Dress Culture And Commerce The English Clothing Trade Before The Factory 1660 18:

Dress, Culture and Commerce B. Lemire,1997-01-15 This work examines a trade that covered the backs of sailors and soldiers that shirted labouring men and skirted working women that employed legions of needlewomen and supplied retailers with new consumer wares Garments once bought returned again to the marketplace circulating like a currency and bolstering demand The agents in this trade included military contractors for clothing female outworkers and dealers in used clothes Each was affected by a changing demand for new styled luxuries and necessities in apparel [The Clothing Trade in Provincial England, 1800-1850](#) Alison Toplis,2015-10-06 This detailed study is the first exploration of rural consumption of clothing in early nineteenth century Britain Drawing on evidence from a range of sources including newspapers trade directories court records visual sources and surviving garments Toplis investigates how the apparel of the mass of the British population was acquired **The British-Atlantic Trading Community, 1760-1810** Sherrylynn Haggerty,2006-03-01 This book stresses the role of lesser traders including women in the distribution of goods around the Atlantic world 1760 1810 Networks of people credit and goods bound the British Atlantic trading community together despite the many crises of this period [The Rise of Market Society in England, 1066-1800](#) Christiane Eisenberg,2013-12-01 Focusing on England this study reconstructs the centuries long process of commercialization that gave birth to the modern market society It shows how certain types of markets e g those for real estate labor capital and culture came into being and how the social relations mediated by markets were formed The book deals with the creation of institutions like the Bank of England the Stock Exchange and Lloyd s of London as well as the way the English dealt with the uncertainty and the risks involved in market transactions Christiane Eisenberg shows that the creation of a market society and modern capitalism in England occurred under circumstances that were utterly different from those on the European continent In addition she demonstrates that as a process the commercialization of business society and culture in England did not lead directly to an industrial society as has previously been suggested but rather to a service economy **Goods from the East, 1600-1800** Maxine Berg,Felicia Gottmann,Hanna Hodacs,Chris Nierstrasz,2015-07-13 Goods from the East focuses on the fine product trade s first Global Age how products were made marketed and distributed between Asia and Europe between 1600 and 1800 It brings together established scholars as well as new to provide a full comparative and connective study of this trade [The poor in England 1700-1850](#) Alannah Tomkins,Steve King,2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license This fascinating study investigates the experience of English poverty between 1700 and 1900 and the ways in which the poor made ends meet The phrase economy of makeshifts has often been used to summarise the patchy desperate and sometimes failing strategies of the poor for material survival In The poor of England some of the leading young historians of welfare examine how advantages gained from access to common land mobilisation of kinship support resorting to crime and other marginal resources could prop up struggling households The essays attempt to

explain how and when the poor secured access to these makeshifts and suggest how the balance of these strategies might change over time or be modified by gender life cycle and geography This book represents the single most significant attempt in print to supply the English economy of makeshifts with a solid empirical basis and to advance the concept of makeshifts from a vague but convenient label to a more precise yet inclusive definition

History and Material Culture Karen Harvey, 2013-02-01 Sources are the raw material of history but where the written word has traditionally been seen as the principal source today historians are increasingly recognizing the value of sources beyond text In *History and Material Culture* Karen Harvey embarks upon a discussion about material culture considering objects often those found surrounding us in day to day life as sources which can help historians develop new interpretations and new knowledge about the past Across ten chapters different historians look at a variety of material sources from around the globe and across centuries to assess how such sources can be used to study history While the sources are discussed from interdisciplinary perspectives each contributor examines how material culture can be approached from an historical viewpoint and each chapter addresses its theme or approach in a way accessible to readers without expertise in the area In her introduction Karen Harvey discusses some of the key issues raised when historians use material culture and suggests some basic steps for those new to these kinds of sources Opening up the discipline of history to new approaches and introducing those working in other disciplines to historical approaches this book is the ideal introduction to the opportunities and challenges of researching material culture

