## **Drug War Politics:**

**Drug War Politics** Eva Bertram, 1996-07-15 An important and timely book The authors capture the dynamics of drug debate with uncanny accuracy Too often treatment and prevention get the short end of the stick in Congress and this book explains why Drug War Politics makes a compelling case for bringing public health principles to bear on the drug epidemic and is essential reading for serious students of the drug issue Senator Edward M Kennedy A thoughtful analysis of the most fundamental and troublesome social problem in America It reaches behind rhetoric and starts making sense about how we can go about saving ourselves from two addictions the terrible affliction of drugs and the easy talk that makes the rest of us feel good but does not deal with the problem Kurt Schmoke Mayor City of Baltimore This well informed book shows how political expediency and a punitive conventional wisdom have combined over the past decades to support a national drug policy that fills our prisons depletes our budget and destroys our poor This is a wonderfully sane analysis of what has become a major form of national insanity Frances Fox Piven City University of New York We ve needed a new way of thinking about the drug problem for a long time Now we have it Drug War Politics is one of the best efforts to reconceptualize a major aspect of crime especially victimless crime that I have seen since Morris and Hawkins The Honest Politician s Guide to Crime Control of nearly 30 years ago Theodore J Lowi Cornell University A compelling analysis of our failure The provocative public health solutions it proposes to the drug related crime violence and despair that ravage many of our inner cities show that we can give people a chance a chance to fight addiction and build better lives Congressman John Lewis We will never be able to arrest prosecute or jail our way out of the drug problem To understand why read this book The evidence is overwhelming we need a radical change in the mission and mandate of drug control Nicholas Pastore Chief of Police New Haven This is the smart citizens guide to the drug policy debate to why we spend so much time and money on things that don t work and to where we can look for guidance for things that do Barbara Geller Director Fighting Back New Haven *Czars in the White House* Justin S. Vaughn, Jose D. Villalobos, 2015-06-02 When Barack Obama entered the White House he faced numerous urgent issues Despite the citizens demand for strong presidential leadership President Obama following a long standing precedent for the development and implementation of major policies appointed administrators so called policy czars charged with directing the response to the nation s most pressing crises Combining public administration and political science approaches to the study of the American presidency and institutional politics Justin S Vaughn and Jos D Villalobos argue that the creation of policy czars is a strategy for combating partisan polarization and navigating the federal government s complexity They present a series of in depth analyses of the appointment role and power of various czars the energy czar in the mid 1970s the drug czar in the late 1980s the AIDS czar in the 1990s George W Bush s trio of national security czars after 9 11 and Obama s controversial czars for key domestic issues Laying aside inflammatory political rhetoric Vaughn and Villalobos offer a sober empirical analysis of what precisely constitutes a czar why Obama and his predecessors used czars

and what role they have played in the modern presidency      **An Army in Crisis** Alexander Vazansky, 2019-10-01 Following the decision to maintain 250 000 U S troops in Germany after the Allied victory in 1945 the U S Army had for the most part been a model of what a peacetime occupying army stationed in an ally s country should be The army had initially benefited from the positive results of U S foreign policy toward West Germany and the deference of the Federal Republic toward it establishing cordial and even friendly relations with German society By 1968 however the disciplined military of the Allies had been replaced with rundown barracks and shabby looking GIs and U S bases in Germany had become a symbol of the army s greatest crisis a crisis that threatened the army s very existence In *An Army in Crisis* Alexander Vazansky analyzes the social crisis that developed among the U S Army forces stationed in Germany between 1968 and 1975 This crisis was the result of shifting deployment patterns across the world during the Vietnam War changing social and political realities of life in postwar Germany and Europe and racial tensions drug use dissent and insubordination within the U S Army itself influenced by the civil rights movement the Vietnam War and the youth movement in the States With particular attention to 1968 *An Army in Crisis* examines the changing relationships between American and German soldiers from German deference to familiarity and fraternization and the effects that a prolonged military presence in Germany had on American military personnel their dependents and the lives of Germans Vazansky presents an innovative study of opposition and resistance within the ranks affected by the Vietnam War and the limitations of personal freedom among the military during this era

