**Understanding Your Dreams** Alhassan Iddrisu, 2012-06 Understanding Your Dreams is a Christian educative book which tries to explain the subject dream as a spiritual entity in a human being. It brings into light the various misconceptions people have about dreams based on the backgrounds they speak from. This book also outlines the importance of dreams to mankind. The book defines dream in the writer's perspective based on the Bible and insight based on experience, revelation and divine inspiration. It also categorizes dreams into three depending on the way they happen and the characters involved. It further provides both scriptural and practical examples of the various types of dreams for easy and complete understanding. Again, this book looks at the various steps involved in dream interpretation and finally it has a list of some common symbols in our modern dreams and their probable meaning.

**Dreams & Reality** Simon S. Godfrey, 2003 Dreaming is a universal phenomenon. Nearly everybody dreams and is anxious to know what it means. Perhaps no other human experience has aroused so much interest and curiosity as this alien visitation that forces itself upon us without warning during the dead of sleep. Since antiquity thousands of books and articles have been written to shed some light on this mysterious and often unwelcome nightly visitor. Despite tremendous work in this field, the riddle remains unsolved. Still, no satisfactory answers have been provided to these basic questions: Why do we dream? What are dreams about? Where do they come from? How can we understand them? This book is significantly different from those of others in this area as the answers presented are not the author's own views; they are largely his dreams' answers to the questions just posed. Instead of speculation, this author, a psychologist by profession, has put forward what his own dreams have consistently and persistently revealed to him over the past thirty years. Since 1973, he has recorded over 100,000 dreams, filling some 230 journals of 200 pages each. The length of the dreams varies greatly; some consist of a single word or phrase, others fill a page or more. This book is written to share with others what the author has gained from his journey into the dreamworld and from his long and patient analysis of this vast number of dreams. Three conclusions have been drawn from this investigation: 1. Dreams are not caused by repressed sexual wishes, somatic sources, impressions of the preceding days, or other mundane instigators as claimed by Freud and his followers. 2. Dreams do have a supernatural source as pronounced by many writers through the ages. 3. Through dreams, this supernatural source reveals to us who we really are, brings to light who He is, and invites us to lead our own lives sensibly and purposefully. Using his own dreams as illustrations, the author addresses a wide variety of topics relating to the domain of dreams, including: Are dreams a source of creativity? Why do some of us have frequent nightmares? Can we control the content of our dreams? Why are dreams so cryptic? How can we decipher our dream symbols to understand their meanings? Do characters in our dreams refer to persons we know of, or do they stand for components of our own identity? How should we understand the verbal contents of our dreams? Can dreams guide us as to how we should conduct our lives? Is the reality we

experience during our dreams more dependable or the one we experience in waking life The main purpose of the book is to elucidate that dreams are trustworthy teachers In the realm of growth and self discovery we must regard as suspect whatever we learn from others however wise and well meaning But whatever is conveyed to us directly through dreams is credible since it emanates from within us and is free from inconsistencies and adulterations Our major challenge is to understand the symbolic language used by the wise guide we have within

*Nature's God and the Nature of Man* Joel R. Baseley, 2024-12-26 Nature's God and the Nature of Man presents nature and the nature of man as God's Word the Holy Bible reveals it in Genesis 1-3 The author's recent translating project in Johann Arndt's True Christianity especially his Book 4 treating God's revelation in nature provided him a helpful pre enlightenment world view of God's revealing Himself in nature in stark contrast and opposition to the bold modern assertion by many that science has proven there is no God The children of this divorce of Dame Science from God leaves children confused for whom this book might be a mediation and some comfort 445 pages soft cover

is doing and how man relates to it WHAT QUALIFIED BROTHER BLAKELY TO WRITE THIS BOOK Faith Extensive knowledge of the scriptures Devotion to and exhaustive study in the Word of God for more than fifty five years Neither reliance upon nor ignorance of the works of other men of GOD long deceased and living WHAT IS UNIQUE ABOUT THE BOOK Most books on the topic of Scripture deal with a particular aspect of it or is confined to specific accounts personalities or times This work looks upon the whole of GODs revelation in reference to Him from the foundation of the world through the present into the new heavens and new earth It explains the realities governing this present world and shows the reasonableness of making things which are temporal secondary to things eternal It validates the believer in his assurance of faith and confidence in God FIVE SINGLE WORDS DESCRIBING THIS BOOK Fresh non sectarian discerning intelligent foundational WHY SHOULD YOU OBTAIN THIS BOOK 1 No other book like it in content and perspective of which I am aware 2 It is written to communicate profound truths in an understandable manner THE PRIORITIES OF THE BOOK 1 God Himself 2 The eternal purpose of God 3 The relationship of Jesus Christ to that purpose 4 The relationship of the Word of God to that purpose 5 The relationship of man to that purpose WHO WILL PROFIT FROM THIS BOOK Theologians Preachers Teachers believers anyone with a genuine interest in the Holy Bible Click here to go to brother Blakelys website THE OBJECTIVE OF THIS BOOK The objective that dictated both the subject and the content of this volume is the glory of God His kingdom like Himself is great and thus is apt to be perceived less clearly than is possible Because the kingdom of God involves His deliberate dealings with men it is of particular importance to them To neglect the kingdom is to neglect God Himself while to seek first the kingdom of God is to seek Him primarily We cannot think properly about God in separation from His kingdom It is related to His objectives His will and His person The law of God the grace of God the salvation of God all are resident in and associated with the kingdom of God Any concept of God or His kingdom that introduces contradictory thoughts or that mystifies Gods person and work contribute **Real dreams are actions of the true Self** Helena Petrovna

