

NICE guidance: newer hypnotics (Z-drugs)

NICE TA 77, April 2004

- No compelling evidence of a clinically useful difference between the Z-drugs and shorter-acting benzodiazepines from the point of view of their effectiveness, adverse effects, or potential for dependence or abuse
- The drug with the lowest purchase cost should be prescribed
- Switching from one of these hypnotics to another should only occur if a patient experiences adverse effects considered to be directly related to a specific agent. These are the only circumstances in which the drugs with the higher acquisition costs are recommended
- Patients who have not responded to one of these hypnotic drugs should not be prescribed any of the others.

Drugs Are Nice:

Drugs Are Nice Lisa Crystal Carver, 2005-09-30 In this eye opening memoir Lisa Crystal Carver recalls her extraordinary youth and charts the late 80s early 90s punk subculture that she helped shape She recounts how her band Suckdog was born in 1987 and the wild events that followed leaving small town New Hampshire to tour Europe at 18 becoming a teen publisher of fanzines a teen bride and a teen prostitute Spin has called Suckdog's album *Drugs Are Nice* one of the best of the 90s and the book includes photos of infamous European shows Yet the book also tells of how Lisa saw the need for change in 1994 when her baby was born with a chromosomal deletion and his father became violent With lasting lightness and surprising gravity *Drugs Are Nice* is a definitive account of the generation that wanted to break every rule but also a story of an artist and a mother becoming an adult on her own terms

Drugs are Nice Lisa Carver, 2006 The 31 year old married mother from Dover may well be the country's supreme cultural anthropologist part literary provocateur part social analyst She's been called everything from this decade's ultimate underground Renaissance woman to America's horniest optimist Hunter S Thompson in a miniskirt *Wired* magazine

Drugs Are Nice Lisa Crystal Carver, 2006 Talks about the generation that wanted to break every rule An account of rules broken left intact and re-written forever this book talks about an artist and a mother becoming an adult on her own terms

Top-up Fees Great Britain. Parliament. House of Commons. Health Committee, 2009 This is the 4th report from the Health Committee in the 2008-09 session HCP 194 I ISBN 9780215530110 and examines the issue of top up fees in relation to NHS patients wishing to buy additional drugs privately In June 2008 the Secretary of State appointed Professor Mike Richards National Clinical Director for Cancer to examine the availability of NHS medicines and to provide guidance on the circumstances where patients should be able to purchase additional drugs not funded by the NHS see http://www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_089927 IdcService GET_FILE ii guidance was provided to NHS trusts where patients continued to purchase private drugs iii supplementary guidance was issued to NICE to make available a greater range of more expensive drugs to a greater number of NHS patients Although the Health Committee welcomes the above new approaches it also sees certain consequences in particular the development of a two tier health system The Committee for example believes it would be wrong for very seriously ill patients to be moved from an NHS ward to a different location so as to administer a privately paid drug Another potential danger is that two patients with identical conditions in the same NHS ward receive different treatments because one patient could afford it and the other could not The Committee believes good continuity of care between the NHS and the private sector is therefore essential in this area Overall the Committee is not convinced that a two tier system will not develop and that the Department of Health needs to monitor the implementation of Professor Richard's recommendations

A Good Death? Simon Woods, 2016-03-16 This interdisciplinary collection presents valuable discourse and reflection on the nature of a good death Bringing together a leading judge and other legal scholars philosophers social scientists practitioners and parents who present varying accounts of a good death the chapters draw from personal experience as well as policy practice and academic analysis Covering themes such as patients rights to determine their own good death considering their best interests when communication becomes difficult and the role and responsibilities of health professionals the book outlines how ethical healthcare might be achieved when dealing with assisted suicide by organizations and how end of life services in general might be improved It will be of interest to students and academics working the area of medical law and ethics as well as health professionals and policy makers

Medical Law and Ethics Jonathan Herring, 2014 This text provides an accessible guide to medical law designed specifically for students It will give readers not only an understanding of the law but by using sociological and critical perspectives students will be able to appreciate the operation of the law in practice and the ambiguities and tensions within it

Global Perspectives on ADHD Meredith R. Bergey, Angela M. Filipe, Peter Conrad, Ilina Singh, 2018 Examining ADHD and its social and medical treatments around the world Attention deficit hyperactivity disorder ADHD has been a common psychiatric diagnosis in both children and adults since the 1980s and 1990s in the United States But the diagnosis was much less common even unknown in other parts of the world By the end of the twentieth century this was no longer the case and ADHD diagnosis and treatment became an increasingly widespread global phenomenon As the diagnosis was adopted around the world the definition and treatment of ADHD often changed in the context of different psychiatric professions medical systems and cultures Global Perspectives on ADHD is the first book to examine how this expanding public health concern is diagnosed and treated in 16 different countries In some countries readers learn over 10% of school aged children and adolescents are diagnosed with ADHD in others that figure is less than 1% Some countries focus on medicating children with ADHD others emphasize parent intervention or child therapy Showing how a medical diagnosis varies across contexts and time periods this book explains how those distinctions shape medical