*Lies, Damned Lies, and Drug War Statistics, Second Edition* Matthew B. Robinson, Renee G. Scherlen, 2014-01-01 Revised and updated edition that analyses how the Office of National Drug Control Policy employs statistics to misleadingly claim the War on Drugs is a success First published in 2007 *Lies Damned Lies and Drug War Statistics* critically analyzed claims made by the Office of National Drug Control Policy ONDCP the White House agency of accountability in the nation s drug war since 1989 as found in the six editions of the annual National Drug Control Strategy between 2000 and 2005 In this revised and updated second edition of their critically acclaimed work Matthew B Robinson and Renee G Scherlen examine seven more recent editions 2006 2012 to once again determine if ONDCP accurately and honestly presents information or intentionally distorts evidence to justify continuing the drug war They uncover the many ways in which ONDCP manipulates statistics and visually presents that information to the public Their analysis demonstrates a drug war that consistently fails to reduce drug use drug fatalities or illnesses associated with drug use fails to provide treatment for drug dependent users and drives up the prices of drugs They conclude with policy recommendations for reforming ONDCP s use of statistics as well as how the nation fights the war on drugs Praise for the First Edition *Lies Damned Lies and Drug War Statistics* is surprisingly easy to read and Robinson and Scherlen have done a huge favor not only to critics of current drug policy by compiling this damning critique of ONDCP claims but also to anyone interested in how data is compiled presented and misused by bureaucrats attempting to guard their domains It should be required reading for members of Congress *Drug War Chronicle* Book Review

The authors have performed a valuable service to our democracy with their meticulous analysis of the White House ONDCP public statements and reports. They have pulled the sheet off what appears to be an official policy of deception using clever and sometimes clumsy attempts at statistical manipulation. This document at last gives us a map of the truth. Mike Gray, author of *Drug Crazy: How We Got into This Mess and How We Can Get Out*, Robinson and Scherlen make a valuable contribution to documenting how ONDCP fails to live up to basic standards of accountability and consistency. Ethan Nadelmann, Executive Director, Drug Policy Alliance.

**Domestic Politics and International Narcotics Control** Victor J. Hinojosa, 2007-11-21. This book examines different levels of narcotics control cooperation between the United States, Mexico, and Colombia. Victor J. Hinojosa finds that Mexico is consistently held to a very different standard than Colombia and that the US often satisfies domestic political pressures to be tough on drugs by punishing Colombia while allowing Mexico much more freedom to pursue different strategies. He also explores the role of domestic terrorism and presidential reputation in Colombia for the US-Colombia pair and the role of competing issues in the US-Mexican bilateral agenda for that country pair, finding that congressional pressure and electoral tests exert the most impact on US behavior but that Mexican and Colombian behavior is best explained in other ways. Together, these findings suggest both the promise of integrating the study of international relations and comparative politics and important limitations of the theoretical framework.

**Crime & Politics** Ted Gest, 2001-07-26. Why has America experienced an explosion in crime rates since 1960? Why has the crime rate dropped in recent years? Though politicians are always ready both to take the credit for crime reduction and to exploit grisly headlines for short-term political gain, these questions remain among the most important and most difficult to answer in America today. In *Crime Politics*, award-winning journalist Ted Gest gives readers the inside story of how crime policy is formulated inside the Washington beltway and state capitols, why we've had cycle after cycle of ineffective federal legislation and where promising reforms might lead us in the future. Gest examines how politicians first made crime a national rather than a local issue, beginning with Lyndon Johnson's crime commission and the landmark anti-crime law of 1968 and continuing right up to such present-day measures as three-strikes laws, mandatory sentencing, and community policing. Gest exposes a lack of consistent leadership, backroom partisan politics, and the rush to embrace simplistic solutions as the main causes for why Federal and state crime programs have failed to make our streets safe. But he also explores how the media aid and abet this trend by featuring lurid crimes that simultaneously frighten the public and encourage candidates to offer another round of quick-fix solutions. Drawing on extensive research and including interviews with Edwin Meese, Janet Reno, Joseph Biden, Ted Kennedy, and William Webster, *Crime Politics* uncovers the real reasons why America continues to struggle with the crime problem and shows how we do a better job in the future.

warfare By examining the social construction of warfare as a principal script or frame defining the movement state dynamic  
Stuart A Wright explains how this highly charged confluence of a war narrative engendered a kind of symbiosis leading to the  
escalation of a mutual threat that culminated in the Oklahoma City bombing Wright offers a unique perspective on the events

leading up to the bombing because he served as a consultant to Timothy McVeigh's defense team for eighteen months and draws on primary data based on face to face interviews with McVeigh. The book contends that McVeigh was firmly entrenched in the Patriot movement and was part of a network of warrior cells that planned and implemented the bombing.

