Challenging the Orthodoxies Richard M. Auty, 1996 **Challenging the Orthodoxies** Richard M. Auty, John Toye, 1996-10-15 This up to date interdisciplinary critique of the new economic orthodoxy known as the Washington Consensus begins with a review of the original thesis by the originator of the term Challenging Orthodoxies: The Social and Cultural Worlds of Early Modern Women Melinda S. Zook, 2016-04-15 Offering a broad and eclectic approach to the experience and activities of early modern women Challenging Orthodoxies presents new research from a group of leading voices in their respective fields Each essay confronts some received wisdom truth or orthodoxy in social and cultural scientific and intellectual and political and legal traditions to demonstrate how women from a range of social classes could challenge the conventional thinking of their time as well as the ways in which they have been traditionally portrayed by scholars Subjects include women s relationship to guns and gunpowder the law and legal discourse religion public finances and the new science in early modern Europe as well as women and indentured servitude in the New World A testament to the pioneering work of Hilda L Smith this collection makes a valuable contribution to scholarship in women s studies political science history religion and literature Taboo ,2003 Contesting Orthodoxies in the History of Christianity Ellie Gebarowski Bagley, Ellie Gebarowski-Shafer, Ashley Null, Alec Ryrie, 2021 Examines the pursuit of orthodoxy and its consequences for the history of Christianity Christianity is a hugely diverse and quarrelsome family of faiths but most Christians have nevertheless set great store by orthodoxy literally right opinion even if they cannot agree what that orthodoxy should be The notion that there is a catholic or universal Christian faith that which according to the famous fifth century formula has been believed everywhere at all times and by all people is itself an act of faith to reconcile it with the historical fact of persistent division and plurality requires a constant effort It also requires a variety of strategies from confrontation and exclusion through deliberate choices as to what is forgotten or ignored to creative or even indulgent inclusion In this volume seventeen leading historians of Christianity ask how the ideal of unity has clashed negotiated reconciled or coexisted with the historical reality of diversity in a range of historical settings from the early Church through the Reformation era to the twentieth and twenty first centuries These essays hold the huge variety of the Christian experience together with the ideal of orthodoxy which Christians have never yet fully attained but for which they have always striven and they trace some of the consequences of the pursuit of that ideal for the history of Christianity **Tort Law: Challenging Orthodoxy** Stephen G.A. Pitel, Jason W Neyers, Erika Chamberlain, 2014-07-18 In this book leading scholars from the United Kingdom the United States and Australia challenge established common law rules and suggest new approaches to both old and emerging problems in tort law Some of the chapters consider broad issues such as the importance of flexibility over certainty in tort law connections between tort law and human flourishing and the indirect effects of changes in tort law Other chapters engage more specific topics including the role of vindication in tort law the

Looking Beyond the Runway Nawal K. Taneja,2016-12-05 The global airline industry facing significant changes and discontinuity is prompted and forced to deal with a new normal Who would have imagined a few years ago that a significant percentage of consumers in the US now prefer to fly low cost airlines instead of full service airlines because they perceive the product to be better airlines would generate up to a third of their total income from non ticket revenue many low cost airlines would add complexity to their original simple business models through the development

