Drug Use And Cultural Context Beyond The West Tradition Change And Postcolonialism:

Drugs and Culture Geoffrey Hunt, 2016-05-13 Current approaches to drugs tend to be determined by medical and criminal visions that emerged over a century ago the concepts of addiction on the one hand and drug control on the other having imposed themselves as the unquestionable central notions surrounding drug issues and discourses Pathologization and criminalization are the dominant perspectives on psychoactive drugs and it is difficult to describe drug consumption in any terms other than those of medicine or to conceive of regulation except in terms of control and eradication *Drugs and Culture* presents other voices and understandings of drug issues highlighting the socio cultural features of drug use and regulation in modern societies It examines the cultural dimensions of drugs and their regulation with special attention to questions of how consumption of specific psychoactive substances becomes associated with particular social groups the social dynamics involved in our coming to think of these phenomena as we do and the factors that determine the political and policy responses to drug use Adopting approaches from anthropology sociology history political science and geopolitics to challenge the prevailing pathologization and criminalization of drug use this book provides international and comparative perspectives on drug research based on the latest research in Europe the USA the Middle East and Hong Kong

Understanding Drug Dealing and Illicit Drug Markets Tammy C. Ayres, Craig Ancrum, 2023-07-31 This book examines the drug dealer in contemporary society from an interdisciplinary perspective and considers the increasingly blurred demarcation between illegitimate and legitimate drug markets It explores the motives and drivers of those involved in drug supply and dispels common and stereotypical myths and misconceptions surrounding illegal drug markets and those who operate within them The drug dealer has become one of our foremost contemporary folk devils Those who trade in substances prohibited by law are the subject of array of inaccurate myths and urban legends Criminology has tended either to shoehorn drug dealers into neat typologies or portray them as victims of an uncaring predatory post modern society In reality we know relatively little about the complex and diverse world of drug markets and our concentration inevitably falls on low end retail dealers who operate in the most visible sectors of the illegal economy Bringing together an international group of experts this book considers perspectives from around the world including UK USA South America Spain India and Australia This book will be of interest to students and researchers across criminology law sociology criminal justice and public health and will be essential reading for those taking courses on drugs drug markets and substance misuse

Criminological Connections, Directions, Horizons Eamonn Carrabine, Anna Di Ronco, 2024-10-24 This timely book presents a carefully curated selection of essays to celebrate the career of Nigel South Emeritus Professor at the Department of Sociology and Criminology of the University of Essex and one of the leading figures in his field Through his long career still ongoing and flourishing Nigel has contributed knowledge in many areas of criminological scholarship and challenged the confines of the discipline opening up new directions for thinking and debate In this volume Nigel s close colleagues and

friends celebrate his exceptional career through essays that draw on or have been inspired by his earlier or most recent work. Spanning across the areas of policing drugs, green southern and sensory criminology, these essays offer cutting edge research and fresh conceptual insights honouring the work of an outstanding criminologist, colleague, friend and human being. This volume will be of pivotal interest to students, scholars and academics in the fields of sociology and criminology as well as those with an interest in these areas more generally.

Consuming Habits: Global and Historical Perspectives on How Cultures Define Drugs Jordan Goodman, Andrew Sherratt, Paul E. Lovejoy, 2014-04-08. Covering a wide range of substances including opium, cocaine, coffee, tobacco, kola and betelnut from prehistory to the present day, this new edition has been extensively updated with an updated bibliography and two new chapters on cannabis and khat. *Consuming Habits* is the perfect companion for all those interested in how different cultures have defined drugs across the ages. Psychoactive substances have been central to the formation of civilizations, the definition of cultural identities and the growth of the world economy. The labelling of these substances as legal or illegal has diverted attention away from understanding their important cultural and historical role. This collection explores the rich analytical category of psychoactive substances from challenging historical and anthropological perspectives.

The Drug Effect Suzanne Fraser, David Moore, 2011-09-05. *The Drug Effect: Health, Crime and Society* offers new perspectives on critical debates in the field of alcohol and other drug use. Drawing together work by respected scholars in Australia, the US, the UK and Canada, it explores social and cultural meanings of drug use and analyses law enforcement and public health frameworks and objectives related to drug policy and service provision. In doing so, it addresses key questions of drug use and addiction through interdisciplinary, predominantly sociological and criminological perspectives, mapping and building on recent conceptual and empirical advances in the field. These include questions of materiality and agency, the social constitution of disease and neo-liberal subjectivity and responsibility. This book provides a fresh scholarly perspective on drug use and addiction by collecting top quality original work written by a mix of international leaders in the field and emerging scholars working at the cutting edge of research.

