The Saltwater Confessions of a Drowned Saint: A Sea Witch's Curse Madison Vargas, *Medieval Saints' Lives* Emma Campbell, 2008 The significance of Old French hagiography in current theoretical debates in medieval studies and the humanities Contending that the study of hagiography is significant both for a consideration of medieval literature and for current theoretical debates in medieval studies this book considers a range of Old French and Anglo Norman texts using modern theories of kinship and community to show how saints' lives construe social and sexual relations Focusing on the depiction of the gift kinship and community the book maintains that social and sexual systems play a key role in vernacular hagiography Such systems along with the desires they produce and control are it is argued central to hagiography's religious functions particularly its role as a vehicle of community formation In attempting to think beyond the limits of human relationships saints' lives nonetheless create an environment in which queer desires and modes of connection become possible suggesting that in this case at least the orthodox nurtures the queer This book thus suggests not only that medieval hagiography is worthy of greater attention but also that this corpus might provide an important resource for theorizing community in its medieval contexts and for thinking it in the present EMMA CAMPBELL is Associate Professor of French at the University of Warwick

Art and Violence in Early Renaissance Florence Scott Nethersole, 2018-07-17 This study is the first to examine the relationship between art and violence in 15th century

Florence exposing the underbelly of a period more often celebrated for enlightened and progressive ideas Renaissance Florentines were constantly subjected to the sight of violence whether in carefully staged rituals of execution or images of the suffering inflicted on Christ There was nothing new in this culture of pain unlike the aesthetic of violence that developed towards the end of the 15th century It emerged in the work of artists such as Piero di Cosimo Bertoldo di Giovanni Antonio del Pollaiuolo and the young Michelangelo Inspired by the art of antiquity they painted engraved and sculpted images of deadly battles ultimately normalizing representations of brutal violence Drawing on work in social and literary history as well as art history Scott Nethersole sheds light on the relationship between these Renaissance images violence and ideas of artistic invention and authorship

The Saint and the Chopped-Up Baby Laura Ackerman Smoller,2014-01-24 Vincent Ferrer 1350 1419 a celebrated Dominican preacher from Valencia was revered as a living saint during his lifetime receiving papal canonization within fifty years of his death In *The Saint and the Chopped Up Baby* Laura Ackerman Smoller recounts the fascinating story of how Vincent became the subject of widespread devotion ranging from the saint s tomb in Brittany to cult centers in Spain Italy France Germany and Latin America where Vincent is still venerated today Along the way Smoller traces the long and sometimes contentious process of establishing a stable image of a new saint Vincent came to be epitomized by a singularly arresting miracle tale in which a mother kills chops up and cooks her own baby only to have the child restored to life by the saint s intercession This miracle became a key emblem in the official portrayal of the saint promoted by the papal court and the Dominican order still haunted by the memory of the Great Schism 1378 1414 that had rent the Catholic Church for nearly forty years Vincent however proved to be a potent religious symbol for others whose agendas did not necessarily align with those of Rome Whether shoring up the political legitimacy of Breton or Aragonese rulers proclaiming a new plague saint or trumpeting their own holiness individuals imposed their own meanings on the Dominican saint Drawing on nuanced readings of canonization inquests hagiography liturgical sources art and devotional materials Smoller tracks these various appropriations from the time of Vincent s 1455 canonization through the eve of the Enlightenment In the process she brings to life a long raucous discussion ranging over many centuries *The Saint and the Chopped Up Baby* restores the voices of that conversation in all its complexity
