Chan Insights Oversights:

Chan Insights and Oversights Bernard Faure, 1996-12 Suzuki Faure demonstrates how both West and East have come to overlook significant components of a complex and elusive tradition The Nature and Rationale of Zen/Chan and Enlightenment Ming Dong Gu, 2023-07-14 This book initiates a paradigm shift away from Zen Chan as quintessentially Buddhist and examines what makes Chan thought and practice unique and original through an interdisciplinary investigation of the nature and rationale of Chan and its enlightenment Exploring how enlightenment is achieved through Chan practice and how this differs from other forms of Buddhism the book offers an entirely new view of Chan that embraces historical scholarship philosophical inquiry textual analysis psychological studies Chan practice and neuroscientific research and locates the core of Chan in its founder Huineng's theory of no thinking which creatively integrates the Taoist ideas of zuowang forgetting in seated meditation and xinzhai fast of heart mind with his personal experiences of enlightenment It concludes that Chan is the crystallization of an innovative synthesis of Buddhism Daoism and Confucianism as well as other resources of somatic and spiritual cultivation and that enlightenment is a momentary return to the mental state of a baby before birth This book will appeal to students and scholars of religion philosophy and neuroscience It will also offer new insights to thinkers writers artists therapists and neuroscientists as well as those practicing Zen Mindfulness and psychotherapy **Clouds Thick, Whereabouts Unknown**, 2010 Compiled by a leading scholar of Chinese poetry Clouds Thick Whereabouts Unknown is the first collection of Chan Zen poems to be situated within Chan thought and practice Combined with exquisite paintings by Charles Chu the anthology compellingly captures the ideological and literary nuances of works that were composed paradoxically to say more by saying less and creates an unparalleled experience for readers of all backgrounds Clouds Thick Whereabouts Unknown includes verse composed by monk poets of the eighth to the seventeenth centuries Their style ranges from the direct vernacular to the evocative and imagistic Egan's faithful and elegant translations of poems by Han Shan Guanxiu and Qiji among many others do justice to their perceptions and insights and his detailed notes and analyses unravel centuries of Chan metaphor and allusion In these gems monk poets join mainstream ideas on poetic function to religious reflection and proselytizing carving out a distinct genre that came to influence generations of poets critics and writers The simplicity of Chan poetry belies its complex ideology and sophisticated language elements Egan vividly explicates in his religious and literary critique His interpretive strategies enable a richer understanding of Mahayana Buddhism Chan philosophy and the principles of Chinese poetry **India in the Chinese Imagination** John Kieschnick, Meir Shahar, 2014-01-23 In this collection of original essays leading Asian studies scholars take a new look at the way the Chinese conceived of India in their literature art and religious thought in the premodern era **Reimagining Chan Buddhism** Jimmy Yu, 2021-11-14 This book is the first socio intellectual history of the Dharma Drum Lineage of Chan Zen a new lineage of Buddhism founded by the late Chinese Buddhist cleric Sheng Yen 1931 2009 arguably

one of the most influential Chan masters in contemporary times The book challenges the received academic and popular image of Chan Buddhism as a meditation school that bypasses scriptural learning Using Sheng Yen s doctrinal classification Chn panjiao chart as an example the book shows Sheng Yen s Chan as a synthesis of both Indian and Chinese premodern forms of Buddhism and as the summum bonum of Han transmission of Chinese Buddhism Chn Hanchuan fojiao The book demonstrates how Sheng Yen s presentation of Chan was intimately related to the volatile social and political realities of his life the Communist takeover of China and the subsequent industrial boom that impacted Taiwanese society In short this book presents a historically and culturally embodied approach to the formation of Buddhist doctrine and practice Drawing on the works of postcolonial theories that integrate the role of the researcher into the research the book also offers a more integrated approach between emic and etic insider and outsider perspectives to research Advancing the field of Buddhist studies the book will be of interest to scholars of Buddhism in the modern period twentieth century religious history of China and Taiwan Chan Zen studies World Religions Asian civilizations and Modern Biographies *Developments in Australian Buddhism* Michelle Spuler, 2014-04-04 This book examines the adaptation of Buddhism to the Australian sociocultural context To gain insight into this process of cross cultural adaptation issues arising in the development of Diamond Sangha Zen Buddhist groups one of the largest Zen lineages in the West in Australia are contextualised within the broader framework of the adaptations of Buddhist teachings and practices in other Westernised countries The book also examines the methodological approaches currently used for studying this process and suggests a synthesis of the approaches used for studying convert and ethnic Buddhist groups **Identity and the Politics of Scholarship in the Study of Religion** José Ignacio Cabezón, Sheila Greeve Davaney, 2004 This title offers a sophisticated collection of essays on sexual identity and gender ethnicity race and religious affiliations and their relation to the study of religions from Christianity to Islam to Buddhism **Psychoanalysis and Zen Buddhism** Seiso Paul Cooper, 2023-03-01 In this book Cooper brings together psychoanalysis and Zen Buddhism by offering a comprehensive and integrated model described as The Realizational Model that is consistent with the core concepts of Soto Zen Buddhism and psychoanalytic practice Focusing primarily on Soto Zen Buddhism as presented in the original writings of the Japanese scholar monk Eihei D gen 1200 1253 and supported and elaborated by relevant contemporary scholarship in relation to the writings of the British psychoanalyst Wilfred Bion 1897 1979 this book addresses the issue of how can one understand assimilate and integrate conceptions of the human mind that originate in the 13th and 20th centuries as they are visited and inflected by the unconscious preconceptions of a 21st century perspective Expressing authentic Buddhist tradition within the frame of psychoanalytic thinking and supported by online guided audio meditations that accompany the text this work offers a uniquely interdisciplinary perspective of invaluable clinical significance Case material garnered from 35 years of psychoanalytic practice as well as examples from daily life support the abstract concepts discussed in the text rendering it equally relevant for psychoanalysts and psychotherapists as

