionaries and elected representatives of urban local bodies may also use this book as a capacity building instrument

Perspectives on Fiscal Federalism Richard Miller Bird, François Vaillancourt, 2006-01-01 This book addresses a variety of issues relating to intergovernmental finance and the provision and financing of local services including budgeting and financial management the institutional framework for the conduct of intergovernmental relations appropriate methods of service delivery in metropolitan agglomerations and remote rural areas local government enterprises user charges property taxes income and value added taxes natural resource taxes and local business taxes Throughout the authors draw on experience both in Canada and in other decentralized countries and consider to vary

Municipal Infrastructure Financing Munawwar Alam, 2010 Provides an overview of the municipal finances and the extent of private sector involvement in the delivery of municipal services in selected Commonwealth developing countries Four cities are examined in detail Dar es Salaam in Tanzania Kampala in Uganda Dhaka in Bangladesh and Karachi in Pakistan

Facets of Globalization Shahid Yusuf, Simon J. Evenett, Weiping Wu, 2001-01-01 Since 1985 national economies have become increasingly integrated into a global network At the same time both population and production in developing countries are becoming concentrated in urban regions This in turn has generated demands for more local autonomy shifting more decision making to sub national levels Globalization is expected to continue leading to greater openness and international mobility of capital and people There are few reasons to believe that these trends will abate if anything they are likely to intensify the focus on cities and sharpen competition among these for international and local resources This volume underscores the transformative role of globalization and urbanization and shows the interplay between the two forces

Private Sector Involvement in Urban Solid Waste Collection Sampson Oduro-Kwarteng, 2011-09-28 The private sector involvement in public service is intended to achieve efficiency gain and better service quality through increasing private sector finance and expertise However these benefits are most often not achieved in developing countries due to investment risk of private finance and problems of capacity and regulation of the private sector This book examines private sector involvement PSI in solid waste collection by exploring the influence of private sector capacity and Local Governments regulations on private

sector performance in terms of productivity and service quality PSI in public service provision evolved to deal with market and government failures so this study uses market and regulatory theories to explore the gaps in policy and practice of PSI and the factor explaining private sector performance in five cities in Ghana The study shows there were weak regulatory practices and non adherence to contractual obligations unsigned contracts and delayed payment of subsidy and consequently led to disincentives for full cost recovery and better service quality However there is now a gradual well functioning system being put in place with the recent competitive bidding in two cities with signing of contracts and city wide user charging This study concludes that the solutions to the problem of solid waste collection and management in developing countries hinge on adherence to formal rules of regulation use of appropriate cost recovery mechanism for low income group and restructuring of institutional arrangement to enforce legislation

National Policy Responses to Urban Challenges in Europe Leo van den Berg,Erik Braun,J. van der Meer,2007 This book presents a unique overview of urban policy conducted by national authorities in the fifteen old member states of the EU It focuses on recent changes in the development of the larger cities and changes in policymaking by national authorities with respect to urban development The book provides an up to date source of information and will be of importance to anyone involved in the role and development of European cities as well as the formulation and delivery of associated national policies

Globalisation and the Politics of Forgetting Yong-Sook Lee,Brenda S.A. Yeoh,2018-10-24 In both academic scholarship and the popular imagination the globality of modern society has been represented by global cities as the corporate and financial epicentres for capital accumulation cosmopolitan cultures and innovative change This has created an image of the globalised world as empty beyond cities which make it into the global league as paradigmatic celebrity cities As a counterpoint this book give interpretive weight elsewhere in other places cities and regions drawing on a range of examples from both the developed and developing worlds This book was previously published as a special issue of the journal Urban Studies

Urban Policy in Practice Tim Blackman,2013-01-11 Urban Policy and Practice is a practical and critical guide to urban policy in contemporary Britain The book covers a range of topics including Quality and consumerism in the public sector Community development Public Health Environmental issues Local intervention in the creation of skills and jobs Case studies are drawn from housing planning the social services

economic development and local government finance Throughout the concern is for a clear analysis of corporate strategies democratic control and sustainable development

