Vladimir Nabokov Brian Boyd, 2016-06-10 The story of Nabokov's life continues with his arrival in the United States in 1940. He found that supporting himself and his family was not easy until the astonishing success of *Lolita* catapulted him to world fame and financial security.

Reclaiming and Redefining American Exhibitions of Russian Art Roann Barris, 2023-08-23 This book examines the history of American exhibitions of Russian art in the twentieth century in the context of the Cold War. Because this history reflects changes in museological theory and the role of governments in facilitating or preventing intercultural cooperation, it uncovers a story that is far more complex than a chronological listing of exhibition names and art works. Roann Barris considers questions of stylistic appropriations and influences and the role of museum exhibitions in promoting international and artistic exchanges. Barris reveals that Soviet and American exchanges in the world of art were extensive and persistent despite political disagreements before, during, and after the Cold War. It also reveals that these early exhibitions communicated contradictory and historically invalid pictures of the Russian or Soviet avant-garde. The book will be of interest to scholars working in art history, museum studies, and Russian studies.

Samizdat, Tamizdat, and Beyond Friederike Kind-Kovács, Jessie Labov, 2013-03-01 In many ways, what is identified today as cultural globalization in Eastern Europe has its roots in the Cold War phenomena of samizdat (do it yourself underground publishing) and tamizdat (publishing abroad). This volume offers a new understanding of how information flowed between East and West during the Cold War, as well as the much broader circulation of cultural products instigated and sustained by these practices. By expanding the definitions of samizdat and tamizdat from explicitly political print publications to include other forms and genres, this volume investigates the wider cultural sphere of alternative and semi-official texts, broadcast media, reproductions of visual art and music, and in the post-1989 period, new media. The underground circulation of uncensored texts in the Cold War era serves as a useful foundation

for comparison when looking at current examples of censorship independent media and the use of new media in countries like China Iran and the former Yugoslavia *Dear Bunny, Dear Volodya* Vladimir Vladimirovich Nabokov, Edmund Wilson, 2001-04-03 These letters outline the mutual affection and closeness of the two writers but also reveal the slow crescendo of mutual resentment mistrust and rejection **BOOK JACKET** [The Conference of the Tongues](#) Theo Hermans, 2014-06-03 The Conference of the Tongues offers a series of startling reflections on fundamental questions of translation It throws new light on familiar problems and opens up some radically different avenues of thought It engages with value conflicts in translation and the social accountability of translators and turns the old issue of equivalence inside out Drawing on a wealth of contemporary and historical examples the book teases out the translator's subject position in translations makes notions of intertextuality and irony serviceable for translation studies tries to think translation without transformation and uses a controversial sociological model to cast a cold eye on the entire world of translating This is a highly interdisciplinary study that remains aware of the importance of theoretical paradigms as it brings concepts from international law social systems theory and even theology to bear on translation Self reference is a recurrent theme The book invites us to read translations for what they can tell us about translating and about translators own perceptions of their role The argument throughout is for more self reflexive translation studies **Nabokov's Secret Trees** Stephen H. Blackwell, 2024-06-03 In nearly all his literary works Vladimir Nabokov inscribed networks of trees to create meaningful patterns of significance around one or more of his passionate interests in consciousness memory creativity epistemology ethics and love with a deep connection to nature serving as a constant undercurrent Nabokov's Secret Trees explores this neglected area of his art one that positions nature as a hidden but vital core of his work The book presents an entirely new previously unsuspected Nabokov one who crafts intricate patterns of arboreal imagery lurking behind his often baroque psychological narratives It reveals how Nabokov activates arboreal potentials by exploring the hidden ubiquity of trees their essence as complex natural phenomena and their role as quiet presences that have accompanied and fostered human civilization and art since their beginnings The book uncovers how trees offer a rich and intricate field for structural semantic allusive and metaphorical exploration Based on the published corpus as well as archival materials Nabokov's Secret Trees demonstrates that trees not only populate Nabokov's art in stunning yet furtive abundance but also as mysterious natural entities directly animating his works worlds and his readers experience of them **Vladimir Nabokov** David Rampton, 1984-07-05 Vladimir Nabokov was always a controversial writer Long before the publication of Lolita controversy raged over the virtues of his work His detractors insisted that he had forsaken the humanistic concerns of the Russian literary tradition while his supporters claimed that his work actually extended and enriched that tradition David Rampton faces these apparent contradictions head on and tries to reach a more balanced integrated view of the novelist's achievement **Nabokov's Cinematic Afterlife** Ewa Mazierska, 2014-01-10 This book offers critical studies of films that adapted works

