needs to be done and life seems to be marked by change upheaval and revolution But in the midst of this turmoil say the authors people are having conscious and semiconscious experiences of the etheric world the world that comprises the forces of life However this growing sensitivity to the etheric realm only intensifies experiences of movement and upheaval To counter such feelings we should take hold of our inner life and strengthen the I our true self Featuring essays supplemented with a substantial amount of source material from Rudolf Steiner and other authors this book is an invaluable resource for inner development and the beginnings of true spiritual vision We learn to practise the ability to add to every physical perception whether of stone plant animal or another person the etheric reality associated with that entity This process leads us to become more aware of the after image and to become conscious within the etheric realm Baruch Urieli comments that this is not an esoteric path but is rather an endeavour to bring the beginnings of a natural consciousness of the etheric to full consciousness and hence under the rulership of the ego *Emergent Holistic Consciousness* Stuart P.
