Chamorros and Carolinians of Saipan Alice Joseph, Veronica F. Murray, 1951-01-01 *Chamorros and Carolinians of Saipan* Alice Joseph, 1951 Mass Suicides on Saipan and Tinian, 1944 Alexander Astroth, 2019-04-10 When the Americans invaded the Japanese controlled islands of Saipan and Tinian in 1944 civilians and combatants committed mass suicide to avoid being captured Though these mass suicides have been mentioned in documentary films they have received scant scholarly attention This book draws on United States National Archives documents and photographs as well as veteran and survivor testimonies to provide readers with a better understanding of what happened on the two islands and why The author details the experiences of the people of the islands from prehistoric times to the present with an emphasis on the Japanese Okinawan Korean Chamorro and Carolinian civilians during invasion and occupation *A History of the Northern Marianas Educational System* Roman de los Santos, 2010-05-06 Culture and Social Psychiatry Marvin Opler, 2018-04-20 This brilliant and engrossing work of social synthesis replete with profound insights opens up new vistas on the relationship between culture and mental health The author uses his own extensive findings and his abundant knowledge of the cross cultural studies in psychiatry anthropology and sociology to demonstrate that throughout history mental disorders have been closely linked with the prevailing culture and have thus changed in kind and extent Opler s classic *Culture Psychiatry and Human Values* has here been revised and expanded to nearly twice the size of the original work The new materials present in greater depth the author s views on the connection between culture and mental health and broaden the perspectives of theory and research on cultural change and development the migration of acculturating populations and the resulting shifts in diagnostic and therapeutic problems brought about by the stresses of the modern world By enriching a survey of cultural evolution with fertile cross cultural comparisons and a discussion of the interaction between culture and personality Opler adds to our knowledge of the etiology and treatment of mental illnesses in primitive societies as well as among more advanced ethnic groups and subcultures in today s metropolis Of particular significance at a time when social and community psychiatry has assumed a major role all over the world this pioneering work is must reading not only for students of culture and personality psychiatrists social scientists and workers in community health programs but also for the educated reader concerned about these critical problems of our day **Bibliography of Amyotrophic Lateral Sclerosis and**

Anthropological Theory David Kaplan, Robert A. Manners, 2017-09-05 Anthropological theory has been much discussed in recent years yet the crucial questions still remain how can it be defined how is it developed how is it to be applied and how

can one confirm it The editors of Anthropological Theory answer these questions by presenting essays relating to various aspects of anthropological theory Their selections from widely scattered and often difficult to obtain sources present a comprehensive set of writings that describe the current position and issues involved in theory The development of field work in anthropology generated a tremendous emphasis on empirical data and research The plethora of information awaiting collection and the enthusiasm with which the field embraced it so immersed anthropologists that they were unable to relate this new information to the field as a whole Manners and Kaplan believe that this lack of generalization had a profoundly negative effect upon the discipline Therefore they look closely into the relationship between field work and theory in an opening essay and go on to present material that demonstrates the value and the necessity of theory in anthropology Essays by anthropologists and other social scientists deal with explanation evolution ecology ideology structuralism and a number of other issues reflecting throughout the editors conviction that anthropology is a science the goal of which is to produce generalizations about sociocultural phenomena The book provides necessary perspective for examining and evaluating the crucial intellectual concerns of modern anthropology and will therefore be important for the work of every anthropologist

Saipanese English Dominique B. Hess, 2023-07-15 In this volume the emergence of English in Saipan is examined in the complex context of its colonial past The focus lies on the influence of the American era on the linguistic outcomes in Saipan Sociolinguistic interviews with indigenous Chamorros and Saipan Carolinians were analyzed using qualitative and quantitative methods A general overview of the English spoken in Saipan and detailed analyses of selected morphosyntactic features are presented The English spoken by the local people presents an interesting transitional phase of English becoming a first language with unique local island features Results shed light on linguistic constraints globally and on social constraints in Saipan that motivate language variation and change locally This volume contributes to the literature of language variation and change lesser known varieties of English and the description and categorization of emerging English varieties within the canon of World Englishes

Jesuits at the Margins Alexandre Coello de la Rosa, 2015-12-07 In the past decades historians have interpreted early modern Christian missions not simply as an adjunct to Western imperialism but a privileged field for cross cultural encounters Placing the Jesuit missions into a global phenomenon that emphasizes economic and cultural relations between Europe and the East this book analyzes the possibilities and limitations of the religious conversion in the Micronesian islands of Gu han or Guam and the Northern Marianas Frontiers are not rigid spatial lines separating culturally different groups of people but rather active agents in the transformation of cultures By bringing this local dimension to the fore the book adheres to a process of missionary glocalization which allowed Chamorros to enter the international community as members of Spain s regional empire and the global communion of the Roman Catholic Church

