continuing controversies surrounding ADHD voluminous research has incontrovertibly established that it is a valid disorder that results in an increased risk for adverse outcomes in multiple areas of life One of these is increased risk of criminal behavior An astounding 25 percent of young adult males who are incarcerated in the United States the United Kingdom and other Western countries have ADHD Treatment of individuals with ADHD with stimulant medication can result in a 31% reduction in their criminal behavior and a 43% reduction in violent crime in offenders after release from prison However despite the widespread prevalence of ADHD and the remarkable effectiveness of its treatment on reducing crime the systematic identification and treatment of ADHD in the criminal justice system is virtually non existent This is the first book written for professionals in the criminal justice system to help them better understand and work with people who have ADHD It will provide criminal justice professionals with what they need to know about ADHD based on the best of current science This knowledge will serve to significantly enhance their effectiveness in working with the 25% of offenders who have ADHD

of Penology and Criminal Justice provides a comprehensive and balanced review of *Trial by Treatment* Mary Ellen Stitt, 2025-05-20 A troubling account of the unexpected impacts of treatment based alternatives to criminal punishment Every year courts send hundreds of thousands of people to treatment based programs as alternatives to traditional punishment These alternatives known as diversion programs are widely celebrated as reforms that reduce the punishment of the mentally ill But in *Trial by Treatment* Mary Ellen Stitt shows that they have in fact expanded the reach of the criminal legal system and its power over the lives of the most vulnerable The inner workings of diversion programs are obscure partially by design and data on outcomes is hard to come by Stitt draws on two years of fieldwork in criminal courtrooms and court mandated treatment sessions as well as an original national dataset in depth interviews and experimental survey data to document the hidden impacts of diversion She shows that placing mental healthcare under the control of the courts has helped to legitimize the criminalization of illness warped treatment environments and amplified inequalities in punishment In vivid and humanizing detail *Trial by Treatment* shows how reforms that keep power and discretion in the same hands can entrench the very problems they promised to solve
