Justice on Trial, 2000 The U S has made significant progress toward ensuring equal treatment under law for all citizens But in one arena criminal justice racial inequality is growing not receding Our criminal laws while facially neutral are enforced in a massively pervasively biased manner The injustices of the criminal justice system threaten to render irrelevant 50 years of hard fought civil rights progress This policy report examines the systematically unequal treatment of black Hispanic Americans other minorities as compared to their similarly situated white counterparts within the criminal justice system It reviews the effects of such unequal treatment on these groups on the criminal justice system Drunk Driving in

America Bruce Carruth, Stephen K Valle, 2013-12-19 This unique volume discusses research policy and treatment approaches to one of America's most serious problems the drunk driver The authors many of the countries most dedicated professionals from academic research correctional public health and judicial system backgrounds present an extraordinary array of creative and thought provoking approaches to the drunk driver Their thorough descriptions will help you better understand the drunk driver and their exploration of new sentencing and treatment strategies provides a comprehensive look at the options to confronting and solving the problem of alcohol and traffic safety in the United States Chapters challenge many long held assumptions about those who drink and drive address policy issues examine the need for culturally specific education and training programs for police court officials and human service providers and offer helpful suggestions for designing programs for women and adolescent offenders **Laws and Societies in Global Contexts** Eve

Darian-Smith, 2013-01-31 This text promotes a more global sociolegal perspective that engages with multiple laws and societies and diverse sociolegal systems based on very different historical and cultural traditions interacting on multiple local national and global levels The approach to global legal pluralism seeks to provide a framework for envisioning new global governance regimes that move beyond state based solutions to deal with trenchant transnational challenges **Post-9/11,**

African American Style Freddy Cee, 2004-02 The news media was driving everyone crazy It started with Y2K then the Bush Gore presidential election controversy the Clinton pardons the September 11th attacks and the anthrax letters Wars subsequently ensued against Afghanistan the Taliban Al Qaeda and Iraq but not without fierce exchanges with the United Nations Sex and financial scandals erupted involving the Catholic Church and Wall Street Massive layoffs soaring debt and skyrocketing college tuition added to these The media never missed a beat Was there no escaping them The Nation's Capitol in commemorating last years September 11th attacks was also preparing for an upcoming mayoral election The current incumbent was expected to breeze toward reelection but what followed seemed like a page out of William Shakespeare's Comedy of Errors This prompted a virtual unknown to launch a comedy contest to provide some comic relief for the city from this onslaught of negative news Only four contestants remained to compete for the prize money However only Archie Harris one of the four finalists showed up at the finale More bad news What will happen now Find out by reading Post 9 11 African American Style Laughter Still Da Best Medicine **Race, Ethnicity, and Policing** Stephen K Rice, Michael D

White, 2010-03-01 From Rodney King and driving while black to claims of targeting of undocumented Latino immigrants relationships surrounding race ethnicity and the police have faced great challenge Race Ethnicity and Policing includes both classic pieces and original essays that provide the reader with a comprehensive even handed sense of the theoretical underpinnings methodological challenges and existing research necessary to understand the problems associated with racial and ethnic profiling and police bias This path breaking volume affords a holistic approach to the topic guiding readers through the complexity of these issues making clear the ecological and political contexts that surround them and laying the

