Fahey,2020-09-23 By studying the temperance societies that flourished in late Victorian and Edwardian England this book opens a window through which we can view middle class and working class society Such societies provided the backbone for temperance both as a social movement and a political lobby Most temperance societies became aligned with the Liberal Party in support of prohibition by Local Veto A few allowed members to drink but most were committed to total abstinence There were organizations of middle class men of workingmen and their wives of women and of children and youth The largest adult society was affiliated with the Church of England but most societies were identified with Nonconformist denominations
The Voluntary Libraries of Victorian Britain: Volume 1 Keith A. Manley,2024-11-29 This volume provides an examination of the kind of free or nearly free libraries which were available to the general public in England and Wales in the late nineteenth century but which were not supported by local taxation They were effectually substitutes for municipal public libraries in areas where that sort of library provision did not exist And they were voluntary because they did not enjoy funding from local councils but from wealthy philanthropists or from raising money themselves from well wishers Many of

those libraries were located in cities and towns there were many in London but village libraries are included Volume 2 covers Scotland and Ireland as well as the often ignored subject of workplace libraries

A Companion to Nineteenth-Century Britain Chris Williams, 2008-04-15 A Companion to Nineteenth Century Britain presents 33 essays by expert scholars on all the major aspects of the political social economic and cultural history of Britain during the late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading

Liquid Pleasures Professor John Burnett, John Burnett, 2012-10-02 Drinking has always meant much more than satisfying the thirst Drinking can be a necessity a comfort an indulgence or a social activity Liquid Pleasures is an engrossing study of the social history of drinks in Britain from the late seventeenth century to the present From the first cup of tea at breakfast to mid morning coffee to an evening beer and a night cap John Burnett discusses individual drinks and drinking patterns which have varied not least with personal taste but also with age gender region and class He shows how different ages have viewed the same drink as either demon poison or medicine John Burnett traces the history of what has been drunk in Britain from the hot beverage revolution of the late seventeenth century connecting drinks and related substances such as sugar to empire right up to the cold drinks revolution of the late twentieth century examining the factors which have determined these major changes in our dietary habits

Religion and Society in the Diocese of St Davids 1485-2011 John Morgan-Guy, 2016-04-01 During the medieval and early modern periods the Welsh diocese of St Davids was one of the largest in the country and the most remote As this collection makes clear this combination of factors resulted in a religious life which was less regulated and controlled by the institutional forces of both Church and State Addressing key ideas in the development of popular religious culture and the stubborn continuity of long lasting religious practices into the modern era the volume shows how the diocese was also a locus for continuing major religious controversies especially in the nineteenth century Presenting a fresh view of the Diocese of St Davids since the Reformation this is the first new account of religion and society in over a century It is moreover not one which is written primarily from an institutional perspective but from that of wider society As well as a chronological treatment giving an overview of the history of religion in the diocese chapters address key themes including a study of religious revivals which originated within the borders of the diocese consideration of popular and elite education including the contribution of Bishop Burgess's pioneering institution at Lampeter the first degree awarding institution in England and Wales after Oxford and Cambridge the relationship of the Church to the revival of Welsh cultural identity and new reflections on the agitation and realisation of disestablishment of the Church as it affected Wales As such this pioneering study has much to offer all those with an interest not only in Welsh history but ecclesiastical history more broadly

The Legal History of Wales Thomas Glyn Watkin, 2012-09-15 Watkin provides a history of the various legal systems by which Wales and its people have been governed over the last two millennia including the civil law of Rome the laws of the native Welsh people the canon law of the Church

and the English common law This book shows how in each age the people of Wales have adapted to and adopted the legal traditions which they have encountered and assesses the importance of this inheritance for the future of modern Wales within both Europe and the wider international community **Claiming the Streets** Paul O'Leary,2012-10-15 Street processions were a defining feature of life in the Victorian town They were diverse in character and took place regularly throughout the year in all towns They provided opportunities for men and women to display themselves in public carrying banners and flags and accompanied by musical bands Much of the history of nineteenth century Wales has been written around political demonstrations and revolt but this book examines how urban communities in Victorian Wales created inclusive civic identities by using the streets for peaceful processions **A Modern History of the Stomach** Ian Miller,2015-10-06 This is the first exploration of the relationship between the abdomen and British society between 1800 and 1950 Miller demonstrates how the framework of ideas established in medicine related to gastric illness often reflected wider social issues including industrialization and the impact of wartime anxiety upon the inner body The Entrepreneurial Society of the Rhondda Valleys, 1840-1920 Richard Griffiths,2010-07-30 This is the first significant study of the entrepreneurial society created by the Welsh coal boom most books up to now having concentrated upon the workers and the unions Using the Porth Pontypridd area as its example it looks closely at the networks of power created by the second generation middle classes of the Valleys towns and at the often hair raising business methods that they used Close examination of individuals and of family groups gives a vivid sense of the reality of the relationships and contacts and of the nature of the society in which they moved *Making a Man* Gwen Hyman,2009 Gruel and truffles wine and gin opium and cocaine Making a Man addresses consumption of food drink and drugs in the conspicuously consuming nineteenth century in order to explore the question of what in fact makes a man in novels of the period **Biographies of Drink** Mark Hailwood,Deborah Toner,2015-02-05 The burgeoning field of drinking studies often ranging across and between disciplinary boundaries explores the place of alcohol in human societies from a very diverse range of perspectives Whilst some scholars have examined the cultural meanings and social practices associated with alcohol consumption and its relationship to various forms of identity and community formation others have focused on attempts to regulate or tax it its role as a trade commodity or its medical and psychological effects on consumers The sheer diversity of issues upon which the study of alcohol and drinking can shed light is undoubtedly part of the strength of the field of drinking studies At the same time however it can make it difficult for these different strands to consistently and fully engage with one another This book offers an innovative methodology that will help to facilitate fruitful interactions between scholars approaching the study of alcohol from different perspectives the biographies of drink approach Drawing inspiration from but also going beyond work on the social lives of things this collection of essays showcases an approach in which each author constructs a biography of a particular drink drinking place or idea associated with drink in a tightly focused historical context The biographies included range from the