of code share agreements the use of global distribution systems and travel agents to distribute their seats Jetstar a low cost subsidiary of Qantas would grow faster and be more profitable than its parent a survey carried out by Ryanair would show that 42 percent of passengers would be willing to stand on short one hour flights if they could pay 50 percent less than seated passengers passengers could pay as little as US 2 000 for a transatlantic Business Class ticket on top brand airlines Lufthansa would have ownership in airlines based in Austria Belgium Italy Switzerland Turkey the UK and the US and that it would continue to pursue equity ownership in airlines based in Poland and Scandinavia or the Japanese and Canadian governments would struggle to find different ways to bail out their heretofore flag carriers To deal with this upcoming new normal airlines have to go beyond their short term circumstantial strategies they need strategic renewal of their ageing business model In this candidly written book Nawal Taneja explains what will separate the winners from the losers He maintains the leaders will be the airlines that 1 exploit this crisis driven change to their best advantage 2 learn to work around the airline inherent constraints that prevent them from running their businesses just like other businesses 3 learn from successes and failures of other global enterprises 4 sharpen their business intelligence analytics and strategic agility and 5 proactively explore the pockets of growth in this emerging markets century To help airline executives become informed of new competitive games the author analyzes numerous business sectors such as auto hospitality retail technology and entertainment For example relevant lessons can be learned from the strategic mistakes made by the US automakers Likewise emergent and compelling insights can be gained in superior customer experience from Ritz Carlton and Zappos and in value creating innovation from Cirque du Soleil and Zipcar The book also features a multitude of forewords from airlines and related businesses to provide readers with multiple perspectives on the changing landscape in the global airline industry Nawal Taneja is a career analyst of the global airline industry with wide ranging experience in the aviation industry academia and public policy Encouraged by industry executives he has written five other books for practitioners in the global airline industry including FASTEN YOUR SEATBELT The Passenger is Flying the Plane and Flying Ahead of the Airplane Trust and Mistrust Aidan Ward, John Smith, 2004-11-19 If we trust someone we put ourselves at risk but we do so voluntarily In business there may be no way of clinching that deal without engaging in that personal risk but to deny or externalise that risk is to enter the world of blame and misuse of power This book reconnects our intuitive understanding of trust with the roots of business risk When there is a strong enough trust between parties in a business environment you can Be aware of far more of the workings of the environment including how to generate value for other stakeholders Strengthen business relationships which help to deal with unimagined opportunities and contingencies Understand how to develop lean business processes without unnecessary or counterproductive management activities Manage business risks that could otherwise play havoc with the business When business people deny the importance of trust when some of their business relationships become cynical and exploitative then a cycle is formed lack of trust leads to cynical actions and cynical actions lead to a

further erosion of trust In this book Aidan Ward and John Smith teach how to trust others and pinpoint real risk in business

Against Orthodoxy Trevor W. Harrison, Slobodan Drakulic, 2011-08-31 During the Cold War nationalism fell from favour among theorists as an explanatory factor in history as Marxists and liberals looked to class and individualism as the driving forces of change The resurgence of nationalism after the collapse of the Soviet Union however called for a reconsideration of the paradigm Against Orthodoxy uses case studies from around the world to critically evaluate decades of new scholarship The authors argue that theories of nationalism have ossified into a new set of orthodoxies These overlook nationalism's role as a generative force one that reflects complex historical political and cultural arrangements that defy simplistic explanations

Fensham,2012-12-06 Research in science education is now an international activity This book asks for the first time Does this research activity have an identity It uses the significant studies of more than 75 researchers in 15 countries to see to what extent they provide evidence for an identity as a distinctive field of research It considers trends in the research over time and looks particularly at what progression in the research entails It provides insight into how researchers influence each other and how involvement in research affects the being of the researcher as a person It addresses the relation between research and practice in a manner that sees teaching and learning in the science classroom as interdependent with national policies and curriculum traditions about science It gives graduate students and other early researchers an unusual overview of their research area as a whole Established researchers will be interested in and challenged by the identity the author ascribes to the research and by the plea he makes for the science content itself to be seen as problematic Chasing the Wind: Meditations on Ecclesiastes Timothy J. Ensworth,2018-02-02 Ecclesiastes is a strange and wonderful book It is a strange book because of its startling cynicism and words of wisdom that offer very little of the solace we might expect from sacred scripture And yet Ecclesiastes is a wonderful book precisely because it is strange Like Job and like Jesus it will not let us fall back on ready answers or take comfort in a religious orthodoxy that satisfies our need for order and predictability The Philosopher takes us to a place well beyond the limits of our understanding well beyond our capacity to know and do and control our own destiny The Philosopher like Job and like Jesus leads us well past the borders of our comfort zones to the place where God and God alone is
