Dreaming War Blood For Oil And The Cheneybush Junta:

Dreaming War Gore Vidal, 2009-07-21 When Gore Vidal's recent New York Times bestseller *Perpetual War for Perpetual Peace* was published the Los Angeles Times described Vidal as the last defender of the American republic. In *Dreaming War* Vidal continues this defense by confronting the Cheney Bush junta head on in a series of devastating essays that demolish the lies American Empire lives by unveiling a counter history that traces the origins of America's current imperial ambitions to the experience of World War Two and the post war Truman doctrine. And now with the Cheney Bush leading us into permanent war Vidal asks whose interests are served by this doctrine of pre-emptive war. Was Afghanistan turned to rubble to avenge the 3 000 slaughtered on September 11. Or was the unlovely Osama chosen on aesthetic grounds to be the frightening logo for our long contemplated invasion and conquest of Afghanistan. After all he was abruptly replaced with Saddam Hussein once the Taliban were overthrown. And while evidence is now being invented to connect Saddam with 9 11 the current administration are not helped by stories in the U S press about the vast oil wealth of Iraq which must for the sake of the free world be reassigned to U S consortiums. *Dreaming War* Gore Vidal, 2002 *Oil, Globalization, and the War for the Arctic Refuge* David M. Standlee, 2012-02-16 The global consumption of fossil fuels is dramatically rising while inversely the supply is in permanent decline. The end of oil threatens the very future of Western civilization. *Oil Globalization and the War for the Arctic Refuge* examines the politics of drilling for oil in Alaska's Arctic National Wildlife Refuge and presents this controversy as a precursor of future resource wars where ideas and values collide and polarize. The reader is introduced to the primary participants involved: global corporations, politicians, nongovernmental organizations, indigenous peoples and organizations, and human rights, religious organizations. Author David M. Standlee argues in favor of seeing this comparatively local conflict as part of a larger struggle between the proponents of an alternative, positive vision for the future and an American culture presently willing to sacrifice that future for immediate profit. *Power, Discourse and Victimhood Ritual in the War on Terror* Michael Blain, 2016-04-08 Blending concepts from dramatism such as victimhood ritual with Foucault's approach to modern power and knowledge regimes, this book presents a novel and illuminating perspective on political power and domination resulting from the global war on terrorism. With attention to media sources and political discourse within the context of the global war on terror, the author draws attention to the manner in which power elites construct scapegoats by way of a victimhood ritual, thus providing themselves with a political pretext for extending their power and authority over new territories and populations, as well as legitimating an intensification of domestic surveillance and social control. A compelling analysis of ritual rhetoric and political violence. *Power, Discourse and Victimhood Ritual in the War on Terror* will be of interest to sociologists, political theorists, and scholars of media and communication concerned with questions of surveillance and social control, political communication, hegemony, foreign policy, and the war on terror. **The Truth Agenda** Andy Thomas, 2014-12-10 *The Truth Agenda* explores some of the most famous unexplained mysteries and global cover ups of

recent history What is the truth about UFOs pyramids religious apparitions psychic phenomena visions of the future and ancient prophecies and what is their connection to famous conspiracy theories concerning the Moon landings 9 11 the New World Order and claims that the planet is secretly run by a powerful ruling elite Leading mysteries researcher Andy Thomas pulls the many threads together in an accessible stimulating and credible overview which suggests that our world may be very different from the picture presented by the establishment The Truth Agenda shows how we can avoid control manipulations and help to create a more positive future Why do so many people believe in conspiracy theories and what is the evidence to support them What is the basis for the wide belief that we are now in a New Era of massive change and consciousness shift Why is there such huge but officially undeclared interest in paranormal phenomena from authorities and religions How does all this tie together and explain the agendas of control and surveillance in the West and what can we do

world and it also proposes sustainable solutions *The Pre-Emptive Empire* Saul Landau, 2003-10-20 This book is a scathing account of George W Bush's America before and after the 9/11 terrorist attacks Saul Landau delves into the erosion of civil liberties and the proliferation of empire under the guise of pre-empting the scourge of terrorism He reveals how Bush protects his terrorists those who perpetrate violence against Cuba and to whom he owes his presidency He also examines how Bush has appointed former officials to high level posts in his cabinet despite their membership in a conspiracy to sell weapons of mass destruction to Iran in the 1980s In declassifying Bush's Empire Landau dissects a post 9/11 world where deference to patriotism obliterates debate in Congress and the media How can the notion of empire happily co-exist with the notion of a republic In times like these as dissenting voices are stifled and the public are denied access to the facts about their own security Landau shows how democracy itself is under threat He asks whether the already fragile world economy can survive in the new security culture of the post 9/11 world *Frontiers of Globalization Research: Ino Rossi*, 2007-03-21 To bring this volume together the editor asked leading scholars in the field of globalization to outline a research framework that reflects their own approach to the subject The resulting book presents a broad spectrum of analytical approaches to globalization Theoretical reviews are complemented by substantive chapters and methodological analyses Contributors include scholars in the fields of sociology anthropology history and political science These writings have been organized into four sections theoretical perspectives and cultural globalization economic globalization political globalization and methodological approaches
