Selections from Changing Scenery Karin Dovring,1999 **The Poetry of Architecture** John Ruskin,2022-09-16 In

The Poetry of Architecture John Ruskin offers a profound exploration of the aesthetic and moral dimensions of architecture. Comprising a collection of essays and critiques, Ruskin employs a lyrical prose style that intertwines his admiration for the Gothic architectural tradition with philosophical reflections on beauty and truth. His keen observations reveal how architecture serves as a reflection of a society's values, capturing the interplay between form and function in a rapidly industrializing world. The book stands as a crucial commentary during the Victorian era, affirming the emotive power of structures amidst the mechanical progress of the 19th century. John Ruskin, a leading art critic and social thinker, was notably influenced by his early exposure to nature and art. His simultaneous roles as an architect, painter, and passionate advocate for the preservation of the past infused his work with a unique perspective. These experiences cultivated his belief in the intrinsic connection between natural beauty and artistic creation, prompting a desire to articulate architecture's deeper significance in society. Recommended for scholars and enthusiasts of architecture, art history, and Victorian culture, *The Poetry of Architecture* invites readers to rediscover the emotional resonance of built environments. Ruskin's eloquent prose and profound insights will undoubtedly encourage a more thoughtful appreciation of architecture's role in shaping human experience.

Selections from Changing Scenery Karin Dovring,1999 *John Ashbery and English Poetry* Ben Hickman,2012-03-07 A study of how we should read one of America's most important poets, Ben Hickman argues that we must attend to Ashbery's radical conception of reading if we are to understand the originality of his writing. His study focuses on Ashbery's reading of English poets including Andrew Marvell, John Donne, William Wordsworth, John Clare, T. S. Eliot, and W. H. Auden, and examines Ashbery's writing in terms of an aesthetic of inattention. Hickman critiques the Americanisation of Ashbery's work as well as common assumptions about his Romanticism, his avant-garde Modernism, and his engagement with the historical present. He demonstrates that Ashbery's generosity as a writer is closely tied to his generosity inattention and situatedness as a reader.

Public Opinion, 1898 **Godey's Lady's Book** Louis Antoine Godey, Sarah Josepha Buell Hale, 1853 Includes music Poetry Loyal Base Lucas Powell, AI, 2025-02-19 *Poetry's Loyal Base* examines the enduring if-then world of poetry, focusing on its dedicated readership and the small presses that sustain it. It addresses why poetry often seen as inaccessible still resonates with a core audience and occasionally breaks into broader cultural awareness. The book explores the symbiotic relationship between poets, publishers, and readers, diving into how independent publishing supports artistic expression and how poetry communities form. This collection of literary essays investigates the characteristics of the poetry readership, their shared values, and the factors that contribute to poetry's fluctuating visibility. For example, the book analyzes how digital platforms impact poetry distribution and reception, noting both opportunities and challenges. Further, it examines the historical context of poetry patronage and the economic realities of the poetry market. The book progresses

Quetchenbach,2000 Many poets writing after World War II have found the individual focus of contemporary poetics poorly suited to making statements directed at public issues and public ethics The desire to invest such individualized poetry with greater cultural authority presented difficulties for Vietnam protest poets for example and it has been a particular challenge for nature writers in the Thoreau tradition who have attempted to serve as advocates for the natural world Examining the implications of this dilemma Bernard W Quetchenbach locates the poets Robert Bly Gary Snyder and Wendell Berry within two traditions the American nature writing tradition and the newer tradition of contemporary poetics He compares the work of two other twentieth century poets Robinson Jeffers and Theodore Roethke to illustrate how the contemporary shift toward a poetics focused on the poet's life has affected portrayals of nature and the public voice in poetry Turning back to the work of Bly Snyder and Berry Quetchenbach assesses their attempts to reinvent the public voice in the context of contemporary poetics and what effect these attempts have had on their work He argues that these poets have learned from their postwar generation techniques for adapting a personalized poetics to environmental advocacy In addition to modifying what critics have called the poetics of immediacy these poets have augmented their poetic output with prose and identified themselves with long standing traditions of poetic ethical and spiritual authority In doing so Bly Snyder and Berry have attempted to solve not only a problem inherent in contemporary poetics but also the larger problem of the role of the poet in a society that does not recognize poetry While it would be an overstatement to suggest that these three figures have found a place for the poet in American life they have reached audiences that extend beyond traditional readers of poetry At the end of the twentieth century Quetchenbach concludes poets have begun to identify and direct their writing to specific audiences defined less by aesthetic preferences and more by a shared interest in and dedication to the work's subject matter Whether revealing a disturbing trend for poetry or an encouraging one for environmentalism and other political causes it is one of many provocative conclusions Quetchenbach draws from his examination of postwar nature poetry **Near Eastern Tribal Societies During the Nineteenth Century** Eveline van der Steen,2014-10-14 This volume provides an in depth study of tribal life in the Near East in the 19th century exploring how tribes shaped society economy and politics in the desert as well

as in villages and towns Until the First World War Near Eastern society was tribally organized Particularly in the Levant and the Arabian peninsula where the Ottoman empire was weak large and powerful tribes such as Anaze Beni Sakhr and Shammar interacted and competed for control of the land the people and the economy The main sources for this study are travel accounts of 19th century adventurers and explorers Their travels on horseback on camel or on foot opened a fascinating window on a world with an ideology that was fundamentally different from their own often Victorian background One chapter is dedicated to oral traditions in the region from heroic epics to short poems which lets the tribes and tribe members themselves speak giving a voice to the tribal frame of mind Evidence of tribal organization as a driving force in society can be found in documents and sometimes in the archaeological record from the Bronze Age onwards While a straight comparison between ancient and subrecent tribal communities is fraught with difficulties and must be treated with caution a better understanding of 19th century tribal ethics and customs provides useful insights into the history and the power relations of a more distant past At the same time it may help us understand some of the underlying causes for the present conflicts afflicting the region "Les Murray Country" Ulla Fürstenberg,2004 Dreaming the Southern Song Landscape Valérie Malenfer Ortiz,2024-03-25 Establishing a new approach to reading Chinese landscape painting this work centers around an early key example of scholarly painting viz Dream Journey on the Xiao and Xiang Rivers late 12th century The author restores the status of Dream Journey as a cultural icon for Confucians an object of contemplation for aesthetes an imaginary dream journey for poets and an incentive to cultivate one's moral intentions for both Buddhist monks and lay scholars Also it is convincingly argued that scholarly painting originates in the Southern Song 1127-1279 and not as is commonly thought in the Yuan Dynasty 1279-1368 **Landscape in Art Before Claude and Salvator** Josiah Gilbert,1885
