Changing Face Of Turkey:

The Changing Faces of Citizenship Joyce Marie Mushaben, 2008-10-01 In contrast to most migration studies that focus on specific foreigner groups in Germany this study simultaneously compares and contrasts the legal political social and economic opportunity structures facing diverse categories of the ethnic minorities who have settled in the country since the 1950s It reveals the contradictory and usually self defeating nature of German policies intended to keep migrants out allegedly in order to preserve a German Leitkultur with which very few of its own citizens still identify The main barriers to effective integration and socioeconomic revitalization in general sooner lie in the country s obsolete labor market regulations and bureaucratic procedures Drawing on local case studies personal interviews and national surveys the author describes the human faces behind official citizenship and integration practices in Germany and in doing so demonstrates that average citizens are much more multi cultural than they realize *The New Turkey and Its Discontents* Simon A. Waldman, Emre Caliskan, 2017 Assesses social religious and political polarisation under the AKP of Recep Erdogan and the likely consequences for Turkey s evolution *The Transformation of Kurdish and Islamist Parties in Turkey* Pelin Ayan Musil, 2022-07-16 This book analyzes the transformation of ethnic and religious political parties in Turkey with special focus on their role in the country s democratization and regime changes Turkey went through a process of autocratization under the rule of the AKP government over the last two decades Scholars question the structural agent centered and cultural factors that led the country on this path and provide the lessons learnt from this case for other cases of democratic decline or breakdown This book contributes to this debate It treats the three national elections 2002 2007 2015 June as opportunities for democratization in which the Islamist successor AKP in 2002 2007 and the Kurdish successor HDP in 2015 June managed to overcome identity politics and received the organized support from social groups outside of their traditional constituency This book argues that in a semi democratic context where repressive acts of the state e g banning of parties arresting politicians have been subject to widespread public criticism confronting the state becomes a salient issue When these parties manage to frame this issue as one of democracy they take ownership of it and this then becomes an opportunity for democratizing the regime This opportunity yet can be missed if the party follows an office seeking strategy rather than a policy seeking one *Turkish Jews and their Diasporas* Kerem Öktem, Ipek Kocaömer Yosmaoğlu, 2022-04-12 This book introduces the reader to the past and present of Jewish life in Turkey and to Turkish Jewish diaspora communities in Israel Europe Latin America and the United States It surveys the history of Jews in the Ottoman Empire and the Turkish Republic examining the survival of Jewish communities during the dissolution of the empire and their emigration to America Europe and Israel In the cases discussed members of these communities often sought and seek close connections with Turkey even if those ties that bind are rarely reciprocated by Turkish governments Contributors also explore Turkish Jewishness today as it is lived in Israel and Turkey and as found in places of memory in many cities in Turkey where Jews no longer exist today

New Faces of Harbour Cities Şebnem Gökçen Dündar, Hilmi Evren Erdin, Neslihan Karataş, 2014-10-21 New Faces of Harbour Cities explores the changing so called faces of harbour cities Whilst urban regeneration and harbour cities are discussed as related realms within the wider field of urban competitiveness few studies have attempted to give place to the broader set of economic social legal environmental and cultural dimensions of urban waterfront regeneration in harbour cities concerning not only Western and Northern Europe but also Aegean and Mediterranean cities The book provides a multi disciplinary yet holistic analysis of the port city interface as a major goal of creating new domains of entrepreneurial activity Offering noteworthy potential the abandonment of port districts offers new opportunities in placing brownfield port areas back into public use through their comprehensive revitalization With the rapid growth of special interest in the waterfront regeneration of port districts many harbour cities in the world are making an effort to give their cities a brand new face However there are still specific cases showing that this goal may not always find success as is discussed for various cities in this book Key features of the book include a highly readable discussion of the relationship between urban waterfront regeneration and port cities that both address to the evolution of the port city interface and contemporary patterns of activity The book also includes a wide range of international case studies in both developed and developing cities whilst providing a balanced view of the critical issues and related cases While focusing on key themes the discussion also considers the critique of issues such as risk management legal challenges in planning and the balance between the need for logistic activities and brownfield regeneration of port districts as a major asset in terms of urban image As such New Faces of Harbour Cities will serve as an important reference to academic studies that explore key themes such as urban waterfront regeneration brownfield development the port city interface green energy mixed use regeneration and legal aspects in planning