The Pocket Barbara Burman, Ariane Fennetaux, 2020-04-24 A New York Times Best Art Book of 2019 A riveting book few stones are left unturned Roberta Smith's Top Art Books of 2019 The New York Times This fascinating and enlightening study of the tie on pocket combines materiality and gender to provide new insight into the social history of women's everyday lives from duchesses and country gentry to prostitutes and washerwomen and to explore their consumption practices sociability mobility privacy and

identity A wealth of evidence reveals unexpected facets of the past bringing women's stories into intimate focus What particularly interests Burman and Fennetaux is the way in which women of all classes have historically used these tie on pockets as a supplementary body part to help them negotiate their way through a world that was not built to suit them Kathryn Hughes *The Guardian* A brilliant book Ulinka Rublack *Times Literary Supplement* *Fashionable Fictions and the Currency of the Nineteenth-Century British Novel* Lauren Gillingham, 2023-05-25 Lauren Gillingham reveals how a modern notion of fashion helped to transform the novel in nineteenth century Britain **Louisiana** Cecile Vidal, 2014 Louisiana Crossroads of the Atlantic World offers an exceptional collaboration between American Canadian and European historians who explore the many ways and means of colonial Louisiana's relations with the rest of the Atlantic world *Fashioning Society in Eighteenth-Century British Jamaica* Chloe Northrop, 2024-03-20 White women who inhabited the West Indies in the eighteenth century fascinated metropolitan observers In popular prints novels and serial publications these women appeared to stray from proper British societal norms Although many women who lived in the Caribbean island of Jamaica might have fit the model extant writings from Ann Brodbelt Sarah Dwarrior Margaret and Mary Cowper Lady Maria Nugent and Ann Appleton Storrow show a longing to remain connected with metropolitan society and their loved ones separated by the Atlantic Sensibility and awareness of metropolitan material culture masked a lack of empathy towards subordinates and opened the white women in these islands to censure Novels and popular publications portrayed white women in the Caribbean as prone to overconsumption but these women seem to prize items not for their inherent value They treasured items most when they came from beloved connections This colonial interchange forged and preserved bonds with loved ones and comforted the women in the West Indies during their residence in these sugar plantation islands This book seeks to complicate the stereotype of insensibility and overconsumption that characterized the perception of white women who inhabited the British West Indies in the long eighteenth century This book will appeal to students and researchers alike who are interested in the social and cultural history of British Jamaica and the British West Indies more generally **British Sporting Literature and Culture in the Long Eighteenth Century** Sharon Harrow, 2016-03-09 Sport as it is largely understood today was invented during the long eighteenth century when the modern rules of sport were codified sport emerged as a business a spectacle and a performance and gaming organized itself around sporting culture Examining the underexplored intersection of sport literature and culture this collection situates sport within multiple contexts including religion labor leisure time politics nationalism gender play and science A poetics literature and culture of sport swelled during the era influencing artists such as John Collet and writers including Lord Byron Jonathan Swift and Henry Fielding This volume brings together literary scholars and historians of sport to demonstrate the ubiquity of sport to eighteenth century life the variety of literary and cultural representations of sporting experiences and the evolution of sport from rural pastimes to organized regular events of national and international importance Each essay offers in depth readings of both