**Introduction to International Political Economy** David N. Balaam, Bradford Dillman, 2015-07-17 A complete and accessible overview of how politics and economics collide in a global context. This text surveys the theories, institutions, and relationships that characterize IPE and highlights them in a diverse range of regional and transnational issues. The bestseller in the field, *Introduction to International Political Economy* positions students to critically evaluate the global economy and to appreciate the personal impact of political, economic, and social forces.

**The Outcomes Following the Implementation of the Brownsville Agreement and the Mérida Initiative** Howard L. Salter, 2015-02-20 The Brownsville Agreement and the Mérida Initiative were collaborative inter-agency agreements between the United States and Mexico. The War on Drugs has taken thousands of lives on both sides of the border, and these agreements provided a collaborative framework to influence the outcome of the war. Using Outcomes Theory and Time Series Intervention Analysis, multiple outcomes demonstrated that consequences from these policies were an overwhelming loss for the War on Drugs. After these policies were implemented, drug use in the US rose, overall arrests remained static, and street prices of these illicit substances fell.

**Using Women** Nancy Campbell, 2002-12-24 From the 1950s girl junkie to the 1990s crack mom, *Using Women* investigates how the cultural representations of women drug users have defined America's drug policies in this century. In analyzing the public's continued fear, horror, and outrage wrought by the specter of women using drugs, Nancy Campbell demonstrates the importance that public opinion and popular culture have played in regulating women's lives. The book will chronicle the history of women and drug use, provide a critical policy analysis of the government's drug policies, and offer recommendations for the direction our current drug policies should take. *Using Women* includes such chapters as Sex, Drugs, and Race in the Age of Dope; Regulating Adolescents in the Postwar US; Fifties Femininity; and Regulating Maternal Instinct.

**Killer High** Peter Andreas, 2022-01-17 In *Killer High*, Peter Andreas tells the story of war from antiquity to the modern age through the lens of six psychoactive drugs: alcohol, tobacco, caffeine, opium, amphetamines, and cocaine. Armed conflict has become progressively more drugged with the global spread of these mind-altering substances. From ancient brews and battles to meth and modern warfare, drugs and war have grown up together and become addicted to each other. By looking back not just years and decades but centuries, Andreas reveals that the drugs-conflict nexus is actually an old story and that powerful states have been its biggest beneficiaries.

**Sex, Drugs, and Body Counts** Peter Andreas, Kelly M. Greenhill, 2011-01-15 At least 200,000-250,000 people died in the war in Bosnia. There are three million child soldiers in Africa. More than 650,000 civilians have been killed as a result of the US occupation of Iraq. Between 600,000 and 800,000 women are trafficked across borders every year. Money laundering represents as much as 10 percent of global GDP. Internet child porn is a 20 billion a year.

industry These are big attention grabbing numbers frequently used in policy debates and media reporting Peter Andreas and Kelly M Greenhill see only one problem these numbers are probably false Their continued use and abuse reflect a much larger and troubling pattern policymakers and the media naively or deliberately accept highly politicized and questionable statistical claims about activities that are extremely difficult to measure As a result we too often become trapped by these mythical numbers with perverse and counterproductive consequences This problem exists in myriad policy realms But it is particularly pronounced in statistics related to the politically charged realms of global crime and conflict numbers of people killed in massacres and during genocides the size of refugee flows the magnitude of the illicit global trade in drugs and human beings and so on In *Sex Drugs and Body Counts* political scientists anthropologists sociologists and policy analysts critically examine the murky origins of some of these statistics and trace their remarkable proliferation They also assess the standard metrics used to evaluate policy effectiveness in combating problems such as terrorist financing sex trafficking and the drug trade
