unification and international correlation more than ever before Hence the idea of compiling a multilingual polydisciplinary dictionary The Dictionary consists of the basic table of terms arranged according to the order of the English alphabet with each term numbered Each entry consists of the term in English and its equivalents in Russian French German Spanish Short definitions of terms are given in English and in Russian The terms are supplied with the necessary grammar labels such as gender of nouns plural number etc The Dictionary combines two functions that of a defining dictionary and that of a bilingual dictionary These two functions are basically contradictory because usually the defining dictionary is aimed at giving one meaning of the word which is the main and essential one while the bilingual dictionary tries to give different equivalents of a given word in the other language in order to supply the user with maximum possible translations differing in the shades of meanings thus giving him the possibility to choose the appropriate word But in our Dictionary we intentionally decided to combine the two functions defining and multilingual because a short definition of the term and equivalents in other languages help to achieve our main aim which consists in showing the basic geographical terminology and harmonizing it in several languages Having this into consideration we deliberately mixed two types of dictionaries in one Organized alphabetically via English Provides short definition of geographical terms in English and Russian Includes multilingual translation of terms from English to Russian French German Spanish Copyright in Cyberspace International Literary and Artistic Association,1997 *Dictionnaire Anglais Des Affaires, Du Commerce Et de la Finance* ,1996 This dictionary consists of some 100 000 terms and references in both French and English including 4 000 abbreviations over 45 subject areas are covered including Accountancy Banking Business Administration Computing Economics Environment Finance General Commerce Human Resource Management Import Export Industry Insurance Law Leisure Management Mathematics Media Patents Politics Property Sales Marketing Stock Market Taxation Tourism Transport Welfare Safety Also included is a comprehensive up to date reference section on countries business correspondence and situations job titles stock exchanges economic indexes and numbers KEY FEATURES Term Specialists the terms list has been checked by over 100 sources including experts from Apple France Association Fran aise des Banques Chartered Institute of Banking France Telecom Institute of European Trade and Technology American Graduate School of Management London School of Economics Ecole sup rieur de commerce de Lyon Department of Trade and Industry Law Society University of Reading Environment Council University of Bath Centre de Recherche et de Gestion Manchester Business School Ecole sup rieur internationale de commerce and Ecole des hautes tudes commerciales de Montrial HEC Prestigious experts include Prof Chris Nobes Prof Michel P ron Prof Gordon Shenton Dr Van de Yeught and Prof Peter Walton Native Speakers all stages of compilation have included native speakers of French as well as English and extensive coverage of US as well as UK terminology *Droit de la distribution* Frédéric Buy,Marie Lamoureux (juriste.).),Jean-Christophe Roda,2017-08-16 Ce manuel offre une pr sentation compl te du droit de la distribution Le lecteur y trouvera toutes les questions que pose l un des secteurs les plus dynamiques