Theory in Anthropology Robert A. Manners, David Kaplan, 2013-11-05 This is VII in a series of ten volumes on the Theory in Anthropology Originally published in 1968 this is a sourcebook that was created by the authors need for making

accessible in a single volume a sample of those important pieces which are presently scattered in numerous publications some of which are difficult for the student to obtain Our second reason had to do with certain convictions they hold about the aims and methods of anthropology Theory and Problems of Adolescent Development, Third Edition ,2002 Journal of an Expedition to the Western Caroline Islands Daniel Carleton Gajdusek,1962 *Research Relating to Children* ,1948-12 NIH Publication ,1983 **Exploring Iberian Counterpoints in the Eighteenth- and Nineteenth-Century Pacific** Rainer F. Buschmann,David Manzano Cosano,2024-04-01 Through a number of significant case studies this volume examines changing Iberian dynamics in the Pacific bridging the gaps between English and Spanish speaking scholarship to highlight understudied actors and debates in the eighteenth and nineteenth centuries The book shifts the predominant emphasis on Anglo American studies and the historical neglect of Iberian endeavors in this ocean by focusing on several episodes that illuminate Spanish engagement in the Pacific It describes Spain s treatment of this sea from its discovery to the end of the overseas empire in 1899 becoming the first book to place its analytical focus in the heart of the islands rather than the Pacific Rim In tracing shifting Spanish positions and policies the book cautions against making generalities about the distinct histories of Pacific islands and their Indigenous populations uncovering a much more heterogeneous world than previous research may convey Exploring Iberian Counterpoints in the Eighteenth and Nineteenth Century Pacific is the perfect resource for students and researchers of the Iberian world Hispanic studies and the Pacific Ocean in early modern and modern eras **Journal of an Expedition to the Western Caroline Islands, 1961** National Institutes of Health (U.S.),1976 **How Reason Almost Lost Its Mind** Paul Erickson,Judy L. Klein,Lorraine Daston,Rebecca Lemov,Thomas Sturm,Michael D. Gordin,2013-11-22 In the United States at the height of the Cold War roughly between the end of World War II and the early 1980s a new project of redefining rationality commanded the attention of sharp minds powerful politicians wealthy foundations and top military brass Its home was the human sciences psychology sociology political science and economics among others and its participants enlisted in an intellectual campaign to figure out what rationality should mean and how it could be deployed How Reason Almost Lost Its Mind brings to life the people Herbert Simon Oskar Morgenstern Herman Kahn Anatol Rapoport Thomas Schelling and many others and places including the RAND Corporation the Center for Advanced Study in the Behavioral Sciences the Cowles Commission for Research and Economics and the Council on Foreign Relations that played a key role in putting forth a Cold War rationality Decision makers harnessed this picture of rationality optimizing formal algorithmic and mechanical in their quest to understand phenomena as diverse as economic transactions biological evolution political elections international relations and military strategy The authors chronicle and illuminate what it meant to be rational in the age of nuclear brinkmanship **National Character** Alex Inkeles,2017-07-12 Seen in modern perspective the concept of national character poses fundamental problems for social science theory and research To what extent do conditions of life in a particular society give rise to certain patterns in the

personalities of its members What are the consequences Alex Inkeles surveys various definitions of national character tracing developments through the twentieth century His approach is to examine the regularity of specific personality patterns among individuals in a society He argues that modal personality may be extremely important in determining which new cultural elements are accepted and which institutional forms persist in a society Reviewing previous studies Inkeles canvasses the attitudes and psychological states of different nations in an effort to discover a set of values in the United States He concludes that despite recent advances in the field there is much to be done before we can have a clear picture of the degree of differentiation in the personality structure of modern nations Until now there were few formal definitions and discussions on national character and the limits of this field of study This book will be of great interest to psychologists sociologists philosophers and political theorists

American Anthropology in Micronesia Robert Kiste, Mac Marshall, 1999-03-01 This text evaluates how anthropological research in the Trust Territory has affected the Micronesian people the US colonial administration and the discipline of anthropology itself It analyzes the interplay between anthropology and history in particular how American colonialism affected anthropologists use of history and examines the research that has been conducted by American anthropologists in specific topical areas of sociocultural anthropology The text concentrates on disciplinary concerns but also considers the connections between work done in the era of applied anthropology and that completed later when anthropology was pursued mainly for its own sake