material practices and representations of sport as they relate to among other subjects recreational sports the Cotswold games clothing women archers tennis celebrity athletes and the theatricality of boxing Taken together the essays in this collection offer valuable multiple perspectives on reading sport during the century when sport became modern Red, White, and Black Make Blue Andrea Feeseer, 2013 Like cotton indigo has defied its humble origins Left alone it might have been a regional plant with minimal reach a localized way of dyeing textiles paper and other goods with a bit of blue But when blue became the most popular color for the textiles that Britain turned out in large quantities in the eighteenth century the South Carolina indigo that colored most of this cloth became a major component in transatlantic commodity chains In Red White and Black Make Blue Andrea Feeseer tells the stories of all the peoples who made indigo a key part of the colonial South Carolina experience as she explores indigo's relationships to land use slave labor textile production and use sartorial expression and fortune building In the eighteenth century indigo played a central role in the development of South Carolina The popularity of the color blue among the upper and lower classes ensured a high demand for indigo and the climate in the region proved sound for its cultivation Cheap labor by slaves both black and Native American made commoditization of indigo possible And due to land grabs by colonists from the enslaved or expelled indigenous peoples the expansion into the backcountry made plenty of land available on which to cultivate the crop Feeseer recounts specific histories uncovered for the first time during her research of how the Native Americans and African slaves made the success of indigo in South Carolina possible She also emphasizes the material culture around particular objects including maps prints paintings and clothing Red White and Black Make Blue is a fraught and compelling history of both exploitation and empowerment revealing the legacy of a modest plant with an outsized impact **Britain in the Hanoverian Age, 1714-1837** Gerald Newman, Leslie Ellen Brown, 1997 In 1714 king George I ushered in a remarkable 123 year period of energy that changed the face of Britain and ultimately had a profound effect on the modern era The pioneers of modern capitalism industry democracy literature and even architecture flourished during this time and their innovations and influence spread throughout the British empire including the United States Now this rich cultural period in Britain is effectively surveyed and summarized for quick reference in a first of its kind encyclopedia which contains entries by British Canadian American and Australian scholars specializing in everything from finance and the fine arts to politics and patent law More than 380 illustrations mostly rare engravings enhance the coverage which runs the whole gamut of political economic literary intellectual artistic commercial and social life and spotlights some 600 prominent individuals and families **The Georgians** Penelope J. Corfield, 2022-02-08 A comprehensive history of the Georgians comparing past views of these exciting turbulent and controversial times with our attitudes today The Georgian era is often seen as a time of innovations It saw the end of monarchical absolutism global exploration and settlements overseas the world's first industrial revolution deep transformations in religious and cultural life and Britain's role in the international trade in enslaved Africans But how were

these changes perceived by people at the time And how do their viewpoints compare with attitudes today In this wide ranging history Penelope J Corfield explores every aspect of Georgian life politics and empire culture and society love and violence religion and science industry and towns People s responses at the time were often divided Pessimists saw loss and decline while optimists saw improvements and light Out of such tensions came the Georgian culture of both experiment and resistance Corfield emphasizes those elements of deep continuity that persisted even within major changes and shows how new developments were challenged if their human consequences proved dire Clothing Robert Ross,2008-07-08 Broad and engaging overview suitable for undergraduates in history anthropology cultural studies and fashion studies as well as the general reader Explains why we wear what we do why most people in the world now dress very similarly and why those who resist Western dress do so **Couture & Commerce** Alexandra Palmer,Royal Ontario Museum,2001 The 1950s were the golden years of haute couture captured by iconic images of glamorous models wearing dramatic clothes Yet the real women who wore these clothes adapted them to suit their own tastes altered them to extend their life and often could not bear to part with them long after the dresses had outlived their use This gorgeously illustrated book demonstrates why so many of these designs are still in existence and why we are fascinated by them fifty years later Couture and Commerce investigates how and why postwar couture fashion was important in its own day The Paris couture houses survived due to the enthusiasm of the North American fashion press and commercial buyers Alexandra Palmer traces the European haute couture trade with North America by following actual surviving couture dresses from the design house sketch through the model used in New York fashion shows and as a template for copies and knock offs and finally to the consumer Couture and Commerce is a remarkable mixture of accessible text color photographs of the original garments design house sketches and photographs retailers advertisements and society page images Weaving together analysis of the clothes and interviews with those who traded sold and wore couture Alexandra Palmer vividly recreates the 1950s fashion world *The British Cotton Trade, 1660-1815 Vol 3* Beverly Lemire,2021-12-24 First published in 2010 Cotton was the first industrialized global trade This four volume reset edition charts the rise of British trade in cotton from the days of small scale trading between the Middle East and India to the domination of British led industrialized manufacture Volume 3 Part III contains Establishing a British Cotton Trade c 1730 1815 *Down and Out in Eighteenth-Century London* Tim Hitchcock,2004-01-01 London in the eighteenth century was the greatest city in the world It was a magnet that drew men and women from the rest of England in huge numbers For a few the streets were paved with gold but for the majority it was a harsh world with little guarantee of money or food For the poor and destitute London s streets offered little more than the barest living Yet men women and children found a great variety of ways to eke out their existence sweeping roads selling matches singing ballads and performing all sorts of menial labor Many of these activities apart from the direct begging of the disabled depended on an appeal to charity but one often mixed with threats and promises *Down and Out in Eighteenth Century London* provides a remarkable insight

into the lives of Londoners for all of whom the demands of charity and begging were part of their everyday world
