Rewire Your Brain J.D.

Rockefeller,2016-02-21 If you are one of those who believe in the phrase you are what you think then you also believe that your life is something that stems from the thoughts that you have However you cannot just purely rely on your thoughts Instead you need to translate your thoughts into words Then eventually these words turn into actions for you to manifest your intentions It means that you need to be extra careful with the words that come out of your mouth choosing to say only those that will work toward your benefit and cultivate your highest good These affirmations will be able to help you purify your thoughts and start restructuring the dynamic of your brain in order for you to really start thinking that there is nothing impossible in this world Affirmation is a word that came from the Latin term affirmare which means to strengthen or make steady These affirmations can really strengthen you by helping you believe in all the potential of an action that you would like to manifest Every time you verbally affirm your ambitions and dreams you are instantly empowered with a deeper sense of reassurance that your wishful words will turn into reality Affirmations are a proven and tested method of self improvement due to their ability to rewire your brain Similar to exercise they can raise the level of feel good hormones and push your brain into forming brand new clusters of positive thought As far as the sequence of thought speech and action is concerned the affirmations play a crucial role through breaking the patterns of negative thoughts negative speech and ultimately negative actions