Drug Effects Lisa Gezon, 2016-06-16. Lisa Gezon cuts through traditional battle lines of the drug debate, proposing criteria for evaluating psychotropic substances that account for biocultural and socioeconomic contexts on local, national and global levels.

The Anthropology of Drugs Neil Carrier, Lisa L. Gezon, 2023-07-28. From khat to kava to ketamine, drugs are constitutive parts of cultures, identities, economies and livelihoods. This much needed book is a clear introduction to the anthropology of drugs, providing a cutting edge and accessible overview of the topic. The authors examine and assess the following key topics: How drugs feature in anthropology and the work of anthropologists and the general role of drugs in society; Comparison between biochemical and pharmacological approaches to drugs and bio-socio-cultural models of understanding drugs; Evolutionary origins of psychotropic drug sensitivity and archaeological evidence for the spread of psychoactive substances in pre-history; Drugs in spiritual and religious contexts, considering their role in altered states of consciousness, divination and healing.

Stimulant drugs and the ambivalence with which they are treated in society Addiction and dependency Drug economies livelihoods and the production and distribution segments of drug commodity chains Drug policies and drug wars Drugs race and gender The future of the study of drugs and anthropological professional engagements with solving drug problems With the inclusion of chapter summaries and many examples further reading and case studies including drug tourism drug industries in the Philippines and Mexico Afghanistan and the Golden Triangle and the opioid crisis in North America The Anthropology of Drugs is an ideal introduction for those coming to the topic for the first time and also for those working in the professional and health sectors It will be of interest to students of anthropology and to those in related disciplines including sociology psychology health studies and religion

Governance Beyond the Law Abel Polese, Alessandra Russo, Francesco Strazzari, 2019-03-29 This volume explores the continuous line from informal and unrecorded practices all the way up to illegal and criminal practices performed and reproduced by both individuals and organisations The authors classify them as alternative subversive forms of governance performed by marginal and often invisible peripheral actors The volume studies how the informal and the extra legal unfold transnationally and in particular how and why they have been are being progressively criminalized and integrated into the construction of global and local dangerhoods how the above mentioned phenomena are embedded into a post liberal security order and whether they shape new states of exception and generate moral panic whose ultimate function is regulatory disciplinary and one of crafting practices of political ordering

On the Move Alejandra Bronfman, 2013-04-04 The Caribbean stands out in the popular imagination as a place without history a place which has somehow eluded modernity Haiti is envisioned as being trapped in an endless cycle of violence and instability Cuba as a 1950s time warp Jamaicans as ganja smoking Rastafarians while numerous pristine anonymous islands are simply peaceful idylls The notion of getting away from it all lures countless visitors offering the possibility of total disconnect for the world weary In *On the Move* Alejandra Bronfman argues that in fact the opposite is true the Caribbean is and has always been deeply engaged with the wider world From drugs and tourism to international political struggles these islands form an integral part of world history and of the present and are themselves in a constant state of economic and social flux in the face of global transformations

Addiction Trajectories Eugene Raikhel, William Garriott, 2013-04-18 Bringing anthropological perspectives to bear on addiction the contributors to this important collection highlight the contingency of addiction as a category of human knowledge and experience Based on ethnographic research conducted in sites from alcohol treatment clinics in Russia to Pentecostal addiction ministries in Puerto Rico the essays are linked by the contributors' attention to the dynamics including the cultural scientific legal religious personal and social that shape the meaning of addiction in particular settings They examine how it is understood and experienced among professionals working in the criminal justice system of a rural West Virginia community Hispano residents of New Mexico's Espanola Valley where the rate of heroin overdose is among the highest in the United States homeless women participating in an outpatient addiction therapy program in the Midwest machine gaming addicts in Las Vegas and many others The collection's editors suggest addiction trajectories as a useful rubric for analyzing the changing meanings of addiction across time place institutions and

