Drug War Facts:

Drug War Facts ,2006 Drug War Facts ,2001 Lies, Damned Lies, and Drug War Statistics, Second Edition Matthew B. Robinson, Renee G. Scherlen, 2014-01-01 Revised and updated edition that analyses how the Office of National Drug Control Policy employs statistics to misleadingly claim the War on Drugs is a success First published in 2007 Lies Damned Lies and Drug War Statistics critically analyzed claims made by the Office of National Drug Control Policy ONDCP the White House agency of accountability in the nation s drug war since 1989 as found in the six editions of the annual National Drug Control Strategy between 2000 and 2005 In this revised and updated second edition of their critically acclaimed work Matthew B Robinson and Renee G Scherlen examine seven more recent editions 2006 2012 to once again determine if ONDCP accurately and honestly presents information or intentionally distorts evidence to justify continuing the drug war They uncover the many ways in which ONDCP manipulates statistics and visually presents that information to the public Their analysis demonstrates a drug war that consistently fails to reduce drug use drug fatalities or illnesses associated with drug use fails to provide treatment for drug dependent users and drives up the prices of drugs They conclude with policy recommendations for reforming ONDCP s use of statistics as well as how the nation fights the war on drugs Praise for the First Edition Lies Damned Lies and Drug War Statistics is surprisingly easy to read and Robinson and Scherlen have done a huge favor not only to critics of current drug policy by compiling this damning critique of ONDCP claims but also to anyone interested in how data is compiled presented and misused by bureaucrats attempting to guard their domains It should be required reading for members of Congress Drug War Chronicle Book Review The authors have performed a valuable service to our democracy with their meticulous analysis of the White House ONDCP public statements and reports They have pulled the sheet off what appears to be an official policy of deception using clever and sometimes clumsy attempts at statistical manipulation This document at last gives us a map of the truth Mike Gray author of Drug Crazy How We Got into This Mess and How We Can Get Out Robinson and Scherlen make a valuable contribution to documenting how ONDCP fails to live up to basic standards of accountability and consistency Ethan Nadelmann Executive Director Drug Policy Alliance *50 Facts That Should Change The World 2.0* Jessica Williams, 2007-11-01 Jessica Williams revisits her classic series of snapshots of life in the twenty first century Revised and updated with lots of new material this book is every bit as vital as the first edition From the inequalities and absurdities of the so called developed world to the vast scale of suffering wreaked by war famine and AIDS in developing countries it paints a picture of incredible contrasts This 2 0 edition again contains an eclectic selection of facts addressing a broad range of global issues now with added emphasis on climate change the decline in human rights and democratic freedoms around the world the unexpected global impact of corporate growth sports and media madness and inequality and lots of updated facts and figures Each is followed by a short essay explaining the story behind the fact fleshing out the bigger problem lurking behind the numbers Real life stories anecdotes and case studies help to

humanize the figures and make clear the human impact of the bald statistics All of the facts remind us that whether we like to think of it or not the world is interconnected and civilization is a fragile concept Williams makes us think about some of the hard facts about our civilization and what we can do about them *Drugs & Society* Glen R.
