Mitchell Waldrop, 2018-09-25 The story of the man who instigated the work that led to the internet and shifted our understanding of what computers could be Behind every great revolution is a vision and behind perhaps the greatest revolution of our time is the vision of J C R Licklider He did not design the first personal computers or write the software that ran on them nor was he involved in the legendary early companies that brought them to the forefront of our everyday experience He was instead a relentless visionary who saw the potential in the way that individuals could interact with computers and software At a time when computers were a short step removed from mechanical data processors Licklider was writing treatises on human computer symbiosis computers as communication devices and a now not so unfamiliar Intergalactic Network His ideas became so influential his passion so contagious that author M Mitchell Waldrop calls him

computing s Johnny Appleseed In a simultaneously compelling personal narrative and comprehensive historical exposition Waldrop tells the story of the man who not only instigated the work that led to the internet but also shifted our understanding of what computers were and could be This Stripe Press edition also includes the original texts of Licklider s three most influential writings Man Computer Symbiosis 1960 which outlines the vision that led to the personal computer revolution of the 1970s his Intergalactic Network memo 1963 which outlines the vision that inspired the internet and The Computer as a Communication Device 1968 coauthored with Robert Taylor which amplifies his vision for what the network could become

The End of the Chinese Dream Gerard Lemos, 2012-07-30 Glossy television images of happy industrious and increasingly prosperous workers show a bright view of life in twenty first century China But behind the officially approved story is a different reality Preparing this book Gerard Lemos asked hundreds of Chinese men and women living in Chongqing an industrial mega city about their wishes and fears The lives they describe expose the myth of China s harmonious society Hundreds of millions of everyday people in China are beleaguered by immense social and health problems as well as personal family and financial anxieties while they watch their communities and traditions being destroyed Lemos investigates a China beyond the foreigners beaten track This is a revealing account of the thoughts and feelings of Chinese people regarding all facets of their lives from education to health care unemployment to old age politics to wealth Taken together the stories of these men and women bring to light a broken society one whose people are frustrated angry sad and often fearful about the

circumstances of their lives The author considers the implications of these findings and analyzes how China's community and social problems threaten the ambitious nation's hopes for a prosperous and cohesive future Lemos explains why protests will continue and a divided and self-serving leadership will not make people's dreams come true The Watkins Dictionary of Dreams Mario Reading, 2007 Reveals the meaning of virtually various symbols known to dream analysts and contains strange facts including dreams that have averted disasters or changed history dreams from the Bible and other religious texts and dreams that have influenced films books music art and popular culture **Catholic World**, 1873 **The American Dream** Lawrence R. Samuel, 2012-08-27 There is no better way to understand America than by understanding the cultural history of the American Dream Rather than just a powerful philosophy or ideology the Dream is thoroughly woven into the fabric of everyday life playing a vital role in who we are what we do and why we do it No other idea or mythology has as much influence on our individual and collective lives Tracing the history of the phrase in popular culture Samuel gives readers a field guide to the evolution of our national identity over the last eighty years Samuel tells the story chronologically revealing that there have been six major eras of the mythology since the phrase was coined in 1931 Relying mainly on period magazines and newspapers as his primary source material the author demonstrates that journalists serving on the front lines of the scene represent our most valuable resource to recover unfiltered stories of the Dream The problem Samuel reveals is that it does not exist the Dream is just that a product of our imagination That it is not real ultimately turns out to be the most significant finding and what makes the story most compelling *Gold Wrapped in Rags* Ajaan Dick Silaratano, 2024-04-18 *Gold Wrapped in Rags* tells the life story of Ajaan Jia Cundo a famous Thai meditation monk who was a longtime disciple of Ajaan Mun and a contemporary of Ajaan Mah Boowa This book describes many episodes detailing the events that happened in Ajaan Jia's life as a forest monk including vivid descriptions of the decisive experiences that occurred during crucial periods of his spiritual growth and development as he pushed forward with unwavering determination to attain Nibbana the end of all suffering **White Spirit Animals** J. Ecuadorian Amazon considering the fate of utopian fantasies under conditions of global capitalism From 2007 to 2017 the Citizens Revolution launched an ambitious series of post neoliberal megaprojects in the remote Amazonian region of Ecuador including an interoceanic transport corridor a world leading biotechnology university and a planned network of two hundred Millennium Cities The aim was to liberate the nation from its ecologically catastrophic dependence on Amazonian oil reserves while transforming its jungle region from a wild neoliberal frontier into a brave new world of twenty first century socialism This book documents the heroic scale of this endeavor the surreal extent of its failure and the paradoxical process through which it ended up reinforcing the economic model that it had been designed to overcome It explores the phantasmatic and absurd dimensions of the transformation of social reality under conditions of global capitalism deconstructing the utopian fantasies of the state and drawing attention to the eruption of insurgent utopias staged by those with nothing left to lose