Semih Kaplano lu s Yusuf Trilogy by Mumin Baris Zenne A Movie That Stands Far From The LGBTI s Struggle in Turkey by Bawer ak r 9 The Metaphor of Mahalle Neighbourhood as Country by Zehra Cerraho lu Z raman **Domestic and Regional Uncertainties in the New Turkey** Alessio Chiriatti,Ozgur Tufekci,2017-06-20 Turkey has faced in the last two decades a number of critical events like wars conflicts and frictions in the Balkans the Caucasus and the Middle East that have represented a huge challenge for its foreign policy and civil and economic interventions Turkish multi directionality and multidimensionality have been tested by these occurrences demonstrating that what some scholars and experts had defined as a model contained failures as well as success This book examines these dynamics through case studies of the humanitarian cultural economic and political dimensions of Turkey s role in a diffuse neighbourhood in which the country has tried to exert its power in recent decades Starting from the questions that the Cold War and the arrival of the AKP in government have opened for Ankara the volume illustrates two of the most important sides of the Turkish strategic repositioning in the international system The first part is focused on the main humanitarian and political struggles in contemporary Turkish society while the second explores the main fault lines in Turkey s regional policy and the development of the country s foreign policy As such the book represents a valuable resource for both graduate and undergraduate students academics and researchers in the areas of Turkish studies foreign policy regional politics Middle Eastern studies security political economy and European studies as well as for the general public **The Islamist Turn on Ideological Grounds** Adnan Türegün,2025-06-16 Many states in the Islamic Middle East North Africa and South Asia that had previously experienced some measure of secularism turned to Islam in the late 20th and early 21st centuries In so doing they have changed the political landscape of their nations and the entire region also significantly influencing international politics The Islamist Turn outlines explains and demonstrates this change And on all three counts the book fills an important gap in our collective knowledge by developing a typology of Islamist turns based on the institutional aspect of the change offering an ideational explanation of the turns with an emphasis on the political ideologies and strategies of rulers and studying the cases of Turkey Egypt Pakistan and Iran as exemplary of the Islamist turns in the region *Everywhere Taksim* Isabel David,Kumru Toktamis,2025-10-01 In May 2013 a small group of protesters made camp in Istanbul s Taksim Square protesting the privatisation of what had long been a vibrant public space When the police responded to the demonstration with brutality the protests exploded in size and force quickly becoming a massive statement of opposition to the Turkish regime This book assembles a collection of field research data theoretical analyses and cross country comparisons to show the significance of the protests both within Turkey and throughout the world *The Routledge Handbook of Modern Turkish History* Mesut Uyar,Edward J. Erickson,2025-09-30 This handbook is an innovative recasting and reinterpretation of modern Turkish history centered on war and society It covers much neglected conflicts and wars and provides new insights about its complex politics military diplomacy and people The Turkish Republic was born after a series of wars which dismantled the Ottoman Empire

and left the foundation of a state with new and reduced borders Turkey's foreign policy has been characterized for the last century by Mustafa Kemal Atatürk's principle of peace at home peace in the world but in practice it has had to fight foreign wars outside of its geography and battle counterinsurgency inside its borders against various rebel movements Although wars and conflicts were instrumental in shaping Turkey they have received very little scholarly attention and they are mostly absent in western studies of modern Turkey Rather than advocating for a single accepted interpretation of Turkish history this book aims to highlight the complexity of modern Turkish history and the diversity in interpretations Presenting a coherent and condensed history of modern Turkey in a reader friendly way this handbook offers students and general readers the sound background to better understand Turkey within its international and transnational context

