The Lever of Riches Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential

Cultural

Encounters in the New World Harald Zapf, Klaus Löscher, 2003 Black Male Fiction and the Legacy of Caliban James W. Coleman, 2014-10-17 With *The Tempest* s Caliban Shakespeare created an archetype in the modern era depicting black men as slaves and savages who threaten civilization As contemporary black male fiction writers have tried to free their subjects and themselves from this legacy to tell a story of liberation they often unconsciously retell the story making their heroes into modern day Calibans Coleman analyzes the modern and postmodern novels of John Edgar Wideman Clarence Major Charles Johnson William Melvin Kelley Trey Ellis David Bradley and Wesley Brown He traces the Caliban legacy to early literary influences primarily Ralph Ellison and then deftly demonstrates its contemporary manifestations This engaging study challenges those who argue for the liberating possibilities of the postmodern narrative as Coleman reveals the pervasiveness and influence of Calibanic discourse At the heart of James Coleman s study is the perceived history of the black male in Western culture and the traditional racist stereotypes indigenous to the language Calibanic discourse Coleman argues so deeply and subconsciously influences the texts of black male writers that they are unable to cast off the oppression inherent in this discourse Coleman wants to change the perception of black male writers struggle with oppression by showing that it is their special struggle with language *Black Male Fiction and the Legacy of Caliban* is the first book to analyze a substantial body of black male fiction from a central perspective **Remembering Generations** Ashraf H. A. Rushdy, 2003-01-14

Slavery is America s family secret a partially hidden phantom that continues to haunt our national imagination *Remembering Generations* explores how three contemporary African American writers artistically represent this notion in novels about the enduring effects of slavery on the descendants of slaves in the post civil rights era Focusing on Gayl Jones s *Corregidora* 1975 David Bradley s *The Chaneysville Incident* 1981 and Octavia Butler s *Kindred* 1979 Ashraf Rushdy situates these works in their cultural moment of production highlighting the ways in which they respond to contemporary debates about race and family Tracing the evolution of this literary form he considers such works as Edward Ball s *Slaves in the Family* 1998 in which descendants of slaveholders expose the family secrets of their ancestors *Remembering Generations* examines how cultural works contribute to social debates how a particular representational form emerges out of a specific historical epoch and how some contemporary intellectuals meditate on the issue of historical responsibility of recognizing that the slave past continues to exert an influence on contemporary American society Race, Modernity, Postmodernity W. Lawrence Hogue, 1996-10-03 Reads and interprets eight works of literature by people of color foregrounding the philosophical debate about modernity vs postmodernity rather than solely issues of race *Chaneysville Incident* Random House, 1999-04-01

Race Sounds Nicole Brittingham Furlonge, 2018-05-15 Forging new ideas about the relationship between race and sound Furlonge explores how black artists including well known figures such as writers Ralph Ellison and Zora Neale Hurston and singers Bettye LaVette and Aretha Franklin among others imagine listening Drawing from a multimedia archive Furlonge examines how many of the texts call on readers to listen in print In the process she gives us a new way to read and

interpret these canonical aurally inflected texts and demonstrates how listening allows us to engage with the sonic lives of difference as readers thinkers and citizens *What Was African American Literature?* Kenneth W. Warren, 2011-05-03

African American literature is over With this provocative claim Kenneth Warren sets out to identify a distinctly African American literature and to change the terms with which we discuss it Rather than contest other definitions Warren makes a clear and compelling case for understanding African American literature as creative and critical work written by black Americans within and against the strictures of Jim Crow America Within these parameters his book outlines protocols of reading that best make sense of the literary works produced by African American writers and critics over the first two thirds of the twentieth century In Warren s view African American literature begged the question what would happen to this literature if and when Jim Crow was finally overthrown Thus imagining a world without African American literature was essential to that literature In support of this point Warren focuses on three moments in the history of *Phylon* an important journal of African American culture In the dialogues *Phylon* documents the question of whether race would disappear as an organizing literary category emerges as shared ground for critical and literary practice Warren also points out that while scholarship by black Americans has always been the province of a petit bourgeois elite the strictures of Jim Crow enlisted these writers in a politics that served the race as a whole Finally Warren s work sheds light on the current moment in which advocates of African American solidarity insist on a past that is more productively put behind us *Africana* Anthony Appiah, Henry Louis Gates (Jr.), 2005 Ninety years after W E B Du Bois first articulated the need for the equivalent of a black Encyclopedia Britannica Kwame Anthony Appiah and Henry Louis Gates Jr realized his vision by publishing *Africana* The Encyclopedia of the African and African American Experience in 1999 This new greatly expanded edition of the original work broadens the foundation provided by *Africana* Including more than one million new words *Africana* has been completely updated and revised New entries on African kingdoms have been added bibliographies now accompany most articles and the encyclopedia s coverage of the African diaspora in Latin America and the Caribbean has been expanded transforming the set into the most authoritative research and scholarly reference set on the African experience ever created More than 4 000 articles cover prominent individuals events trends places political movements art forms business and trade religion ethnic groups organizations and countries on both sides of the Atlantic African American history and culture in the present day United States receive a strong emphasis but African American history and culture throughout the rest of the Americas and their origins in Africa itself have an equally strong presence The articles that make up *Africana* cover subjects ranging from affirmative action to zydeco and span over four million years from the earliest known hominids to Sean Diddy Combs With entries ranging from the African ethnic groups to members of the Congressional Black Caucus *Africana* Second Edition conveys the history and scope of cultural expression of people of African descent with unprecedented depth **African American Writers** Lynda Koolish, 2001 This volume of photos of African American authors highlights the diversity within

