Challenging Of America 1920-1945:

The Challenging of America, 1920-1945 Michael L. Kurtz, 1986 Evangelicalism Richard Kyle, 2017-09-20 Most forms of religion are best understood in the context of their relationship with the surrounding culture. This may be particularly true in the United States. Certainly immigrant Catholicism became Americanized; mainstream Protestantism accommodated itself to the modern world; and Reform Judaism is at home in American society. In *Evangelicalism* Richard Kyle explores paradoxical adjustments and transformations in the relationship between conservative Protestant Evangelicalism and contemporary American culture. Evangelicals have resisted many aspects of the modern world, but Kyle focuses on what he considers their romance with popular culture. Kyle sees this as an Americanized Christianity rather than a Christian America, but the two are so intertwined that it is difficult to discern the difference between them. Instead, in what has become a vicious self-serving cycle, Evangelicals have baptized and sanctified secular culture in order to be considered culturally relevant, thus increasing their numbers and success within an abundantly populous and populist-driven American society. In doing so, Evangelicalism has become a middle-class movement, one that dominates America's culture and unabashedly populist. Many Evangelicals view America as God's chosen nation, thus sanctifying American culture, consumerism, and middle-class values. Kyle believes Evangelicals have served themselves well in consciously and deliberately adjusting their faith to popular culture. Yet he also thinks Evangelicals may have compromised themselves and their future in the process, so heavily borrowing from the popular culture that in many respects the Evangelical subculture has become secularism with a light gilding of Christianity. If so, he asks, can Evangelicalism survive its own popularity and reaffirm its religious origins, or will it assimilate and be absorbed into what was once known as the Great American Melting Pot of religions and cultures? Will the Gospel of the American dream ultimately engulf and destroy the Gospel of Evangelical success in America? This thoughtful and thought-provoking volume will interest anyone concerned with the modern-day success of the Evangelical movement in America and the aspirations and fate of its faithful. The Dancer's World, 1920 - 1945 M. Huxley, 2015-05-12 *The Dancer's World 1920-1945* focuses on modern dancers as they saw themselves. Five chapters describe a narrative arc that encompasses Europe and the USA with a focus between 1920 and 1945. A final chapter considers contemporary relevance for dancers, dance artists, choreographers, dance students, and scholars alike.

The Human Tradition in America between the Wars, 1920-1945 Donald W. Whisenand, 2002-04-01 American society in the years from 1920 to 1945 experienced great transformation and upheaval. Significant changes in the role of government, the nation's world outlook, the economy, technology, and in the social order challenged those who lived in this tumultuous period framed by the two world wars. This transformation lies at the core of this collection of biographical essays. Each individual in his or her own way grappled with the difficulties of the times. Some of those included here were well known in their day and afterwards, but many led lives now obscured by the passage of time. In these essays are men and women, African Americans, Hispanics, whites, and Native Americans from all regions of the

country Written by leading and rising scholars these never before published pieces provide students with a greater understanding of a period that in many ways represents an important last chapter in the creation of modern America Providing a rich portrait through biography of the interwar years The Human Tradition in America between the Wars is an excellent text for the following courses Twentieth Century American History to 1945 American history survey the Depression and the New Deal and American social and cultural history Sexuality, Politics, and Social Control in Virginia, 1920-1945 Pippa Holloway, 2007-09-06 In the first half of the twentieth century white elites who dominated Virginia politics sought to increase state control over African Americans and lower class whites whom they saw as oversexed and lacking sexual self restraint In order to reaffirm the existing political and social order white politicians legalized eugenic sterilization increased state efforts to control venereal disease and prostitution cracked down on interracial marriage and enacted statewide movie censorship Providing a detailed picture of the interaction of sexuality politics and public policy Pippa Holloway explores how these measures were passed and enforced The white elites who sought to expand government s role in regulating sexual behavior had like most southerners a tradition of favoring small government so to justify these new policies they couched their argument in economic terms a modern progressive government could provide optimum conditions for business growth by maintaining a stable social order and a healthy docile workforce Holloway s analysis demonstrates that the cultural context that characterized certain populations as sexually dangerous worked in tandem with the political context that denied them the right to vote This perspective on sexual regulation and the state in Virginia offers further insight into why white elite rule mattered in the development of southern governments **Vietnamese Tradition on Trial, 1920-1945** David G. Marr, 1984-02-03 Despite the historical importance of the Vietnam War we know very little about what the Vietnamese people thought and felt prior to the conflict Americans have tended to treat Vietnam as an extension of their own hopes and fears successes and failures rather than addressing the Vietnamese record In this volume David Marr offers the first serious intellectual history of Vietnam focusing on the period just prior to full scale revolutionary upheaval and protracted military conflict He argues that changes in political and social consciousness between 1920 and 1945 were a necessary precondition to the mass mobilization and people s war strategies employed subsequently against the French and the Americans Thus he rejects the prevailing notion that Vietnamese success was primarily due to communist techniques of organization However Vietnamese Tradition on Trial goes beyond simply accounting for anyone s victory or defeat to an informed description of intellectual currents in general Replying for his information on a previously ignored corpus of books pamphlets periodicals and leaflets the author isolates eight issues of central concern to twentieth century Vietnamese The new intelligentsia indubitably the product of a peculiar French colonial milieu yet never divorced from the Vietnamese past and always looking to a brilliant Vietnamese future spearheaded every debate beginning ini 1925 After 1945 Vietnamese intellectuals either placed themselves under ruthless battlefield discipline or withdrew to private meditation David Marr suggests that the new

problems facing Vietnamese today make both of these approaches anachronistic Whether the Vietnam Communist Party will allow citizens to subject received wisdom to critical debate to formulate new explanations of reality to test those explanations in practice is the essential question lingering at the end of this study

Bahrain 1920-1945 M. A. Al-Tajir, 2023-05-31 First published in 1987 Bahrain provides a modern history of Bahrain from 1920 1945 The end of the fifty years of administration of Shaikh Isabin Ali Althalifah in 1923 heralded an intensive period of modernisation of Bahrain However the political move which brought about these changes are complex and difficult to disentangle It is apparent that the Foreign Office the Government of India and the British political authorities in the Gulf all played a part but this book is the first one to analyse the extent and effectiveness of the involvement of each of these bodies The central element of the modernisation process which took place under Shaikh Hamad s administration are also discussed These includes creation of an organised government structure educational reforms reforms of the pearling industry and advent of the oil industry At each stage the author emphasizes how both political and economic changes were conditioned by the social context in particular by the tension between Sunnis and Shi ahs This book is a must read for students and scholars of Middle East history and specially history of Bahrain
