Changing Patterns of Security and Stability in Asia Sudershan Chawla, D. R. SarDesai, 1980      Changing Patterns of Warfare between India and Pakistan Rizwana Abbasi, Muhammad Saeed Uzzaman, 2023-05-12

Changing Patterns of Warfare between India and Pakistan analyzes how advanced nuclear technologies and the advent of disruptive technologies have affected the evolving conflict between India and Pakistan. Advanced nuclear technologies such as nuclear submarines, aircraft carriers, ballistic missile defence systems, BMDs, multiple independently targetable re entry vehicles, MIRVs, anti satellite weapons, ASAT and disruptive technologies such as hypersonic weapons, artificial intelligence, AI lethal autonomous weapons, LAWs, unmanned aerial vehicles, UAVs, drones and space based and cyber technologies have all complicated crisis dynamics and the domain of warfare in the region. Further, the employment of India's compellence strategy is an indication of a change in its stance that demonstrates smart surgical strikes are now more likely. The phenomenon of surgical strikes raises the question of how disruptive technologies will be used to gain direct/indirect military control and hence challenge the existing status quo and deterrence/stability. Against this backdrop, the authors predict how this conflict may develop in the future and evaluate the ways to stabilize deterrence and regulate the militarization of artificial intelligence and disruptive technologies between India and Pakistan. This book will be of interest to all those researching and working in the fields of security studies, strategic studies, nuclear policy, deterrence thinking and proliferation, non proliferation aspects of the nuclear weapons programme within South Asia and beyond. It will also be relevant for the academic community, policy makers, diplomats, members of international non governmental organizations, INGOs, professional research institutes and organizations working on India-Pakistan relations.

Changing Patterns of East Asian Security, 1991      Soviet Foreign Policy and Southeast Asia (Routledge Revivals) Leszek Buszynski, 2013-09-13

This book focuses on the activity of the Soviet Union in Southeast Asia and the effects of Soviet policy on the region from 1969 to the time of first publication in 1986. In particular, Leszek Buszynski examines the rivalry between the Soviet Union and China, Soviet presence in Vietnam and the responsive efforts of surrounding regions towards collective security. U.S. policy in the region is a key consideration, particularly in terms of American attempts to placate China and encourage Japan to assist in the defence of the region. With a concluding assessment of regional trends and possible outcomes, this is an important and valuable work for students and scholars with an interest in the history and politics of international diplomacy in Southeast Asia.

Easing East-west Tensions in the Third World United States Air Force Academy Library, 1986      Easing east-west tensions in the third world,      Asia, Militarization & Regional Conflict Yoshikazu Sakamoto, 1988      Indonesia's Foreign Policy under Suharto Leo Suryadinata, 2022-01-24

The book, which was first published in 1996, examines Indonesia's foreign policy under Suharto. It not only details Indonesia's foreign policy behaviour vis-à-vis Indonesia's neighbours and major powers but also places it in the context of foreign policy analysis. Today, the book remains as the only full-length study on Indonesia's foreign policy under Suharto. It is now reprinted with a new

postscript which discusses the post Suharto era from B J Habibie to Joko Widodo Indonesia under Suharto had attempted to become a regional power to lead Southeast Asian states and beyond As the largest country and also the richest in terms of natural resources Suharto's Indonesia was held in deference by the ASEAN states However due to its limited capabilities its lack of military strength advanced technology and economic strength the political influence of Jakarta was in fact quite limited During the economic crisis Suharto was forced to step down He was succeeded by B J Habibie who was largely preoccupied with domestic issues who in turn was followed by weak presidencies such as Abdurrahman Wahid Gus Dur and Megawati Only after the ex general Susilo Bambang Yudhoyono assumed presidency did he manage to stabilize the situation and attained economic growth He even became known as the Foreign Policy President Nevertheless he was constrained by the harsh Indonesian reality limited resources a weak military and absence of political influence His successor Joko Widodo has been more concerned with economic matters and domestic politics Indonesian regional leadership declines further

*The Carter Administration and Vietnam* Steven Hurst, 2016-07-27 An examination of the policy of the US Administration of Jimmy Carter towards Vietnam between 1977 and 1980 The book focuses on the attempt of the Carter Administration to normalise relations with Vietnam and the reasons for the failure of that effort Using a belief systems approach to explain the policy choices of key decision makers the book presents a new explanation of the policy in question and of the decision to abandon the attempt to normalise relations at the end of 1978 *A Study of Crisis* Michael Brecher, Jonathan Wilkenfeld, 1997-09-29 A comprehensive study of the causes and consequences of war in the twentieth century

McCloud focuses on continuities in the region's internal dynamics as well as its relationship to the greater global environment. The author challenges widely held views that diversity and fragmentation are the hallmarks of the region, identifying instead the commonalities that have bound the countries of Southeast Asia together through at least two millennia and have provided the basis for a unique regional dynamic. It has only been since World War II that Southeast Asians, long influenced by the global environment, have defined and developed their own institutions, social structures, and communities. Turning away from inadequate and unadaptable Western institutions, they have begun to create structures more in tune with their own historical experiences. Particularly in the political sphere, many of these new structures seemed to be straightforward military dictatorships. However, time has shown them to be more complex, and many unique organizational practices have developed that may presage more open political systems, if not democracies, by strict Western definitions. With the expansion of regional cooperation through ASEAN and strong economic growth, confidence among Southeast Asian states has grown as well. The growing references to an Asian way of life have given verbal expression to a surge in neotraditional values and behavior that have always been part of the fabric of Asian life but that in the past were frowned upon as nonwestern. This text traces the evolution of Southeast Asia and focuses for the first time on the neotraditional bases for contemporary independent development of the region. Political Economy of Northeast Asian Regionalism Jehoon Park, 2008-01-01. Functional integration in the economy has developed sufficiently in Northeast Asia. This study proposes a Northeast Asian version of the regional integration model. It suggests a crisis model and a political leadership model with political leadership playing a critical role in utilizing crises to advance regional integration. *Foreign Affairs Malaysia*, 1976. *Security, Arms Control, and Conflict Reduction in East Asia and the Pacific*, 1993-07-30. This is the most comprehensive bibliography to date on the vast English language literature covering the myriad aspects of peace and security issues in the East Asia Pacific region. McClean contacted 150 key research institutions and publishers around the world for information about the most significant books, articles, dissertations, and official documents on international and intra-state security, arms control, conflict, avoiding diplomacy, and militarization in the area. He has selectively annotated 12,645 cross-referenced entries and organized them into 27 sub-regional and country chapters, including two particularly extensive chapters on Japan and China and two further chapters on relations between Australia, New Zealand, and the United States and on U.S. and Soviet policy.
