Changing South Africa Sam C. Nolutshungu, 1982

State, Resistance and Change in South Africa Philip

Frankel, Noam Pines, Mark Swilling, 2022-10-05 Originally published in 1988 this book describes and analyses the factors that were operative in South Africa during the 1980s at a time when Apartheid was under intense pressure. It focuses not only on the central arenas of political action but also on the non-institutional arenas which were increasingly the central forums of political action. Organised around the three linked themes of state action, popular opposition and possible alternatives, the work examines the manner in which such key institutions such as government, business and the military responded to Apartheid in its crisis as well as the role of the ANC, the black trade unions, Inkatha and community movements in the townships. The final section deals with the South African left and the Freedom Charter.

Black Political Thought in the Making of South African Democracy C.R.D. Halisi, 1999 a comprehensive analytical survey of the multidimensional evolution of black political thought in South Africa's politicization process. Choice: Many citizens experience a sense of reluctance to share a single national identity with all of those who are defined by law to be their compatriots. This problem can be explained and surmounted but it cannot be evaded by those who aspire to build a stable democracy in South Africa. Richard L. Sklar from the Foreword: What will it mean to be a citizen in the new South Africa? This penetrating study analyzes the issues of dual citizenship, black consciousness, populism, racial proletarianization and their interaction with various political ideologies. Halisi's analysis has practical implications for the development of political identity in the new South Africa.

Race, Class and the Changing Division of Labour Under Apartheid Owen Crankshaw, 2002-06 As the only comprehensive empirical analysis of the changing racial and occupational structure of the urban workforce in South Africa under apartheid, this study will make an invaluable contribution to our understanding of the complex interrelations of past and present racial inequality and economic development in South Africa.

Religion, Politics, and Identity in a Changing South Africa

Abdulkader Tayob, Wolfram Weisse, David Chidester, What is the role of religion in society? In the wake of September 11 public intellectuals provided easy answers. According to some, religion was the problem; others commented religion was the solution. Generally, public debate about the force of religion in society has been organized by either/or propositions: Religion is a force for either freedom or bondage, for either peace or war, for either mutual recognition or antagonistic polarization. Analysis of religion and social change has also tended to be framed in terms of oppositions that inform research agendas and public policy. In this book, authors from South Africa, the United States of America, the Netherlands and Germany test these oppositions.

The Road to Democracy in South Africa: 1970-1980 South African Democracy Education Trust, 2004 v 3 The third volume in the series examines the role of anti-apartheid movements around the world. The global anti-apartheid movement was very successful in creating awareness of the liberation struggle in South Africa and in contributing to the downfall of the apartheid government. This volume in 2 parts brings together analyses which in the main are written by

activist scholars with deep roots in the movements and organizations they are writing about Rick Turner's Politics as the Art of the Impossible Michael Onyebuchi Eze, Lawrence Hamilton, Laurence Piper, Gideon van Riet, Paula Ensor, Daryl Glaser, John Sodiq Sanni, Christine Hobden, Tendayi Sithole, Billy Keniston, Crain Soudien, Ayesha Omar, 2024-07 Revisits the work of Rick Turner a South African political theorist and addresses contemporary debates Rick Turner was a South African academic and anti apartheid activist who rebelled against the apartheid state at the height of its power For this he was assassinated in 1978 at just 32 years of age but his life and work are testimony to the power of philosophical thinking for humans everywhere Turner chose to live freely in an unfree time and argued for a non racial socialist future in a context where this seemed unimaginable This book takes seriously Rick Turner s challenge that political theorising requires thinking in a utopian way Turner s seminal book The Eye of the Need Towards a Participatory Democracy laid out some of his most potent ideas on a radically different political and economic system His demand was that we work to escape the limiting ideas of the present carefully design a just future based on shared human values and act to make it a reality both politically and in our daily lives The contributors to this volume engage critically with Turner s work on race relations his relationship with Steve Biko his views on religion education and gender oppression his participatory model of democracy and his critique of enduring forms of poverty and economic inequality They show how in his life and work Turner modeled how we can dare to be free and how hope can return as the future always remains open to human construction This book makes an important contribution to contemporary thinking and activism where the need for South Africans to define their understanding of their greater common good is of crucial importance **Endgame in South Africa?** Robin Cohen, 1988 The Rush to Policy Peter William House, Roger Roger Don Shull, Rush to Policy explores the appropriate role of technical analysis in policy formulation The authors ask when and how the use of sophisticated analytic techniques in decision making benefits the nation They argues that these techniques are too often used in situations where they may not be needed or understood by the decision maker where they may not be to answer the questions raised but are nonetheless required by law House and Shull provide an excellent empirical base for describing the impact of politics on policies policy analysis and policy analysts They examine cost benefit analysis risk analysis and decision analysis and assess their ability to substitute for the current decision making process in the public sector They examine the political basis of public sector decision making how individuals and organizations make decisions and the ways decisions are made in the federal sector Also they discuss the mandate to use these methods in the policy formulation process The book is written by two practicing federal policy analysts who in a decade of service as policy researchers developed sophisticated quantitative analytic and decision making techniques They then spent several years trying to use them in the real world Success and failures are described in illuminating detail providing insight not commonly found in such critiques The authors delineate the interaction of politics and technical issues Their book describes policy analysis as it is not how it ought to be Peter W House is the director of policy research and analysis at the

the contributions of scores of newspapers newsletters and magazines that confronted the state in the generation after 1960 These publications contributed in no small measure to reviving a mass movement inside South Africa that would finally bring an end to apartheid This marginalized press had an impact on its audience that cannot be measured in terms of the small number of issues sold the limited amount of advertising revenue raised or the relative absence of effective marketing and distribution strategies These journalists rendered communities visible that were too often invisible and provided a voice for those too often voiceless They contributed immeasurably to broadening the concept of a free press in South Africa The guardians of the new South Africa owe these publications a debt of gratitude that cannot be repaid
