Channels Of His Spirit A Key To The Study Of Acts:

Channels of His spirit Horace Weaver, 1973 **Books in Print** , 1977 *The Disciple* , 1974 **The Catholic Periodical and Literature Index** , 1994 **Convention, Translation, and Understanding** Robert Feleppa, 1988-07-08

This book surveys several theoretical controversies in anthropology that revolve around reconciling the objective description of culture with the influence of inquirer interests and conceptions. It relates them to discussions by followers of W V Quine who see the problems of anthropological inquiry as indicative of conceptual problems in the basic assumptions operative in the discipline and in the study of language in general. Feleppa offers a revised view of the nature and function of translation in anthropology that gives a plausible account of the problems that traditional semantics introduces into anthropology while avoiding the severe methodological import Quine envisions.

Chapters covering recent research illustrate the importance of workplace learning topics ranging from meditation to change management, while others give pragmatic and replicable applications for the design, promotion, and implementation of impactful learning opportunities for employees at any company, regardless of industry. A sampling of topics addressed includes:

- Using an Experiential Learning Model to Design an Assessment Framework for Workplace Learning
- Measuring Innovative Thinking and Acting Skills as Workplace Related Professional Competence

Multiple chapters specifically address international business, such as Competency in Globalization and Intercultural Communication, Global Strategic Planning, and Global Talent Management. Research and recommendations on bridging generational and cultural divides, as well as addressing employee learning disabilities, are also included. With its impressive breadth of coverage and focus on real-world problem solving, this volume serves as a comprehensive tool for examining and improving practices in global workplace learning. It will prove to be a valuable resource for students and recent graduates entering the workforce and for those working in Human Resources and related fields.
