Three days later on Wednesday 22 October, a spokesman (quoted somewhat later) said that the British Foreign Office had accepted the fact that the British had not been able to find the ship. He said that it was "a pity" that the ship had not been found, but that it was "a relief" that it had not been found. He said that the British had been "very disappointed" that the ship had not been found, but that it was "a relief" that it had not been found. The Secular Clergy in England, 1066-1216 Hugh M. Thomas, 2014 The secular clergy priests and other clerics outside of monastic orders were among the most influential and powerful groups in European society during the central Middle Ages The secular clergy got their title from the Latin word for world saeculum and secular clerics kept the Church running in the world beyond the cloister wall with responsibility for the

bulk of pastoral care and ecclesiastical administration This gave them enormous religious influence although they were considered too worldly by many contemporary moralists trying for instance to oppose the elimination of clerical marriage and concubinage Although their worldliness created many tensions it also gave the secular clergy much worldly influence Contemporaries treated elite secular clerics as equivalent to knights and some were as wealthy as minor barons Secular clerics had a huge role in the rise of royal bureaucracy one of the key historical developments of the period They were instrumental to the intellectual and cultural flowering of the twelfth century the rise of the schools the creation of the book trade and the invention of universities They performed music produced literature in a variety of genres and languages and patronized art and architecture Indeed this volume argues that they contributed more than any other group to the Twelfth Century Renaissance Yet the secular clergy as a group have received almost no attention from scholars unlike monks nuns or secular nobles In *The Secular Clergy in England 1066-1216* Hugh Thomas aims to correct this deficiency through a major study of the secular clergy below the level of bishop in England from 1066 to 1216
