their destruction by iconoclasts and re creation during the Gothic Revival are also discussed Leading authorities archaeologists architects and archivists consider the latest methods of recording and repairing cathedral floors including those of cathedrals country houses the monumental tiled pavements of the Palace of Westminster and other public buildings Management policies to protect outstanding floors in over visited sites are considered and historic features particularly at risk are identified Urgent action is recommended to contain the damage caused by the dramatic increase in tourism throughout Europe Routledge Revivals: Medieval Archaeology (2001) Pam J. Towards Another Future Marcel Heyndriks, 2006 From the beginning the gospel has been understood and articulated in terms borrowed from the cultural context in which it finds itself For the largest part of the church s history the prevailing context has worked with a static vision of humanity and the world Theology and philosophy perpetuated this static worldview This was both legitimate and necessary as long as the culture was shaped by such a worldview Since the advent of modernity however this is no longer the case The advent of science and technology has seen the static view of things give way to an understanding of ourselves and our world as dynamic entities This has made the traditional understanding of faith increasingly untenable One might say that the gospel has become the prisoner of its previous embodiments The church s determination to hold on to established forms and with them the traditional understanding of humanity and the world has led to its increasing alienation from the prevailing culture especially in the West For many in our society the church s language

has become increasingly incomprehensible and its message increasingly untenable In this book the author argues that the church's attachment to a static worldview is the fundamental cause of the current crisis especially as this is manifest in western Europe He provides a detailed discussion of the European context and analyzes the main features of the traditional static understanding of faith and its roots in classical culture He then examines the contemporary crisis of faith and offers a critical evaluation of attempts at restoration Finally he proposes a vision of the way forward for the church as it struggles to come to terms with the modern worldview **Preservation and Progress** ,1989 The Future of the Church Christianity Today International,2009-03-03 Each eight week study is based on articles written by today's leading Christian authors and published by Christianity Today magazines These remarkable studies foster deep authentic and relevant discussion that will challenge and grow any small group The Expanding City Jean Gottmann,John Patten,1983
