The Evolution of Complex Hunter-Gatherers Ben Fitzhugh, 2012-12-06 In 1987 I had the good fortune to join in the excavation of a phenomenal archaeological site on the western coast of Kodiak Island in Alaska The New Karluk site aka Karluk One was perched on the edge of the small village of Karluk at the mouth of the river of the same name once one of the most productive salmon rivers in the North Pacific I had just completed my sophomore year of college and under the direction of Richard Jordan I enthusiastically joined several other students in the Kodiak Archaeology Projects New Karluk excavation I had participated in my father's archaeological research in Eastern Canada since early childhood but the Karluk dig was unlike any archaeology I had experienced before For three months we peeled back layers of grass wood and earth floors separated by remnants of ancient sod roofs Due to the unusual preservation and richness of the site at every turn we uncovered perishable items such as bent wood bowls masks dolls puffin beak rattles grass baskets fragments of fiber netting locks of hair and food waste Preservation was so excellent in fact that we often exposed grass blades still green after hundreds of years which once exposed to air would turn brown before our eyes

The Origins And Spread Of Agriculture And Pastoralism In Eurasia David R. Harris, 2024-11-01 As the first book to examine the origins and spread of agriculture and pastoralism in Europe and Asia as a

whole this major contribution should be essential reading for archaeologists anthropologists biologists and geographers Adopting a novel approach to the subject the authors examine it first in terms of seven different disciplinary perspectives social ecological genetic linguistic biomolecular epidemiological and geographical Then 20 case studies are presented which are based primarily on archaeological and biological evidence and which relate to three major regions Southwest Asia Europe and Central Asia to the Pacific The book concludes with an overview of Eurasia as a whole The transition from hunting and gathering to agriculture had revolutionary consequences for human society It led to the emergence of urban civilizations and ultimately to humanity's almost complete dependence on relatively few domesticated animals and plants The subject has been much studied but the results have tended to be interpreted largely in terms of local cultural sequences with insufficient comparison made with evidence from other areas In contrast this book provides a continental scale framework with its scope extended to pastoralism because in Eurasia both the raising of livestock and the cultivation of crops were integral components of the agricultural revolution from its inception some 10 000 years ago Comprehensive and authoritative The Origins and Spread of Agriculture and Pastoralism in Eurasia should appeal strongly to the wide readership of students and specialists concerned with the prehistoric antecedents of modern civilization

Regional Approaches to Adaptation in Late Pleistocene Western Europe Gail Larsen Peterkin, Heather Alyn Price, 2000 This volume brings together examples of research carried out at a variety of spatial and temporal scales of analysis all focused on Late Pleistocene hunter gatherers in Europe The contributors represent a wide range of theoretical perspectives The various theoretical and methodological attempts recounted thus represent different approaches to the understanding of a single well studied macro region during a crucial transitional period The economic intensification exhibited by some of the hunter gatherers of Late Pleistocene Europe laid the groundwork for the subsequent development of agriculture and the increasing cultural complexity that accompanied this revolution in human prehistory Thus the papers contained in this

volume have broader implications and applications for a more accurate understanding of the role played by the concept of the region in anthropological and archaeological theory as well as for a more accurate understanding of the people who inhabited them in the prehistoric past

Tipping Point for Advanced Capitalism D.W. Livingstone, 2023-09-07T00:00:00Z Tipping Point for Advanced Capitalism is a pathbreaking study of the changing class makeup of the Canadian other G7 and Nordic labour forces since the 1980s documenting especially the rise of non managerial professional employees The book provides unprecedented tracking of the links between employment classes and higher levels of class consciousness including the often hidden political consciousness of corporate capitalists as well as the extent of oppositional and revolutionary consciousness among non managerial workers The large differences exposed between class conscious capitalists and these non managerial workers on issues of poverty reduction and global warming reveal the strategic roles these key class agents play in actions to defend or transform advanced capitalism The most concerted evidence based study to bring class back into grasping the intimately linked ecological economic and political crises we now face
