Beginning in the early 20th century when these islands were taken over by the Japanese Empire and continuing into the 21st century, the book examines 5 150 Japanese origin loanwords used in 14 different languages. It delves into semantic, phonological, and grammatical changes in these loanwords that form a fundamental part of the lexicons of the Pacific Island languages even now in the 21st century. The authors examine the usage of Japanese kana for writing some of the local languages and the pidginoid phenomena of Angaur Island. Readers will gain a unique understanding of the Japanese language's usage in the region from colonial times through the post-war period and well into the current century. Researchers, students, and practitioners in the fields of sociolinguistics, language policy, and Japanese studies will find this book particularly useful for the empirical evidence it provides regarding language contact situations and the various Japanese language influences in the Asia Pacific region. The authors also offer accompanying resources that help to further illustrate the examples found in the book. *Summoning the Powers Beyond* Jay Dobbin, Francis X. Hezel, 2011-09-30 *Summoning the Powers Beyond* collects and reconstructs the old religions of preindustrial Micronesia. It draws mostly from written sources from the turn of the nineteenth century and the period immediately after World War II: reports of the Hamburg South Sea Expedition of 1908-1910, articles by German Roman Catholic missionaries in Micronesia included in the journal *Anthropos*, and reports by the Coordinated Investigation of Micronesian Anthropology (CIMA) and the American Board of Commissioners of the Foreign Missions (ABCFM). A detailed introduction and an overview of Micronesian religion are followed by separate chapters detailing religion in the Chuukic-speaking islands: Pohnpei, Kosrae, the Marshall Islands, Yap, Palau, Kiribati, and Nauru. The Chamorro-speaking group of the Marianas is omitted because lengthy periods of intense military and missionary activity eradicated most of the local religion. The Polynesian outliers, Nukunono and Kapingamarangi, are discussed at the end, primarily to underscore the contrasts between Polynesian and Micronesian religion. In a concluding chapter, the author highlights the

similarities and differences between the areas within Micronesia and then attempts an appreciation or evaluation of Micronesia religion Finally he addresses the evidence of a tentative hypothesis that Micronesian religion is sufficiently different from that of Polynesia and Melanesia to justify the continued claim of a separate Micronesian religion **Oceanic Voices - European Quills** Steven Roger Fischer,2015-03-03 Oceanic Voices European Quills celebrates the linguistic historiography of two Oceanic poles The northwest Pacific s Chamorro of Guam and the Northern Marianas was the first 16th century and the southeast Pacific s Rapanui of Easter Island one of the last 19th century of the Austronesian tongues to inspire linguistic investigation within greater Oceania These pioneering efforts are honored in nine articles which document translate chronicle describe and analyze the earliest relics from these two island cultures This collection of articles reveals fundamental insights not only into earlier stages of both Chamorro and Rapanui but also into the very discipline of linguistic historiography in one of Earth s humanly richest and most fascinating regions **Substantive Evidence of Initial Habitation in the Remote Pacific: Archaeological Discoveries at Unai Bapot in Saipan, Mariana Islands** Mike T. Carson,Hsiao-chun Hung,2017-08-31 At the Unai Bapot Site of the Mariana Islands new excavation has clarified the oldest known instance of a residential habitation prior to 1500 B C in the Remote Pacific previously difficult to document in deeply buried layers that originally had comprised near tidal to shallow subtidal zones
