

The background of the cover features a close-up, artistic photograph of several blue, oval-shaped pills. The pills are scattered across the frame, with some in sharp focus and others blurred, creating a sense of depth. The lighting is soft, highlighting the texture and color of the pills. The overall color palette is a range of blues, from deep navy to lighter, airy tones.

Babor, Sally Casswell, Kathryn Graham, Taisia Huckle, Michael Livingston, Esa Österberg, Jürgen Rehm, Robin

Room, Ingeborg Rossow, Bundit Sornpaisarn, 2022-10-31 *Alcohol No Ordinary Commodity* is a collaborative effort by an international group of addiction scientists to improve the linkages between addiction science and alcohol policy. It presents in a comprehensive practical and readily accessible form the accumulated scientific knowledge on alcohol research that has a direct relevance to the development of alcohol policy on local, national and international levels. It provides an objective basis on which to build relevant policies globally and informs policy makers who have direct responsibility for public health and social welfare. By locating alcohol policy primarily within the realm of public health, this book draws attention to the growing tendency for governments both national and local to consider alcohol misuse as a major determinant of ill health and to organize societal responses accordingly. The scope of the book is comprehensive and global. The authors describe the conceptual basis for a rational alcohol policy and present new epidemiological data on the global dimensions of alcohol misuse. The core of the book is a critical review of the cumulative scientific evidence in seven general areas of alcohol policy: pricing and taxation; regulating the physical availability of alcohol; modifying the environment in which drinking occurs; drinking driving countermeasures; marketing restrictions; primary prevention programs in schools and other settings; and treatment and early intervention services. The final chapters discuss the current state of alcohol policy in different parts of the world and describe the need for a new approach to alcohol policy that is evidence based, global and coordinated. A valuable resource for those involved in addiction science and drug policy as well as those in the wider fields of public health, health policy, epidemiology and practising clinicians.

**Substance Use and Abuse** Russil Durrant, Jo Thakker, 2003-04-07

This book takes an integrative approach to the understanding of drug use and its relationship to social cultural factors. It is lucidly and powerfully argued and constitutes a significant achievement. The authors sensibly argue that in order to fully understand and explain drug use and abuse it is necessary to take into account different levels of analysis reflecting distinct domains of human functioning: the biological, psychosocial and cultural/historical. Overall, this book represents an exceptional achievement and should be of interest to drug clinicians and researchers as well as social scientists and students.

Professor Tony Ward, University of Melbourne

Substance use and abuse are two of the most frequent psychological problems clinicians encounter. Mainstream approaches focus on the biological and psychological factors supporting drug abuse. But to fully comprehend the issue, clinicians need to consider the social, historical and cultural factors responsible for drug-related problems.

*Substance Use and Abuse: Cultural and Historical Perspectives* provides an inclusive explanation of the human desire to take drugs. Using a multidisciplinary framework, authors Russil Durrant and Jo Thakker explore the cultural and historical variables that contribute to drug use. Integrating biological, psychosocial and cultural/historical perspectives, this innovative and accessible volume addresses the fundamental question of why drug use is such a ubiquitous feature of human society. **Public Health Aspects of HIV/AIDS in Low and Middle Income Countries** David Celentano, Chris Beyrer, 2008-09-11 It has now been 25 years since the apocryphal report in the CDC Morbidity and Mortality Weekly Report dated June 5 1981 entitled Pneumocystis Pneumonia Los Angeles which announced what was to become HIV AIDS HIV has now affected virtually all countries that have looked for it and has had a devastating impact on the public health and medical care infrastructure around the world HIV AIDS has also disproportionately affected nations with the least capacity to confront it especially the developing world nations in Sub Saharan Africa South and Southeast Asia and the emerging republics of Eastern and Central Asia The pandemic unlike any other disease of our time has had profound impacts on the practice of public health itself bringing affected communities into decision making demanding North South partnerships and collaborations and changing

the basic conduct of clinical and prevention trials research While much has been written in scholarly publications for medical epidemiologic and disease control specialists there is no comprehensive review of the public health impact and response to HIV AIDS in the developing world This edited volume seeks to systematically describe the emergence and form of the epidemics epidemiology the social community and political response and the various measures to confront and control the epidemic with varying levels of success Of particular importance are strategies that appear to have been useful in ameliorating the epidemic while contrasting the situation in a neighboring country or region where contrasting prevention or care initiatives have had a deleterious outcome Common to all responses has been the international multi sectoral response represented by the Global Fund for HIV AIDS Malaria and Tuberculosis the President s Emergency Plan for AIDS Relief and the Gates Foundation among others to promote HIV pharmacologic therapy in resource poor settings The chapter authors will explore the political challenges in meeting HIV AIDS prevention and care in concert with the public health realities in specific country and regional context