drinking vessels of Roman Britain to a whisky advertising campaign in 1950s America and deal with diverse themes from the associations between alcohol and national identity to the relationship between drinking and Existentialism The book brings together scholarly approaches from classics design theory literary studies and history within the biographies framework This allows for the emergence of important areas of comparison and contrast as well as several overarching themes such as the close associations between different drinking patterns and notions of tradition and modernity that occur in a wide range of cultural and historical contexts Not only then does this book provide fascinating case studies of interest to scholars working in particular fields or particular contexts but it also showcases a productive new methodology which offers insights of relevance to anyone interested in the role of alcohol in any society

Our Mothers' Land Angela V John, 2011-02-15 This volume marks the twentieth anniversary of the first publication of this groundbreaking book It reflects the pioneering research of its contributors to the development of modern Welsh women s history The eight chapters range widely across time 1830 1939 and place from exploring working class women s community sanctions and the perils facing collier s wife to the very different lifestyles of ironmasters wives They also tackle the idealised images of respectable Welsh women in periodicals and the tragic reality of those who took their own lives as well as showing us the transgressive actions of suffrage rebels They examine how women carved out space within movements such as temperance and track the fluctuating fortunes of women s employment and domestic life from the Great War to the eve of the Second World War This volume makes available once more a book that has become a classic in its field and a vital part of the historiography of modern Wales This expanded edition also brings us up to date It reveals the research and publications of the last two decades and comments upon the extent to which Wales has moved beyond being the familiar land of our fathers Written in a lively and accessible style it nevertheless draws upon a wealth of research and expertise and should appeal to both the academic community and to a much wider readership

The Alcoholic Empire Patricia Herlihy, 2002 Herlihy examines the prevalence of alcohol in Russian social economic religious political life She looks at how the state church military doctors the czar tried to battle the problem of over consumption of alcohol in the imperial period

The British Isles Hugh Kearney, 1995-02-24 Challenging traditional accounts of what constitutes national history this unique survey of the British Isles from pre Roman times to the 20th century is distinguished by its stress on the fact that English history forms only part of a broader history of four nations

For Women, For Wales and For Liberalism Ursula Masson, 2010-02-01 This book explores the neglected history of women who were active in Liberal politics campaigning for women s rights the vote and a full role for women in Welsh public life at the end of the nineteenth century and before the First World War The over arching argument of the book is that Welsh women s Liberal politics was distinctive in its attempt to integrate an understanding of Liberalism which they shared with their English counterparts and which included the aim of full equality for women with a distinctively Welsh political agenda and constructions of Welsh national identity These constructions sometimes included a positive view of women in the nation

but in times of political crisis redefined gender on a more reactionary model *Atlas of Industrializing Britain, 1780-1914*
John Langton, 2002-11-01 This atlas draws together crucial social and economic data on England Scotland and Wales between 1780 and 1914 and gives a clear guide to the industrial development of Great Britain during the modern period *The Welsh Methodist Society* Eryn M. White, 2020-06-15 The evangelical or Methodist revival had a major impact on Welsh religion society and culture leading to the unprecedented growth of Nonconformity by the nineteenth century which established a very clear difference between Wales and England in religious terms Since the Welsh Calvinistic Methodist movement did not split from the Church to form a separate denomination until 1811 it existed in its early years solely as a collection of local society meetings By focusing on the early societies in south west Wales this study examines the grass roots of the eighteenth century Methodist movement identifying the features that led to its subsequent remarkable success At the heart of the book lie the experiences of the men and women who were members of the societies along with their social and economic background and the factors that attracted them to the Methodist cause