by Vladimir Nabokov One of the most screened twentieth century authors with over ten books adapted for cinema his works are full of quirky and forbidden romance and his writing is renowned for its cinematic qualities e g frames stage directions and descriptions suggesting specific camera positions and movements Films discussed include Lolita both Kubrick s 1962 and Lyne s 1997 versions Richardson s Laughter in the Dark 1969 Skolimowski s King Queen Knave 1972 Fassbinder s Despair 1978 Foulon s Mademoiselle O 1994 Kuik s An Affair of Honor 1999 Gorris The Luzhin Defence 2000 and Rohmer s The Triple Agent 2004 A final chapter discusses similarities between Nabokov and Jean Luc Godard **The Translator's**

Doubts Julia Trubikhina,2019-08-28 Using Vladimir Nabokov as its case study this volume approaches translation as a crucial avenue into literary history and theory philosophy and interpretation The book attempts to bring together issues in translation and the shift in Nabokov studies from its earlier emphasis on the metaliterary to the more recent metaphysical approach Addressing specific texts both literary and cinematic the book investigates Nabokov s deeply ambivalent relationship to translation as a hermeneutic oscillation on his part between the relative stability of meaning which expresses itself philosophically as a faith in the beyond and deep metaphysical uncertainty While Nabokov s practice of translation changes profoundly over the course of his career his adherence to the Romantic notion of a true but ultimately elusive metaphysical language remained paradoxically constant *Charlottengrad* Roman Utkin,2023-08 Charlottengrad examines the Russian migr and exile community that found itself in Berlin during the first wave of emigration after the 1917 Revolution brought the tsarist government of Russia crashing down Roman Utkin shows that the idea of a community aligned with Imperial Russia and hostile to the new Soviet government is far too simplistic By closely studying the intellectual output of some of the hundreds of thousands of Russian migr s ensconced in Berlin s Charlottenburg neighborhood Utkin reveals a picture of some of the world s first stateless peoples struggling to understand their new identity as emigrants and exiles balancing their sense of Russianness with their position in a modern bustling Western city and navigating their political and personal positionality toward a homeland that was no longer home **Realms of Exile** Domnica Radulescu,2002-01-01

Realms of Exile brings together authors writing on diverse themes of Eastern European exile The book defines the experiential and linguistic peculiarities of exiled people who share similar cultural geographical and mythological backgrounds and who have suffered under totalitarian rule The contributions discuss a variety of media from the soulful melodies of the Russian gypsies to the delicate sensuousness of Kieslowski s films as the authors treat some of the most crucial issues of our times such as political dissent and resistance the fractured self alienation and migr consciousness Realms of Exile is interdisciplinary and cross cultural scholarship at its best casting new light on the many nuances and variations of many of the cultures and ethnic groups of Eastern Europeans *Reimagining Nabokov* José

Nabokov at Cornell Gavriel Shapiro, 2003 Table of contents [Affect-Language Interactions in Native and Non-Native English Speakers](#) Rafał Jończyk, 2016-12-28 This volume provides an up to date and evaluative review of theoretical and empirical stances on emotion and its close interaction with language and cognition in monolingual and bilingual individuals Importantly it presents a novel methodological approach that takes into account contextual information and hence goes beyond the reductionist approach to affective language that has dominated contemporary research Owing to this pragmatic approach the book presents brand new findings in the field of bilingualism and affect and offers the first neurocognitive interpretation of findings reported in clinical and introspective studies in bilingualism This not only represents an invaluable contribution to the literature but may also constitute a breakthrough in the investigation of the worldwide phenomenon of bilingualism Beginning with a thorough review of the history and current state of affective research and its relation to language spanning philosophical psychological neuroscientific and linguistic perspectives the volume then proceeds to explore affect manifestation using neuropragmatic methods in monolingual and bilingual individuals In doing so it brings together findings from clinical and introspective studies in bilingualism with cognitive psychophysiological and neuroimaging paradigms By combining conceptual understanding and methodological expertise from many disciplines this volume provides a comprehensive picture of the dynamic interactions between contextual and affective information in the language domain

Nabokov's Fifth Arc J. E.