Western Democracy and the AKP Mehmet Celil Çelebi, 2022-12-23 Upturning the typical view of Turkey's democratic trajectory as a product of authoritarian assault or unfortunate circumstances this book argues that the AKP first elected in 2002 has consistently advanced a narrative of democracy as the work of an elite working for the National Will Beginning with an analysis of the historical processes that led to the AKP's rise at the beginning of the 21st century the book then focuses on the AKP since 2002 Though Turkey's democratic transition was originally characterised by Western co operation the author outlines the gradual deterioration of these relations since the 2010s as well as the decline of political rights freedom of expression and the rule of law However bringing in theoretical perspectives of democracy it is argued that

the AKP has adopted an alternative definition based on the National Will throughout its rule resistant to the Western essentialist view As such the AKP s story highlights that the root of this crisis lies within democracy itself The book will appeal to historians and analysts of Turkish politics as well as to political scientists interested in theories of democracy Moreover for those interested in the global contemporary crisis of democracy the book provides an important case study

New Perspectives on Turkey-EU Relations

Chris Rumford, 2014-10-29 This book makes the case for looking afresh at Turkey EU relations in order to appreciate the richness and complexity of a relationship which is now more than 50 years old and is still not close to reaching fulfilment The contributors challenge conventional attempts to understand Turkey EU relations revealing that EU integration studies has been rather poor at understanding the global context within which Turkey EU developments take place More surprising perhaps EU integration studies has also struggled to give sufficient weight to the potential of Turkey's domestic politics to shape EU enlargement The volume attempts to correct these imbalances by offering both a global context and new perspectives on the drivers of domestic politics It represents a shift from a narrow EU integration enlargement agenda Turkey's position vis a vis the EU cannot be adequately captured by simplistic notions of conditionality harmonization and an uncritical interpretation of Europeanization A more rounded view of Turkey EU relations is advanced based upon a broader context of European and global transformations The contributions collected here offer an interpretation of Turkey EU relations from a novel perspective utilize a new framework of theory and draw upon insights and perspectives from disciplines underrepresented in mainstream study of Turkey EU relations This book was published as a special issue of the *Journal of Contemporary European Studies*

Heroin, Organized Crime, and the Making of Modern Turkey Ryan Gingeras, 2018-01-26 *Heroin Organized Crime and the Making of Modern Turkey* explores the history of organized crime in Turkey and the roles which gangs and gangsters have played in the making of the Turkish state and Turkish politics Turkey's underworld which has been at the heart of several devastating scandals over the last several decades is strongly tied to the country's long history of opium production and heroin trafficking As an industry at the centre of the Ottoman Empire's long transition into the modern Turkish Republic as important as the

silk road had been in earlier centuries the modern rise of the opium and heroin trade helped to solidify and complicate long standing relationships between state officials and criminal syndicates Such relationships produced not only ongoing patterns of corruption but helped fuel and enable repeated acts of state violence Drawing upon new archival sources from the United States and Turkey including declassified documents from the Prime Minister s Archives of the Republic of Turkey and the Central Intelligence Agency Heroin Organized Crime and the Making of Modern Turkey provides a critical window into how a handful of criminal syndicates played supporting roles in the making of national security politics in the contemporary Turkey The rise of the Turkish mafia from its origins in the late Ottoman period to its role in the deep state revealed by the so called Susurluk and Ergenekon scandals is a story that mirrors troubling elements in the republic s establishment and emphasizes the transnational and comparative significance of narcotics and gangs in the country s past Turkey in the 21st Century Özden Zeynep Oktav,2016-02-17 This unique book investigates the complex transformation of Turkey s foreign policy focusing on changing threat perceptions and the reformulation of its Western identity This transformation cannot be explained solely in terms of strategic choices or agency driven policies but encompasses power shifts and systemic transformations Is Turkey shifting its axis Will this affect its traditional Western oriented foreign policy The book begins by discussing the relationship between security and globalization using examples of Turkey s regional positioning It then focuses on to what extent the traditional discourse on security in Turkish politics which prevailed during the Cold War era and beyond has undergone a change in the new era This timely book is a much needed account of how pragmatism rather than ideology is the main determinant in Turkey s current foreign policy and should be read by all looking for a fresh and stimulating take on Turkey s response to globalization and the internationalization of security in the 21st Century
