Valle,1986 This unique volume discusses research policy and treatment approaches to one of America s most serious problems the drunk driver The authors many of the countries most dedicated professionals from academic research correctional public health and judicial system backgrounds present an extraordinary array of creative and thought provoking approaches to the drunk driver Their thorough descriptions will help you better understand the drunk driver and their exploration of new sentencing and treatment strategies provides a comprehensive look at the options to confronting and solving the problem of alcohol and traffic safety in the United States Chapters challenge many long held assumptions about those who drink and drive address policy issues examine the need for culturally specific education and training programs for police court officials and human service providers and offer helpful suggestions for designing programs for women and adolescent offenders *None for the Road* Ronald C. Denney,1997-01 There is currently much debate about the present UK drink driving limit and whether this should be lowered This book written by one of the country s leading experts on breath testing and alcohol analysis sets out the arguments for doing so supported by empirical statistical and circumstantial evidence It also promotes the idea that breath testing should be applied to cyclists and pedestrians as well as drivers The relationship between alcohol consumption and breath and blood alcohol levels is carefully explained Legal limits for drinking and driving are dealt with in relation to the possibility of being involved in an accident Legislation and international approaches to dealing with drink drive problems are discussed and the scientific aspects of alcohol measurement and analysis are dealt with in a clear unambiguous manner The text is liberally illustrated with photographs graphs and tables *You ... alcohol and driving* United States. National Highway Traffic Safety Administration,1977 **Policing and Punishing the Drinking Driver** Ross Homel,2012-12-06 Policing and Punishing the Drinking Driver is at one level about the impact of specific drinking driving countermeasures punishments imposed by courts on convicted offenders and random breath testing in a particular place New South Wales Australia in two particular years 1972 and 1983 At another level however the research reported herein is concerned with general questions of deterrence and with the impact of the criminal justice system on the perception and behavior of a broad cross section of the population In contrast to much of the research in the drink drive field the research questions concentrate on the psychological and

sociological processes whereby behavior is altered in the short term as the result of a massive legal intervention or as the result of the routine imposition of legal punishments
