Sorensen,1997 Handbook of Drug Abuse Prevention Zili Sloboda,William J. Bukoski,2007-08-06 There are a number of reasons why this book is important First there is no one source that summarizes what we know about the prevention of substance abuse from the research field so the book serves as a repository of accumulated knowledge on prevention theory intervention design and development and prevention research methodology Second as an evolving field prevention science has only begun to assert itself in both the arenas of practice and policy The formation of the Society for Prevention Research in 1991 was the first recognition that a science of prevention existed and required a separate forum to present the rapidly growing content of the field for dis cussion and review Finally there is a need to establish a baseline a reference point against which progress in the field of prevention science can be assessed This book serves all of these purposes The idea for this book grew from the observation in the early 1990s that after decades of attempts to develop effectiveinterventions to prevent drug use among children and adolescents in the United States that we were finally having success particularly in addressing the initiation of use These successes are the result of research that has provided a better understanding of the factors and processes associated with the onset of substance use **Encyclopedia of Substance Abuse Prevention, Treatment, and Recovery** Gary L. Fisher,Nancy A. Roget,2009 This collection provides authoritative coverage of neurobiology of addiction models of addiction sociocultural perspectives on drug use family and community factors prevention theories and techniques professional issues the criminal justice system and substance abuse assessment and diagnosis and more **Drug Abuse Prevention and Community Readiness** ,1997 *Persuasive Communication and Drug Abuse Prevention* Lewis Donohew,Howard E. Sypher,William J. Bukoski,2012-12-06 The history of drug abuse

prevention campaigns suggests limitations in producing measurable changes in behavior In the past there was concern over the possibility of such publicity actually encouraging interest in drug use rather than discouraging such behavior Although little or no scientifically sound empirical evidence has been found to support such a view several social science textbooks still refer to this as something of which to be wary Reviews of early research appear to indicate inadequate methods and a lack of rigor in theory testing In recent years however research in communication and its uses in drug abuse prevention has become considerably more sophisticated and communication is being used far more effectively In this book the editors bring together some of the most successful drug abuse prevention researchers in the country along with other experts in this field or in persuasive communication to address use and effects of both mass media and interpersonal strategies This collection illustrates just how far the study of public influence through mass media has come especially regarding such a vital relevant issue as drug abuse prevention **Drug Abuse Prevention Intervention Research** National Institute on Drug Abuse,1991 This monograph is based on the papers and discussion from a technical review on Drug Abuse Prevention Intervention Research Methodological Issues held on May 22 23 1989 Rockville MD The review meeting was sponsored by the National Institute on Drug Abuse *Drug Abuse Prevention Act Oversight, Hearings Before the Subcommittee on Public Health and Enviornment ..., 92-2, February 1, 2, and 4; May 15, 1972* United States.