Public Services Delivery World Bank,2005 This publication sets out a framework for analysing the performance of governments in developing countries looking at the government as a whole and at local and municipal levels and focusing on individual sectors that form the core of essential government services such as health education welfare waste disposal and infrastructure It draws lessons from performance measurement systems in a range of industrial countries to identify good practice around the world in improving public sector governance combating corruption and making services work for poor people

Tourism and Responsibility Martin Mowforth,Clive Charlton,Ian Munt,2008 This book discusses the responsibility or otherwise of tourism activities in Latin America and the Caribbean It considers issues such as the reduction of poverty through tourism and the conflict between increasing volumes of air travel spent in our continuing search for pleasure and the resulting contribution to global warming The authors believe that tourism can only be adequately assessed through a consideration of how it fits into the structure of power It is also argued that tourism cannot be analyzed without a consideration of its impacts on and links with development This relationship between tourism responsibility power and development is explored in chapters covering both the macro and the micro level of responsibility The authors look at methods of practising tourism responsibly or irresponsibly at the personal company national and international levels The questions and dilemmas of placing responsibility in the tourism industry are examined throughout Widely illustrating all these themes and issues with examples and case studies from throughout the sub continent this book will be of importance to

students and academics and to the work of practitioners of development and tourism related projects run by both governmental and non governmental aid and development agencies OECD Public Governance Reviews Tackling Policy Challenges Through Public Sector Innovation A Strategic Portfolio Approach OECD,2022-11-23 This report discusses how steering innovation investment in public sector organisations through a portfolio approach can help governments respond to the multi faceted challenges they face Portfolio management is a well known device in the financial sector allowing for dynamic decision making processes involving regular reviews of activity and ensuring a coherent distribution of resources among strategic options Challenges to Urban Democratic Governance in Zimbabwe Jephias Mapuva,2014-06-30

Challenges to Urban Democratic Governance in Zimbabwe is a result of a study on urban governance in Zimbabwe focusing particularly on local councils and how special interest councillors are appointed by the Minister responsible for local government The book establishes the extent to which the practice of appointing special interest councillors in terms of section 4 A of the Zimbabwe Urban Councils Act 2008 promotes or hinders democratic urban governance The text investigates various different legislative instruments in order to present a normative framework on the best practices in democratic urban governance A cross section of 20 urban councils was studied to establish a suitable level of accountability and consistency as well as to provide an understanding of transparency in the appointment of special interest councillors Among the findings of this book it is noted that there is a high level of partisanship in the appointment of special interest councillors especially of those who have lost in the local government elections but belong to the same political party as the Minister of Local Government who in this case is empowered by law to make such appointments **Policy and Practice Challenges for Equality in Education** Neimann, Theresa,Felix, Jonathan J.,Shliakhovchuk, Elena,Hindman, Lynne L.,2021-09-10 Well educated populations are important aspects of any contemporary society as education increases national and global development and the positive expansion of communities to participate actively in civil matters also increases Educational equality is based on the principles of administrative competence and fairness of access and distribution of resources opportunities and treatment which ensures success for every person Ensuring equal access to quality education requires addressing a wide range of persistent inequalities in society and includes a stronger focus on how different forms of inequalities intersect to produce unequal opportunities or outcomes that affect marginalized and vulnerable groups Policy and Practice Challenges for Equality in Education takes a multifaceted look at issues of equality and inequality in education as related to policy practice resource access and distribution As such this book explores the potential practices in education that serve to mitigate and transform unproductive practices which have left societies scarred by social and educational inequalities The chapters provide a critical analysis of the manifestations of inequalities in various educational contexts and discerns how broader social inequalities are informed by education related matters This book is ideal for sociologists administrators instructors policymakers data scientists community leaders practitioners stakeholders researchers