individual lives Pursuing three primary trajectories the contributors show how addiction comes into being as an object of knowledge a site of therapeutic intervention and a source of subjective experience Contributors Nancy D Campbell E Summerson Carr Angela Garcia William Garriott Helena Hansen Anne M Lovell Emily Martin Todd Meyers Eugene Raikhel A Jamie Saris Natasha Dow Schill *Prohibition, Religious Freedom, and Human Rights: Regulating Traditional Drug Use* Beatriz Caiuby Labate, Clancy Cavnar, 2014-03-25 This book addresses the use and regulation of traditional drugs such as peyote ayahuasca coca leaf cannabis khat and Salvia divinorum The uses of these substances can often be found at the intersection of diverse areas of life including politics medicine shamanism religion aesthetics knowledge transmission socialization and celebration The collection analyzes how some of these psychoactive plants have been progressively incorporated and regulated in developed Western societies by both national legislation and by the United Nations Drug Conventions It focuses mainly but not only on the debates in court cases around the world involving the claim of religious use and the legal definitions of religion It further touches upon issues of human rights and cognitive liberty as they relate to the consumption of drugs While this collection emphasizes certain uses of psychoactive substances in different cultures and historical periods it is also useful for thinking about the consumption of drugs in general in contemporary societies The cultural and informal controls discussed here represent alternatives to the current merely prohibitionist policies which are linked to the spread of illicit and violent markets By addressing the disputes involved in the regulation of traditional drug use this volume reflects on notions such as origin place authenticity and tradition thereby relating drug policy to broader social science debates **Re-Visioning Psychiatry** Laurence J. Kirmayer, Robert Lemelson, Constance A. Cummings, 2015-07-29

Re-visioning Psychiatry brings together new perspectives on the causes and treatment of mental health problems The contributors emphasize the importance of understanding experience and explore how the brain the person and the social world interact to give rise to mental health problems as well as resilience and recovery *Criminology* Eamonn Carrabine, 2009 This fully revised textbook ground in original research is a clear and insightful introduction to the key topics studied in undergraduate criminology courses Accessible and user friendly it is essential reading for all criminology students

A Post-Exotic Anthropology of Soqatra, Volume II Serge D. Elie, 2020-06-22 This two volume book offers a panoramic explanatory narrative of Soqatra Island's rediscovery based on the global significance of its endemic biodiversity The first volume *A Post Exotic Anthropology of Soqatra A Mesography of an Indigenous Polity in Yemen* initiated the analytical inventory of the four key vectors of Soqatra's transition process through a discussion of the first two economic disarticulation and political incorporation This volume *A Post Exotic Anthropology of Soqatra Cultural Environmental Annexation of an Indigenous Community* completes the analytical inventory by exploring the other two pivotal vectors of transition cultural modernization and environmental annexation These two vectors encompass the critical sociocultural spheres and environmental domains in which Soqatra's transformation process is unfolding The origin of these vectors is situated within

Soqotra's long history of exogenous mediations by external actors and their symbolic appropriation of the island into an imaginative geography. The legacy is a symbolic curse which has made Soqotra into an ideal playground for fantasist cultural or environmental experiments. Accordingly, this volume undertakes first a systematic inventory of the communal effects engendered within the domains of cultural modernization, dissonant linguistic attitudes, alienating consumption practices, divergent religious affiliations, and differentiating economic aspirations. Second, it anatomizes the process of environmental annexation through the reconstruction of the formulation and implementation process of a biodiversity conservation and sustainable development experiment in which the island and its residents are appropriated into an anachronistic paradigm, a pastoral ecotopia as a blueprint of their future.

Revisioning Women and Drug Use E. Ettorre, 2007-09-12. This landmark text by one of the most respected researchers in drug use considers the issues surrounding the gendering of drug use and within this looks critically at two approaches: the classical and postmodern. Ettorre examines the idea of a drug-using society and the implications this holds for social inequality and exclusion.

Mental and Neurological Public Health Vikram Patel, Alistair Woodward, Valery Feigin, Stella R. Quah, Kristian Heggenhougen, 2010-06-07. Colin Mathers, who leads the Global Burden of Disease group in WHO, has confirmed that in the 2004 GBD 13.1% of global Daily Adjusted Life Years are attributable to mental or neurological disorders. While the proportions vary very widely from about 10% in low-income countries to over 25% in high-income countries, it is clear that there is a need for understanding how to address this issue. This volume aims to provide a comprehensive overview of the public health principles of mental and neurological disorders. This vast range of health conditions affects people across the life course from developmental disabilities in childhood to schizophrenia and substance abuse in adults and dementia in old age. Despite this diversity, they all share many features: they are mostly mediated through brain dysfunction or abnormalities, are often chronic in course, typically benefit from multi-component interventions, and are amongst the most neglected conditions in global health. The volume will bring together chapters from the Psychiatry, Neurology, Substance Abuse, and Child Development sections of the Encyclopedia of Public Health. The volume will be the first comprehensive text on a public health approach to this diverse group of health conditions and has no obvious competitor. Highlights the common features of many mental and neurological disorders. Provides insights into potential cross-over methods of identification and treatment. Includes chapters on the most frequently diagnosed mental and neurological challenges faced by public health systems.

Lets delve into the realm of top-selling books, exploring the fascinating narratives that have charmed audiences this year. The Must-Read : Colleen Hoovers "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Drug Use And Cultural Context Beyond The West Tradition Change And Postcolonialism : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
