Changing Face Of Italy:

The Changing Faces of Citizenship Joyce Marie Mushaben, 2008-10-01 In contrast to most migration studies that focus on specific foreigner groups in Germany this study simultaneously compares and contrasts the legal political social and economic opportunity structures facing diverse categories of the ethnic minorities who have settled in the country since the 1950s It reveals the contradictory and usually self defeating nature of German policies intended to keep migrants out allegedly in order to preserve a German Leitkultur with which very few of its own citizens still identify The main barriers to effective integration and socioeconomic revitalization in general sooner lie in the country s obsolete labor market regulations and bureaucratic procedures Drawing on local case studies personal interviews and national surveys the author describes the human faces behind official citizenship and integration practices in Germany and in doing so demonstrates that average citizens are much more multi cultural than they realize

Baily, 2004 Most studies of immigration to the New World have focused on the United States Samuel L Baily's eagerly awaited book broadens that perspective through a comparative analysis of Italian immigrants to Buenos Aires and New York City before World War I It is one of the few works to trace Italians from their villages of origin to different destinations abroad Baily examines the adjustment of Italians in the two cities comparing such factors as employment opportunities skill levels pace of migration degree of prejudice and development of the Italian community Of the two

destinations Buenos Aires offered Italians more extensive opportunities and those who elected to move there tended to have the appropriate education or training to succeed These immigrants who adjusted more rapidly than their North American counterparts adopted a long term strategy of investing savings in their New World home In New York in contrast the immigrants found fewer skilled and white collar jobs more competition from previous immigrant groups greater discrimination and a less supportive Italian enclave As a result rather than put down roots many sought to earn money as rapidly as possible and send their earnings back to family in Italy Baily views the migration process as a global phenomenon Building on his richly documented case studies the author briefly examines Italian communities in San Francisco Toronto and Sao Paulo He establishes a continuum of immigrant adjustment in urban settings creating a landmark study in both immigration and comparative history