African American literature and celebrates the many genres it explores 59 photos

Dissenting Fictions Cathy Moses, 2014-01-14 This study elucidates the relationship between identity formation and resistance to racial and sexual oppression in a group of contemporary American novels the author terms dissenting fictions narratives that assert the subjectivity and historicity of marginalized peoples at precisely the moment when postmodern critiques proclaim the death of the subject and the inaccessibility of historical truth Of primary concern is the question of how narrative fictions conceive of strategies of resistance to oppression in an age in which the identity politics of the sixties and seventies have given way to positional subjectivities fluid identities and coalition politics Through interpretive readings of the works of well known authors Toni Morrison and Leslie Marmon Silko critically acclaimed novelist David Bradley the well respected but little studied novelist Russell Banks and the relatively unknown Leslie Feinberg whose fiction challenges accepted notions of gender the author explores a range of practices that place notions of identity in crucial relationship to resistance praxis Dissenting fictions emerge in this study as imaginative narratives that perform substantial cultural work reworking classical liberal notions of subjectivity and agency These novels address the failure of conventional individual agency and imagine an interactive agency grounded in an awareness of both a political economy and historic power relations

The Columbia Guide to Contemporary African American Fiction Darryl Dickson-Carr, 2005-12-06 In both the literal and metaphorical senses it seemed as if 1970s America was running out of gas The decade not only witnessed long lines at gas stations but a citizenry that had grown weary and disillusioned High unemployment runaway inflation and the energy crisis caused in part by U S dependence on Arab oil characterized an increasingly bleak economic situation As Edward D Berkowitz demonstrates the end of the postwar economic boom Watergate and defeat in Vietnam led to an unraveling of the national consensus During the decade ideas about the United States how it should be governed and how its economy should be managed changed dramatically Berkowitz argues that the postwar faith in sweeping social programs and a global U S mission was replaced by a more skeptical attitude about government's ability to positively affect society From Woody Allen to Watergate from the decline of the steel industry to the rise of Bill Gates and from Saturday Night Fever to the Sunday morning fervor of evangelical preachers Berkowitz captures the history tone and spirit of the seventies He explores the decade's major political events and movements including the rise and fall of détente congressional reform changes in healthcare policies and the hostage crisis in Iran The seventies also gave birth to several social movements and the rights revolution in which women gays and lesbians and people with disabilities all successfully fought for greater legal and social recognition At the same time reaction to these social movements as well as the issue of abortion introduced a new facet into American political life the rise of powerful politically conservative religious organizations and activists Berkowitz also considers important shifts in American popular culture recounting the creative renaissance in American film as well as the birth of the Hollywood blockbuster He discusses how television programs such as *All in the Family* and *Charlie's Angels* offered Americans both a

reflection of and an escape from the problems gripping the country **Convergences and Interferences** ,2016-09-12 How does one imagine plurality How does one find new strategies for writing diversity and polyphony How does one read the most challenging creative and critical works of the present time This bi lingual volume of twelve English and eight French papers proposes to breach linguistic critical frontiers by placing careful analysis of texts from different language traditions in a multi lingual and multi cultural dialogue In this collection of theoretically and politically aware close readings of contemporary cultural production the focus of analysis rests on the multiple and complex global convergences and interferences of cultural influences The collection foregrounds the work of innovative writers who seek to express the ungraspable presence of cultural newness at the same time as situating themselves in the richness of detail of local lives This volume most particularly finds a balance of critical approach between the everyday attempts at negotiation and survival and the insight brought to the reader by postcolonial syncretic and feminist theoretical analysis **Fictions of America** Judie Newman,2007-12-04 The Internet has had a huge impact on channels of communication and information reaching across time and space to connect the world through globalisation In this Internet led world story links to story windows open on new stories and no overall authority establishes priority This sense of globalisation has raised many questions for contemporary American Novelists primarily the usefulness or redundancy of narrative and its potentially adaptive function What are the right stories for such a broadband world How do contemporary American novelists respond to issues such as the influence of the multinational corporation and its predecessors human rights Imperialism the literary work as a marketable commodity translation as betrayal data overload and the implosion of the virtual into the biosphere Is globalisation inevitable or is it a fiction which fiction turns into reality Fictions of America explores these questions and looks at the ways in which India China and Africa can be said to have underwritten American culture how literature has been marketed globally and how novelists have answered back to power with resistant fictions Judie Newman examines a wide range of fiction from the mid nineteenth to the twenty first century including the transnational adoption narrative short story historical novel slave narrative international bestseller and Western to illustrate her argument Looking closely at authors such as Bharati Mukherjee John Updike Emily Prager Hannah Crafts Zora Neale Hurston David Bradley Peter H eg and Cormac McCarthy Fictions of America provides a bold response to the crucial questions raised by globalisation