groundwork for future discussions The seminal and forward thinking twenty two essays clearly illustrate that equitable treatment of citizens across racial and ethnic groups by police is one of the most critical components of a successful democracy and that it is only when agents of social control are viewed as efficient effective and legitimate that citizens will comply with the laws that govern their society The book includes an introduction by Robin S Engel and contributions from leading scholars including Jeffrey A Fagan James J Fyfe Bernard E Harcourt Delores Jones Brown Ramiro Martinez Jr Karen F Parker Alex R Piquero Tom R Tyler Jerome H Skolnick Ronald Weitzer and many others *Fight the Power* Gregory S. Parks, Frank Rudy Cooper, 2022-02-03 *Fight the Power* considers timely social justice issues for Black people in America through the lens hip hop lyrics **Cultural Analysis, Cultural Studies, and the Law** Austin D. Sarat, Jonathan Simon, 2003-07-03 This interdisciplinary collection demonstrates the purchase of cultural studies frameworks for thinking about legal questions beyond the reach of the Law Economics framework *Africana Cultures and Policy Studies* Z. Williams, 2009-06-08 This book introduces *Africana Cultures and Policy Studies* as an interdisciplinary field of study rooted in the historical experience of people of African descent and focusing on policy development analysis and practical application *Critical Conversation Analysis* Hansun Zhang Waring, Nadja Tadic, 2024-05-14 This book presents the first collection of conversation analytic studies addressed exclusively to issues of inequality and injustice It offers a broad depiction of how inequality and injustice are reproduced resisted and transformed in our daily life together the chapters produce a forensic analysis of how participants enact discriminatory ideologies negotiate systemic power imbalances and pursue social change in and through the nuances of their interactions The authors draw on audio and video recordings of interaction in a wide range of social settings ranging from classrooms to family dinners and political town halls to television sitcoms The book demonstrates the power of conversation analysis to tackle issues of social justice and in equality and launches critical conversation analysis as a distinct empirical program dedicated to systematically investigating and promoting inclusion and equity in the minute details of everyday interaction *The Rich Get Richer and the Poor Get Prison* Jeffrey Reiman, Paul Leighton, 2015-10-16 This book shows students that much that goes on in the criminal justice system violates their own sense of basic fairness presents evidence that the system malfunctions and sketches a whole theoretical perspective from which they might understand the failures and evaluate them morally *State-sanctioned Violence* Melvin Delgado, 2020 A book on a controversial topic such as U S state sanctioned violence questions many of our basic assumptions we hold true The importance of violence is well attested to by Oxford University Press devoting a Book Series on Interpersonal Violence However state sanctioned violence in the U S is not for example The saying The truth will set you free but first it will make you miserable comes to mind in writing this book because it holds personal meaning for me that goes beyond being a social worker and a person of color Latinx The basic premise and interconnectedness of the themes in this book were reinforced and expanded in the course of writing Bonilla Silva 2019 p 14 states We are living once again in strange racial times and yes

indeed we are My hope is that readers appreciate the numerous threads between themes some of which have not gotten close attention by the general public and scholars Harris and Hodge 2017 for example adeptly interconnect environmental food and school to pipeline among urban youth of color illustrating how oppressions converge Future scholarship will connect even more dots to create the mosaic that constitutes state sanctioned violence I was relieved to see the extent of scholarship on the topics addressed in this book Bringing to together this literature public reports and the experiences from those currently dealing with state sponsored violence allowed for a consistent narrative to unfold Writing a book is always a process of discovery There is a body of scholarship to buttress the central arguments of this book but no such literature addressing the structural interconnectedness of the types of state sanctioned violence for social work The socio political interactional consequences of place time people and events sets a social political context that is understood by social workers and makes our mission distinctive because of this grounding Viewing state sanctioned violence including its laws and policies within this prism allows us to develop a vision or charge that can unite us as well as a deeper commitment to working with oppressed groups in seeking social justice Social work is not exempt from having a role in state sanctioned violence We only to delve into the profession s history and evolution to appreciate how we have reinforced a state sanctioned violence agenda wittingly or unwittingly Practice is never apolitical they either support a state sanctioned violence narrative or resist it with counter narratives Social work must be vigilant of how we support state violence Practice is never apolitical they either support a state sanctioned violence narrative or resist it with counter narratives

Updating the Interpretive Turn

Michiel Meijer,2022-12-01 This book explores the meaning of the interpretive turn in the philosophy of the human sciences for a variety of contemporary philosophical debates While hermeneutics seems to be firmly established as a tradition and methodology in the human sciences interpretive philosophy seems to be under increasing pressure in recent philosophical trends such as the posthuman turn the nonhuman turn and the speculative turn Responding to this predicament this book shows how hermeneutics is gaining new force and fresh applications today by bringing together a group of leading interpretive philosophers to address such timely topics as the entanglement of social science culture and politics in liberal capitalist societies the extremism with which some identities are held within those societies the possibility of genuine non relativist dialogue in a post truth era the nature of the strong moral judgments people tend to make in that era the significance of interpretation for understanding nonhuman life forms and the inherently hermeneutic dimension of such practices as work and productive action testimony and witnessing and measurement in scientific practice Updating the Interpretive Turn will be of interest to researchers working in critical social science social philosophy ethical theory environmental philosophy philosophy of work philosophy of testimony philosophy of measurement and philosophical hermeneutics itself
