John W. Wilkinson,2015-08-17 Evidence bases for conservation are becoming increasingly important to convince landowners and politicians of the need to take action in defence of species and habitats all around the world A valuable feature of this book is its emphasis on collecting and analysing such essential information Trevor Beebee Phyllomedusa Amphibians are among the most globally endangered groups of vertebrates with more than one third of species being assessed as declining or threatened Often amphibian declines can be attributed to a suite of interacting factors many of which are human in origin but further information is needed to elaborate the key causes and to discover ways of reversing declines Robust surveys provide vital ecological and biological data on amphibian populations and underpin the decisions made to protect species and reverse their declines Ongoing monitoring informs land managers and decision makers about whether they are taking the right action This book is designed to help you carry out amphibian surveying and monitoring so that the results of your surveys can be used effectively Part 1 introduces amphibians order Anura frogs and toads Caudata newts and salamanders and order Gymnophonia caecilians Part 2 is essential reading before you start surveying It introduces the different types of survey and monitoring programmes and discusses survey aims and resources It contains chapters on collecting and handling survey data survey permissions and licencing health and safety and biosecurity and handling amphibians Part 3 discusses everything you need to know during your survey and provides a detailed look at amphibian survey methods Part 4 covers presenting and using your survey s data to best effect A useful resources section is also provided with example survey forms and details of additional information resources that will optimize the impacts of your surveys Key amphibian survey techniques are discussed with reference to published examples of successful surveys so you ll be able to choose what s right for your situation Tips on optimizing your survey effort and handling amphibians in the field are also included Whether carrying out a student expedition project or seeking information to support the management of a protected area this book contains essential advice from an amphibian ecologist who has encountered the same sorts of decisions you ll face when planning your surveys **Proceedings** Association of Highway Officials of the North Atlantic States,1962 *Red Desert* Annie Proulx,2012-07-25 A photographic and multidisciplinary study of one of America s last undeveloped and most endangered landscapes edited by a Pulitzer Prize winning author A vast expanse of rock formations sand dunes and sagebrush in central and southwest Wyoming the little known Red Desert is one of the last undeveloped landscapes in the

United States as well as one of the most endangered It is a last refuge for many species of wildlife Sitting atop one of North America s largest untapped reservoirs of natural gas the Red Desert is a magnet for energy producers who are damaging its complex and fragile ecosystem in a headlong race to open a new domestic source of energy and reap the profits To capture and preserve what makes the Red Desert both valuable and scientifically and historically interesting writer Annie Proulx and photographer Martin Stupich enlisted a team of scientists and scholars to join them in exploring the Red Desert through many disciplines geology hydrology paleontology ornithology zoology entomology botany climatology anthropology archaeology sociology and history Their essays reveal many fascinating often previously unknown facts about the Red Desert everything from the rich pocket habitats that support an amazing diversity of life to engrossing stories of the transcontinental migrations that began in prehistory and continue today on I 80 which bisects the Red Desert Complemented by Martin Stupich s photo essay which portrays both the beauty and the devastation that characterize the region today Red Desert bears eloquent witness to a unique landscape in its final years as a wild place Saturday Review of Literature ,1968
