Changing Years Reminiscences Of Norman H:

The Taft Court: Volume 10 Robert C. Post, 2023-11-09 The Taft Court offers the definitive history of the Supreme Court from 1921 to 1930 when William Howard Taft was Chief Justice Using untapped archival material Robert C Post engagingly recounts the ambivalent effort to create a modern American administrative state out of the institutional innovations of World War I He shows how the Court sought to establish authoritative forms of constitutional interpretation despite the culture wars that enveloped prohibition and pervasive labor unrest He explores in great detail how constitutional law responds to altered circumstances The work provides comprehensive portraits of seminal figures such as Oliver Wendell Holmes Jr and Louis Dembitz Brandeis It describes William Howard Taft s many judicial reforms and his profound alteration of the role of Chief Justice A critical and timely contribution The Taft Court sheds light on jurisprudential debates that are just as relevant today as they were a century ago

The Radical Middle Class Robert D. Johnston, 2006-02-19 America has a long tradition of middle class radicalism albeit one that intellectual orthodoxy has tended to obscure The Radical Middle Class seeks to uncover the democratic populist and even anticapitalist legacy of the middle class By examining in particular the independent small business sector or petite bourgeoisie using Progressive Era Portland Oregon as a case study Robert Johnston shows that class still matters in America But it matters only if the politics and culture of the leading player in affairs of class the middle class is dramatically reconceived This book is a powerful combination of intellectual business labor medical and above all political history Its author also humanizes the middle class by describing the lives of four small business owners Harry Lane Will Daly William U Ren and Lora Little Lane was Portland s reform mayor before becoming one of only six senators to vote against U S entry into World War I Daly was Oregon s most prominent labor leader and a onetime Socialist U Ren was the national architect of the direct democracy movement Little was a leading antivaccinationist The Radical Middle Class further explores the Portland Ku Klux Klan and concludes with a national overview of the American middle class from the Progressive Era to the present With its engaging narrative conceptual richness and daring argumentation it will be welcomed by all who understand that reexamining the middle class can yield not only better scholarship but firmer grounds for democratic hope

Civic Passions Cecelia Tichi, 2009-10-01 A gripping and inspiring book Civic Passions examines innovative leadership in periods of crisis in American history Starting from the late nineteenth century when respected voices warned that America was on the brink of collapse Cecelia Tichi explores the

wisdom of practical visionaries who were confronted with a series of social political and financial upheavals that in certain respects seem eerily similar to modern times The United States then as now was riddled with political corruption financial panics social disruption labor strife and bourgeois inertia Drawing on a wealth of evocative personal accounts biographies and archival material Tichi brings seven iconoclastic and often overlooked individuals from the Gilded Age back to life We meet physician Alice Hamilton theologian Walter Rauschenbusch jurist Louis D Brandeis consumer advocate Florence Kelley antilynching activist Ida B Wells Barnett economist John R Commons and child welfare advocate Julia Lathrop Bucking the status quo of the Gilded Age as well as middle class complacency these reformers tirelessly garnered popular support as they championed progressive solutions to seemingly intractable social problems Civic Passions is a provocative and powerfully written social history a collection of minibiographies and a user s manual on how a generation of social reformers can turn peril into progress with fresh workable ideas Together these narratives of advocacy provide a stunning precedent of progressive action and show how citizen activists can engage the problems of the age in imaginative ways While offering useful models to encourage the nation in a newly progressive direction Civic Passions reminds us that one determined individual can make a difference

The Struggle for the Soul of Journalism Ronald R. Rodgers,2018-04-30 In this study Ronald R Rodgers examines several narratives involving religion s historical influence on the news ethic of journalism its decades long opposition to the Sunday newspaper as a vehicle of modernity that challenged the tradition of the Sabbath the parallel attempt to create an advertising driven Christian daily newspaper and the ways in which religion especially the powerful Social Gospel movement pressured the press to become a moral agent The digital disruption of the news media today has provoked a similar search for a news ethic that reflects a new era for instance in the debate about jettisoning the substrate of contemporary mainstream journalism objectivity But Rodgers argues before we begin to transform journalism s present news ethic we need to understand its foundation and formation in the past

Between Faith and Criticism Mark A. Noll,2004 Historian Mark Noll traces evangelicalism from its nineteenth century roots He applies lessons learned in the milieu of Great Britain and North America to answer the question Have

evangelicals grown to mature confidence in their views of God and Scripture so they may stand alone if they must between faith and higher critical skepticism This is nuts and bolts history at its best Douglas Jacobsen *Fides et Historia* This is not only an outstanding study of evangelical biblical scholarship it is the best survey of the twentieth century evangelical thought that we have George Marsden This book will be of immense value to all who want to know what the background to current evangelical biblical scholarship is and who want to explore the likely developments in the future Gerald Bray *The Churchman* Noll has enriched our knowledge of this history through his mastery of its substance and has come to grips with its findings Todd Nichol *Word and World* Mark A Noll the McManis Professor of Christian Thought and professor of church history at Wheaton College has written more than ten books including *Religion Faith and American Politics* and *Christian Faith and Practice in the Modern World* He edited *Confessions and Catechisms of the Reformation* His PhD degree is from Vanderbilt University

Changing Urban Education Clarence Nathan Stone, 1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why *Changing Urban Education* confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation's leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved *Changing Urban Education* makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future
