**Anne Bolin, Patricia Whelehan**

## **Drugs Sex And Aging:**

**Drugs, Sex and Aging** Gloria M. Bertacchi,1988-06-01      Drugs and the Elderly Charlotte Kenton,1985      **Drugs & Media** Robert C. MacDougall,2011-11-24 A groundbreaking collection of essays highlighting the links between contemporary society's over reliance on both media and drugs      **Old Drugs: Confronting Recent Advancements and Challenges** Anna Wiktorowska-Owczarek,Magdalena Jasinska-Stroschein,Diego Iacono,2025-04-01 Over the years there has been an increasing demand for an effective and cost efficient drug discovery process The study of old and previously approved drugs for newer indications or their re evaluation based on newly identified different mechanisms of action has become a major focus of drug discovery particularly when it comes to treating chronic or complex multigenetic diseases such as cancer autoimmune neurodegenerative disorders and psychiatric conditions This approach is actually particularly appealing since it saves time and resources and reduces the risk of failure The history of pharmacology is replete with examples of drugs that have undergone significant shifts in their clinical or preventive use over time such as acetylsalicylic acid thalidomide duloxetine and dapagliflozin For instance acetylsalicylic acid has been used for over a century as an anti inflammatory and analgesic but it is currently used as an antiplatelet agent Thalidomide was previously removed from the market because of its teratogenic effects which were associated with the inhibition of the synthesis of tumor necrosis factor alpha and other cytokines but it has since emerged as an immunomodulator for the treatment of various diseases including erythema nodosum leprosum Intriguingly repurposed drugs have also been shown to control synaptic potentiation associated with neurological and psychiatric disorders which have opened unimaginable scenarios a few years ago      **Drugs and the Elderly Adult** Meyer D. Glantz,David M. Petersen,Frank J. Whittington,1983      Drug Discovery and Antiaging Approaches for Human Longevity Chen, Jen-Tsung,2025-05-23 For years antiaging biology and genetics have been advanced through approaches of molecular biology particularly the technologies of high throughput multiple omics AI and accelerated computational biology and RNA based tools such as epigenetic regulation and CRISPR technology It has led to dramatic progress in drug discovery and the development of antiaging medicines and medical strategies The field of research on lifespan extending agents and their underlying molecular mechanisms remains minimal Traditional herbal medicines natural compounds antioxidants metabolites kinase inhibitors nuclear hormone receptors and G protein coupled receptor ligands present promising medical strategies for antiaging involving CRISPR based therapy gene therapy stem cell therapy and epigenetic drugs Further research into ethical and social issues may reveal effective strategies for antiaging medicines in medical practice Drug Discovery and Antiaging Approaches for Human Longevity explores antiaging biology and technical advancements in drug development for extending the human lifespan It discusses the progress of clinical trials and ethical and social issues in antiaging medicines This book covers topics such as genetics human lifespan and natural medicine and is a useful resource for medical professionals engineers biologists nutritionists academicians researchers and scientists

### **Reviews on New Drug Targets in Age-Related Disorders**

Paul C. Guest, 2021-03-16 Aging is an inevitable part of life and is becoming a worldwide social economic and health problem due to the fact that an increasing proportion of individuals in the advanced age category have a higher probability of developing age related disorders New therapeutic approaches are still in need to decrease or slow the effects of such diseases in this aging society Advances in omic technologies such as genomics transcriptomics proteomics and metabolomics have significantly advanced our understanding of diseases in multiple medical areas It is hoped that emerging hits from these analyses might be prioritized for further screening as potential novel drug targets for increasing the human healthspan in line with the lifespan which will in turn lead to new therapeutic strategies and drug development projects by the pharmaceutical industry This new book presents a series of reviews describing studies which have resulted in the identification of potential new drug targets for age related disorders Much of this information has come from omic comparisons of healthy and disease states or from testing the effects of potential new therapeutic approaches Each chapter will be presented in the context of specific chronic diseases or different therapeutic strategies providing important information on disease mechanisms related to the aging process This book will be of interest to researchers in the areas of aging and chronic disease as well as clinical scientists physicians and major drug companies With contributors from Australia Brazil Canada France Germany India Iran Iraq South Africa South Korea Thailand Ukraine United Kingdom United States of America Uruguay and Vietnam this is a timely follow up to Guest's previous book *Reviews on New Drug Targets in Age Related Disorders*

*Psychology of Sexuality & Mental Health Vol. 2* Naveen Pant, 2025-02-23 This book is the second volume of *Psychology of Sexuality Mental Health* It is about modern approaches in the psychology of sexuality and mental health This is a unique book which focuses mainly on current trends in Human Sexuality its psychology and its relationship with mental health In this book's sections and scientific chapters effort is made to include common fields of modern sexuality thoughts which relates to Psychology and Mental Health The first section of the book is Modern Approaches on Psychology of Sexuality which through its different chapters discusses and scientifically explores modern aspects of sexuality including current trends sexuality education asexuality sexual orientation and the issues of the LGBT community and effects of menopause etc The section is supported by both systematic reviews and empirical approach The second section of the book is Modern Psychology of Sexuality and Mental Health which discusses modern correlates of combining sexuality and mental health including HIV pornography mental illness and sexuality and mental health correlates for LGBT and transgender people The section further looks at the attitude towards sexuality education and its impact on mental health among students

