## **Driven The American Four Wheeled Love Affair:**

**Romance of the Road** Ronald Primeau, 1996 Americans have treated the highway as sacred space says Primeau English Central Michigan U introducing the rich tradition of prose and non fiction road narratives that include On the Road Grapes of Wrath Even Cowgirls Get the Blues and the Journals of Lewis and Clark Primeau critically examines these and other works from the position of travel as pilgrimage resulting in identifiable themes of protest self discovery picaresque parody and myth making Paper edition unseen 17 95 Annotation copyright by Book News Inc Portland OR

**Incomplete Streets** Stephen Zavestoski, Julian Agyeman, 2014-08-27 The Complete Streets concept and movement in urban planning and policy has been hailed by many as a revolution that aims to challenge the auto normative paradigm by reversing the broader effects of an urban form shaped by the logic of keeping automobiles moving By enabling safe access for all users Complete Streets promise to make cities more walkable and livable and at the same time more sustainable This book problematizes the Complete Streets concept by suggesting that streets should not be thought of as merely physical spaces but as symbolic and social spaces When important social and symbolic narratives are missing from the discourse and practice of Complete Streets what actually results are incomplete streets The volume questions whether the ways in which complete streets narratives policies plans and efforts are envisioned and implemented might be systematically reproducing many of the urban spatial and social inequalities and injustices that have characterized cities for the last century or more From critiques of a mobility bias rooted in the neoliberal foundations of the Complete Streets concept to concerns about resulting environmental gentrification the chapters in Incomplete Streets variously call for planning processes that give voice to the historically marginalized and more broadly that approach streets as dynamic fluid and public social places This interdisciplinary book is aimed at students researchers and professionals in the fields of urban geography environmental studies urban planning and policy transportation planning and urban sociology

**Pixar's America** Dietmar Meinel, 2016-08-26 This book examines the popular and critically acclaimed films of Pixar Animation Studios in their cultural and historical context Whether interventionist sheriff dolls liberating oppressed toys Toy Story or exceptionally talented rodents hoping to fulfill their dreams Ratatouille these cinematic texts draw on popular myths and symbols of American culture As Pixar films refashion traditional American figures motifs and narratives for contemporary audiences this book looks at their politics from the frontier myth in light of traditional gender roles WALL E to the notion of voluntary associations and neoliberalism The Incredibles Through close readings this volume considers the aesthetics of digital animation including voice acting and the simulation of camera work as further mediations of the traditional themes and motifs of American culture in novel form Dietmar Meinel explores the ways in which Pixar films come to reanimate and remediate prominent myths and symbols of American culture in all their cinematic ideological and narrative complexity

**Driven** Leon Mandel, 1977

**Middletown** Dwight W. Hoover, 1992 Inspired by the immensely influential 1937 sociological study Middletown A Case Study in Cultural

Conflicts by Robert and Helen Lynd Peter Davis's six documentary films about Muncie Indiana set out to examine the lives of Munsonians in the early 1980s The disputes and conflicts accompanying the filming revealed more about American values and customs than the films themselves While attempting to transform the data from the Middletown studies into a meaningful and interesting visual form the filmmakers were constantly distracted by the pressures decisions and perils of government and corporate funded documentary filmmaking Dwight W Hoover a Muncie historian and collaborator in the Middletown film project describes why the films were made and how they changed the lives of everyone involved

**Energizing Neoliberalism** Caleb Wellum,2023-10-17 This book argues that the 1970s energy crisis in the United States fostered the rise of neoliberalism in the United States by cultivating speculative discourses about energy that ultimately supported free market values expressed in trade and energy policies by the early 1980s The book's interdisciplinary approach broadens the historiography of the energy crisis to consider the concepts meanings affects and practices that comprised it providing deeper context for the policy and geopolitical concerns that other scholars explore **From**

**Moonshine to Madison Avenue** Mark D. Howell,1997 Howell cultural history Michigan State U describes the features activity and impact of the annual 32 race 10 month stock car competition He focuses on the role of corporate sponsors in transforming the sport from an amateur pastime to a big money media event Paper edition unseen 21 95 Annotation copyrighted by Book News Inc Portland OR *Interwar Symphonies and the Imagination* Emily MacGregor,2023-01-26

Reveals how in the culturally volatile 1930s the symphony long associated with ideas of selfhood was a flourishing transnational phenomenon **Remembering Roadside America** John A. Jakle,Keith A. Sculle,2011-09-30 The use of cars and trucks over the past century has remade American geography pushing big cities ever outward toward suburbanization spurring the growth of some small towns while hastening the decline of others and spawning a new kind of commercial landscape marked by gas stations drive in restaurants motels tourist attractions and countless other retail entities that express our national love affair with the open road By its very nature this landscape is ever changing indeed ephemeral What is new quickly becomes old and is soon forgotten In this absorbing book John Jakle and Keith Sculle ponder how Roadside America might be remembered especially since so little physical evidence of its earliest years survives In straightforward and lively prose supplemented by copious illustrations historic and modern photographs advertising postcards cartoons roadmaps they survey the ways in which automobility has transformed life in the United States Asking how we might best commemorate and preserve this part of our past which has been so vital economically and politically so significant to the cultural aspirations of ordinary Americans yet so often ignored by scholars who dismiss it as kitsch they propose the development of an actual outdoor museum that would treat seriously the themes of our roadside history Certainly museums have been created for frontier pioneering the rise of commercial agriculture and the coming of water and steam powered industrialization and transportation especially the railroad Is now not the time the authors ask for a museum forcefully

exploring the automobile's emergence and the changes it has brought to place and landscape. Such a museum need not deny the nostalgic appeal of roadsides past but if done properly it could also tell us much about what the authors describe as the most important kind of place yet devised in the American experience. John A. Jakle is Emeritus Professor of Geography at the University of Illinois Urbana-Champaign. Keith A. Sculle is the former head of research and education at the Illinois Historic Preservation Agency. They have coauthored such books as *America's Main Street Hotels*, *Transiency and Community in the Early Automobile Age*, *Motoring: The Highway Experience in America*, *Fast Food Roadside Restaurants in the Automobile Age*, and *The Gas Station in America*.     [A Study Guide for Karl Shapiro's "Auto Wreck"](#) Gale, Cengage Learning, 2016.
