When it comes to summer crafting, we usually spend our time off making bright, fun things inspired by the stunning weather and all the beautiful animals and greenery we see around us when we're out enjoying the warm breeze and fresh air. Each year we find that it's undoubtedly the flowers that catch our attention the most and make us feel more inspired than basically anything else. Crafting with fresh flowers can certainly be done, but we find that the projects have a short shelf life. We've done our fair share of crafting with faux flowers in their place, but there's just something so pretty and whimsical about the flowers being real, so replacing them with silk or plastic diminishes that magic a little bit. That's why we've been so obsessed with Stunning Dried Flower Crafts lately. **Basic Dried Flower Arranging** Jassy Bratko, Diane Hershey, 2003. The art of floral preservation has been en vogue for millenniums all over the world in some form or the other You may have heard of dried flowers dried herbs dried seeds bark roots and even potpourri The only reason why I would want to live in the age of Cleopatra is that the ancient Egyptians knew all about a flower preservation method with which flowers kept their original color shape and looks for more than 6 months after they had been cut Cleopatra s rooms were full of these flowers Unfortunately we have lost this method of preserving flowers with the burning of the library at Alexandria However even up to 1638 Signor Ferrari living in Siena Italy described how flowers could be preserved and kept everlasting and alive Nevertheless the flowers that we dry today do not have their original color not do they have the rich feel of a thing alive What we have is something mummified because it has been dried in sand and silica gel When I was a child I asked my science teacher to give me a little bit of silica gel because I wanted to preserve all the flowers in our garden in all their colors and that nice gentleman told me that the colors changed and turn brown when the water content was removed from that particular plant I believe that was the first disappointment in my young life because I wanted all of those colors and their shapes to last forever But well that secret has gone with the ancient Egyptians Nevertheless today we are drying flowers through air drying processes and this book is going to tell you all about how you can create things of beauty from dried