well as students of Zen wishing to explore its practical applications **The Making of Buddhist Modernism** David L. McMahan, 2008-11-14 In this book David McMahan charts the development of modern Buddhism. He presents modern Buddhism as a complex historical process constituted by a variety of responses to some of the most important concerns of the modern era Revisioning Transpersonal Theory Jorge N. Ferrer, 2001-10-19 In his striking debut Jorge N. Ferrer deconstructs and reconstructs the entire transpersonal project articulating a more sophisticated pluralistic and spiritually grounded transpersonal theory. He brings recent ideas in epistemology and the philosophy of science to bear upon core issues in the psychology and philosophy of religion. The book's first half, Deconstruction, describes the nature and origins of the prevailing vision that has guided transpersonal scholarship so far and identifies some of its main conceptual and practical limitations: subtle Cartesianism, spiritual narcissism, intrasubjective empiricism, and reductionistic universalism. In the second half of the book, Reconstruction, Ferrer suggests a way of reconceiving transpersonal ideas without these limitations: a participatory vision of human spirituality, one which not only places transpersonal studies in greater alignment with the values of the spiritual quest but also discloses a rich variety of spiritual liberations, spiritual worlds, and even ultimate realities **Yoga Powers** Knut A. Jacobsen, 2011-10-06 A neglected topic in the research on yoga and meditation traditions, the extraordinary capacities called yoga powers are at the core of the religious imagination in the history of religions in South Asia. Yoga powers explained the divine; the highest gods were thought of as great yogins, and since major religious traditions considered their attainment as an inevitable part of the salvific process, the textual traditions had to provide rational analyses of the powers. The essays of the book provide a number of new insights in the yoga powers and their history, position, and function in the Hindu, Buddhist, and Jain traditions in classical Yoga, Ha ha Yoga, Tantra, and aiva textual traditions in South Asian medieval and modern hagiographies and in some contemporary yoga traditions Mystics William Harmless, 2008 Mystics are path-breaking religious practitioners who claim to have experienced the infinite, word-defying Mystery that is God. Many have been gifted writers with an uncanny ability to communicate the great realities of life with both a theologian's precision and a poet's lyricism. They use words to jolt us into recognizing ineffable mysteries surging beneath the surface of our lives and within the depths of our hearts, and by their artistry can awaken us to see and savor fugitive glimpses of a God-drenched world. In *Mystics*, William Harmless S.J. introduces readers to the scholarly study of mysticism. He explores both mystics' extraordinary lives and their no less extraordinary writings using a unique case study method centered on detailed examinations of six major Christian mystics: Thomas Merton, Bernard of Clairvaux, Hildegard of Bingen, Bonaventure, Meister Eckhart, and Evagrius Ponticus. Rather than presenting mysticism as a subtle web of psychological or theological abstractions, Harmless's case study approach brings things down to earth, restoring mystics to their historical context. Harmless highlights the pungent diversity of mystical experiences and mystical theologies. Stepping beyond Christianity, he also explores mystical elements within Islam and Buddhism, offering a chapter on the popular Sufi

poet Rumi and one on the famous Japanese Zen master Dogen Harmless concludes with an overview of the century long scholarly conversation on mysticism and offers a unique multifaceted optic for understanding mystics their communities and their writings Geared toward a wide audience Mystics balances state of the art scholarship with accessible lucid prose

