with urbanism conjures questions even contradictions as the two ideas seem improbable yet their correspondence seems so inherently desirable Integrated these two constructs present design challenges as they manifest in differing ways across the rural urban transect In response Part I of this book establishes the theoretical framework through different contemporary perspectives and concludes with a clear explanation of a theory of serene urbanism The positive characteristics of urbanism and beneficial qualities of the serene are explored and related to sustainability biophilia placemaking and environmental design Both principles and examples are presented as compelling portraits for the proposal of these new urban landscapes Part II of the work is an in depth exploration and analysis of serene urban ideas related to the intentional community being created outside of Atlanta Georgia USA Serenbe is the name given to this place to commemorate the value and nuance between the serene and urban