Blavatsky,2018-01-03 Dreams are images of hopes and fears Somnambulism premonitions and second sight are a disposition energised by the power of the imagination to perceive and guess by intuition reflections from the Astral Light In sense dreams the mind is always asleep The sensual tendencies of the dreamer are readily impressed by pictures from the Astral Light and thus the direction of such dreams is always towards the animal plane We should therefore train ourselves to wake up when a sense dream occurs and the instantaneous rejection of impure thoughts during the period of waking consciousness will tend to set up a habit of rejection which will act automatically in sleep There is no simple answer to the question what is it that dreams for it depends entirely on each individual what principle will be the chief motor in dreams and whether they will be remembered or forgotten When the material man dreams all he sees with his eyes shut and in or through his mind is of course subjective But the Inner Man who is the silent spectator of the life of the dreamer all he sees is as objective as he is himself to himself The dream state is common not only to all men but also to all animals from the highest mammalia to the

smallest birds and even insects Every being endowed with a physical brain or organs approximating thereto must dream Human dreams do not differ much from those of the animals But that which is entirely terra incognita for science is the real dreams and experiences of the immortal Ego overshadowing mortal man which thinks and acts independently of the physical body What we often regard as dreams or idle fancies may be stray pages torn out from the life and experiences of the Inner Man the dim recollection of which at the moment of awakening becomes more or less distorted by our physical memory Every night when the Inner Man is freed from the trammels of matter he lives a separate life within his prison of clay But the outer man cannot be conscious of the Inner Man for his brain and thinking apparatus are paralyzed more or less completely Ordinary dreams are caused by sensuously desirous consciousness awakened into chaotic activity by the slumbering reminiscences of the lower mind The combined action of desires and animal soul is purely mechanical It is instinct not reason which is active in them But as a rule our memory registers only the fugitive and distorted impressions which the brain receives at the moment of awakening Among the vast number of meaningless dreams there are some in which presages are given of coming events When such dreams come true they may be termed prophetic In the case of individuals who have truly prophetic dreams it is because their physical brains and memory are in closer relation and sympathy with their Higher Ego than in the generality of men The Adept however does not dream he just paralyzes his lower self during sleep and becomes perfectly free Dreams are illusions and the Adept is beyond illusion Imagination is the best guide of our blind senses We see through our imagination and that is the natural aspect of the miracle But we also see actual and true things and it is in this that lies the marvel of the natural phenomenon Those of a nervous temperament whose sight is weak and imagination vivid are the fittest persons for this kind of divination The stronger the spirituality of the dreamer the easier it will be for the Higher Ego to impress on the brain a vivid picture of the dream In the materialistic man in one whose proclivities and passions have severed his astral soul from her spiritual counterpart and master in him whose labour has so worn out the body as to render him temporarily insensible to the voice of his soul such persons rarely if ever will have any dreams at all On the other hand highly spiritual people will see visions and dreams when asleep and even in their hours of wakefulness Messages sent by one soul to another are perceived as premonitions dreams and visions Facts are generally inverted in dreams and this can be explained by the law of introverted mental vision The Higher Ego does not think as its evanescent personality does Its thoughts are vivid pictures and visions of past and future scenes of wonderful living acts and heroic deeds which are all present in the eternal now even as they were when speech expressed in sounds did not exist when thoughts were things and men did not need to express them in speeches for they instantly realised themselves in action by the power of Kriyashakti that mysterious power which transforms instantaneously ideas into visible forms In persons of a very materialistic mind because the Ego is so trammelled by matter it can hardly give all its attention to one s actions even though the latter may commit sins for which that Ego will have to suffer conjointly in future True dreams being actions of the

Higher Ego they produce effects which are recorded on their own plane Ordinary dreams by and large are the waking and hazy recollections of such actions Between the inner man and the physical brain there is a kind of conscious telegraphic communication going on incessantly day and night When the brain is asleep the physical memory and imagination are also asleep and all cognitive functions are at rest Our mundane life is a dream to the Higher Ego while the inner life or what we call the dream plane is the real life for it The will of the common man is dormant in dreams and therefore inactive A sick person especially just before death is very likely to see in dream or vision those whom he loves and is continually thinking of and so also is a person awake but intensely thinking of a person who is asleep at the time In cases of consumption or other emaciating diseases dreams become pleasant because the astral soul of the patient has begun detaching from the physical body and therefore becomes more clairvoyant in proportion As death approaches the body wastes away and ceases to be an impediment or barrier between the brain of the ailing man and his Higher Ego In Black Magic it is no rare thing to evoke the spirit of a sleeping person Thus the sorcerer may learn from the apparition any secret he chooses while the sleeper remains ignorant of what is going on A nightmare arises from oppression and difficulty in breathing and the latter will always create a feeling of oppression and a sensation of impending calamity By cultivating the power of dreaming clairvoyance is developed But only one s clairvoyant faculty aided by spiritual intuition can interpret one s dreams The only one who profits from a dream book is its author If you could remember your dreams in deep sleep when the spiritual consciousness is active you would be able to remember all your past incarnations That exalted state of remembrance is the Memory of the Heart and the capacity to impress itself on the brain so that it becomes part of its consciousness marks the opening of the Third Eye
