The Holy Order of Water William Marks, 2001-10 16 lectures Dornach Dec 23 1921 Jan 5 1922 CW 303 Today's schools fill children's heads with information instead of helping them develop their natural human faculties and capacities They place too much stress on memory leading to inner exhaustion instead of real learning for a healthy fulfilling life The important lectures in this volume were given in Dornach Switzerland to leading educators including many from England As a result he was invited to Oxford to expand on some of the themes presented in these talks Steiner begins by placing Anthroposophy as the foundation for understanding the principles behind Waldorf education In what follows he describes an education based on the human as a continually developing being of body soul and spirit From this perspective Waldorf education depends on the teacher's ability to observe and respond to each stage of a child's development Steiner shows how Waldorf education emphasizes the efficient use of children's inner energies and how children can be nurtured through their natural stages of development by giving them just what they need at the right time an approach that Steiner calls soul economy These detailed and accessible lectures give parents and teachers the keys to a much needed renewal of education for our children and their future German source Erziehung und Unterricht aus Menschenwesens Eine Einf hrung in die anthroposophische P dagogik und Didaktik Weihnachtstkurs f r Lehrer GA 303
