Drugs And Pregnancy:

Drugs During Pregnancy and Lactation Christof Schaefer, 2001-12-21 The care of pregnant women presents one of the paradoxes of modern medicine Women usually require little medical intervention during an uneventful pregnancy Conversely those at high risk of damage to their own health or that of their unborn require the help of appropriate medicinal technology including drugs Accordingly there are two classes of pregnant women the larger group requires support but not much intervention while the other needs the full range of diagnostic and therapeutic measures applied in any other branch of medicine This book presents the current state of knowledge about drugs in pregnancy In each chapter information is presented separately for two different aspects of the problem seeking a drug appropriate for prescription during pregnancy and assessing the risk of a drug when exposure has already taken place Practising clinicians who prescribe medicinal products to women who are or who may become pregnant will find this volume an invaluable reference **Drugs in**

[Medicines Management for Nurses at a Glance](#) Simon Young, Ben Pitcher, 2016-02-08 Medicines Management for Nurses at a Glance is the perfect companion for study and revision for pre-registration nursing and healthcare students. Combining superb full-colour illustrations with accessible and informative text, it provides an easy-to-read and supportive guide to the key pharmacological knowledge nursing students and registered nurses need to know. Divided into three sections, the first introduces key topics within clinical pharmacology and medicines management, including numeracy, pharmacokinetics, routes of administration, and pharmacodynamics. The second and final sections cover the management of medicines for common medical conditions, drug interactions, side effects, and safe and effective prescribing. Written specifically for nurses, it covers the fundamentals of pharmacology as they apply to nursing practice. Breaks down complex concepts in an accessible way, providing helpful overviews of all key pharmacological topics. Includes practical issues relating to practice and is written to support the Essential Skills Cluster of the NMC and the content of the BNF. Includes content relevant to each of the four fields of nursing and covers drugs for specific groups such as children, pregnant and breastfeeding women, and the elderly. A companion website is available at www.ataglanceseries.com.