Zen Buddhist Rhetoric in China, Korea, and Japan Christoph Anderl, 2011-11-25 Through a diachronic and comparative approach this book offers a comprehensive study of Zen Buddhist linguistic and rhetoric devices in China Korea and Japan It draws a vivid picture of the complexity of Zen Buddhist literary production in interaction with doctrinal and ritual issues as well as in response to the sociopolitical contexts Inventing Hui-neng, the Sixth Patriarch John J. Jørgensen, 2005 Hui neng the patriarchal ancestor of all existing Chan Zen was invented by Shen hui 684-758 based on a fusion of Buddhist and Confucian themes This propaganda led to the creation of a large hagiographical literature that determined the trajectory of Chan *Visions of Power* Bernard Faure, 2000-06-04 Bernard Faure's previous works are well known as guides to some of the more elusive aspects of the Chinese tradition of Chan Buddhism and its outgrowth Japanese Zen Continuing his efforts to look at Chan Zen with a full array of postmodernist critical techniques Faure now probes the imaginaire or mental universe of the Buddhist Soto Zen master Keizan Jokin 1268-1325 Although Faure's new book may be read at one level as an intellectual biography Keizan is portrayed here less as an original thinker than as a representative of his culture and an example of the paradoxes of the Soto school The Chan Zen doctrine that he avowed was allegedly reasonable and demythologizing but he lived in a psychological world that was just as imbued with the marvelous as was that of his contemporary Dante Alighieri Drawing on his own dreams to demonstrate that he possessed the magical authority that he felt to reside also in icons and relics Keizan strove to use these visions of power to buttress his influence as a patriarch To reveal the historical institutional ritual and visionary elements in Keizan's life and thought and to compare these to Soto doctrine Faure draws on largely neglected texts particularly the Record of Tokoku a chronicle that begins with Keizan's account of the origins of the first of the monasteries that he established and the kirigami or secret initiation documents

Vanishing Into Things Barry Allen, 2015-04-07 Barry Allen explores the concept of knowledge in Chinese thought over two millennia and compares the different philosophical imperatives that have driven Chinese and Western thought Challenging the hyperspecialized epistemology of modern Western philosophy he urges his readers toward an ethical appreciation of why knowledge is worth pursuing Shingon Refractions Mark Unno, 2014-05-13 Shingon Buddhism arose in the eighth century and remains one of Japan's most important sects at present numbering some 12 million adherents As such it is long overdue appropriate coverage Here the well respected Mark Unno illuminates the tantric practice of the Mantra of Light the most central of Shingon practices complete with translations and an in depth exploration of the scholar monk Myoe Koben the Mantra of Light's foremost proponent Thinking with Cases Charlotte Furth, Judith T. Zeitlin, Ping-chen Hsiung, 2007-02-28 Case studies fascinate because they link individual instances to general patterns and

knowledge to action without denying the priority of individual situations over the generalizations derived from them In this volume an international group of senior scholars comes together to consider the use of cases to produce empirical knowledge in premodern China They trace the process by which the project of thinking with cases acquired a systematic and public character in the ninth century CE and after Premodern Chinese experts on medicine and law circulated printed case collections to demonstrate efficacy or claim validity for their judgments They were joined by authors of religious and philosophical texts The rhetorical strategies and forms of argument used by all of these writers were allied with historical narratives exemplary biographies and case examples composed as aids to imperial statecraft The innovative and productive explorations gathered here present a coherent set of interlocking arguments that will be of interest to comparativists as well as specialists on premodern East Asia For China scholars they examine the interaction of different fields of learning in the late imperial period the relationship of evidential reasoning and literary forms and the philosophical frameworks that linked knowledge to experience and action For comparativists the essays bring China into a global conversation about the methodologies of the human sciences Contributors Chu Honglam Charlotte Furth Hsiung Ping chen Jiang Yonglin Yasuhiko Karasawa Robert Sharf Pierre tienne Will WuYanhong Judith T Zeitlin Buddhist Theology Roger Jackson,John Makransky,2013-12-16 Scholars of Buddhism themselves Buddhist here seek to apply the critical tools of the academy to reassess the truth and transformative value of their tradition in its relevance to the contemporary world **Poetic Leaps in Zen'S Journey of Enlightenment** Yong Zhi,2012-08-09 While the philosophical discussion of Zen spirituality reaches its limit poetry offers an effective expression of the sublime experiences From a poetic perspective enlightenment is understood as poetic leaps in the spiritual journey which brings people from the habitually or conventionally established world toward new horizons of consciousness This leap is a breakthrough in the overall consciousness rather than a progression in contemplative thought Therefore it cannot be adequately described through abstract representation but poetry can metaphorically capture this leap and reveal both the spiritual meaning and the practical wisdom of enlightenment This book will take you on this fantastic journey of enlightenment
