The Instruction Myth John Tagg, 2019-04-05 Higher education is broken and we haven t been able to fix it Even in the face of great and growing dysfunction it seems resistant to fundamental change At this point can anything be done to save it The Instruction Myth argues that yes higher education can be reformed and reinvigorated but it will not be an easy process In fact it will require

universities to abandon their central operating principle the belief that education revolves around instruction easily measurable in course syllabi credits and enrollments Acclaimed education scholar John Tagg presents a powerful case that instruction alone is worthless and that universities should instead be centered upon student learning which is far harder to quantify and standardize Yet as he shows decades of research have indicated how to best promote student learning but few universities have systematically implemented these suggestions This book demonstrates why higher education must undergo radical change if it hopes to survive More importantly it offers specific policy suggestions for how universities can break their harmful dependence on the instruction myth In this extensively researched book Tagg offers a compelling diagnosis of what is ailing American higher education and a prescription for how it might still heal itself

Charting Women's Journeys Judith Grant, 2008-01-01 Charting Women's Journeys is about the meaning of addiction and recovery in the lives of twenty five Appalachian women who have been practicing abstinence from the use of alcohol and or drugs for eighteen months or more in a small rural community in the United States The empirical focus is on the ways in which these women's lives have been transformed through the processes of addiction to and abstinence from these substances

Changing for the Right Reason Isaac Val Ayisi, 2017-05-10 The most difficult part of changing involves the exploration of your inner world True change cannot just occur on the surface or your outer being Change has to do with the renewal of one's mind and inner being It has to reflect in your way of thoughts deeds and actions a lifestyle Change means not only understanding who you are but also why you are who you are and how to walk in change The first step you must take in order to be transformed is to identify the obstacles that are preventing you from changing You need to look in the mirror which is the Word of God Its only through the Word of God that you can realize the need for God The Word of God is not to point one's floss but to reveal to us how God has already made us in himself When we encounter the Word of God it necessitates change and convicts us It opens our eyes to specify what the baggage habits emotions and environment are and how they are keeping us from changing it opens our eyes to realize our downfalls Understanding these obstacles takes out the fear in you and what has been holding you back It also gives you clarity on what you need to change and gives you the direction in your path of change Then you can begin the change process These explorations of your inner world can enable you to fully understand why you have been the way you have been and done things you have done even when neither have worked for you So that's why I've been this way all of my life This process will also help you to remove the obstacles that have stood in your path to change