Both sections include genuine scientific studies empirical research and systematic reviews Thus this book rich in content text is addressed to students researchers scientists and readers of the field

**Literature Search** National Library of Medicine (U.S.), 1985 Population Sciences, 1979-07 **Research Grants Index** National Institutes of Health (U.S.). Division of Research Grants, 1964

*Human Sexuality* Anne Bolin, Patricia Whelehan, 2009-09-10 Human Sexuality Biological Psychological and Cultural Perspectives is a unique textbook that provides a complete analysis of this crucial aspect of life around the world Utilizing viewpoints across cultural and national boundaries and deftly weaving evolutionary and psychological perspectives Bolin and Whelehan go beyond the traditional evolution and primatology to address cross cultural and contemporary issues as well as anthropological contributions and psycho social perspectives Taking into account the evolution of human anatomy sexual behavior attitudes and beliefs this far reaching text goes beyond what is found in traditional books to present a wide diversity of beliefs attitudes and behaviors found globally In addition to providing a rich array of photographs illustrations tables and a glossary of terms this extraordinary textbook explores pregnancy and childbirth as a bio cultural experience life course issues related to gender identity sexual orientations behaviors and lifestyles socioeconomic political historical and ecological influences on sexual behavior early childhood

sexuality puberty and adolescence birth control fertility conception and sexual differentiation HIV infection AIDS AIDS globalization and sex work Fusing biological socio psychological and cultural influences to offer new perspectives on understanding human sexuality its development over millions of years of evolution and how sexuality is embedded in specific socio cultural contexts this is the text for educators and students who wish to understand human sexuality in all of its richness and complexity

**Cancer, Intimacy and Sexuality** Yacov Reisman, Woet L. Gianotten, 2017-02-16 This book provides a wide ranging overview of the sexual consequences of cancer and its treatment with the aim of equipping physicians and other health care providers with the awareness and knowledge required in order to offer patients effective treatment While sexuality may not be the primary focus for cancer patients at some point whether because of sexual changes or relationship issues many patients come to acknowledge the effects that cancer and its treatment have had on their sexuality Although the impacts are frequently similar significant variation is observed Some patients experience changes in all phases of sexual response while others experience none moreover the consequences of the effects may be felt differently by patients and partners Unfortunately many physicians and health care providers remain insufficiently aware of the impact of cancer on sexuality and or lack knowledge about the concerns of patients and the available treatments and coping strategies A further issue is the reticence of physicians to discuss sexuality and the fear of sexologists to talk to patients about cancer Readers will find this book to be a rich source of help in overcoming these constraints and delivering suitable care to patients

**Insights in Aging Interventions: 2022** Morten Scheibye-Knudsen, 2025-03-13 We are now in the third decade of the 21st Century and especially in the last years the achievements made by scientists have been exceptional leading to major advancements in the fast growing field of Aging Interventions Frontiers has organized a series of Research Topics to highlight the latest advancements in science in order to be at the forefront of science in different fields of research This editorial initiative of particular relevance led by Dr Scheibye Knudsen Specialty Chief Editor of the Interventions in Aging section is focused on new insights novel developments current challenges latest discoveries recent advances and future perspectives in the field of Aging Interventions The Research Topic solicits brief forward looking contributions from Editorial Board members that describe the state of the art outlining recent developments and major accomplishments that have been achieved and that need to occur to move the field forward Authors are encouraged to identify the greatest challenges in the sub disciplines and how to address those challenges

*Male Sexual Dysfunction* Fouad R. Kandeel, 2007-05-22 Although impotence may be the most widely recognized manifestation of male sexual dysfunction many other forms of sexual disorders do not involve the erectile mechanism from deficiencies of desire to disturbances in ejaculatory function to the failure of detumescence With such a myriad and often co existing number of disorders the successful tr

*Basics and Clinical Applications of Drug Disposition in Special Populations* Seth Kwabena Amponsah, Yashwant V. Pathak, 2025-04-08 An up to date exploration of techniques for effectively treating patients from

special populations In Basics and Clinical Applications of Drug Disposition in Special Populations a team of distinguished researchers delivers a timely and authoritative discussion of how to predict drug disposition in special populations including people with obesity pediatric patients geriatric patients and patients with renal and hepatic impairment The authors use pharmacokinetic models to account for variabilities between populations and to better predict drug disposition The book offers a collection of 15 chapters written by recognized experts in their respective fields They cover topics ranging from the optimization of drug dosing regimens in specialized populations to model based approaches in drug treatment among pediatrics Readers will also find A thorough introduction to considerations and regulatory affairs for clinical research in special populations Comprehensive explorations of drug disposition in geriatrics patients with hepatic insufficiency and patients with renal insufficiency Practical discussions of model based pharmacokinetic approaches Complete treatments of artificial intelligence in drug development Perfect for practicing pharmacologists pharmacists and clinical chemists Basics and Clinical Applications of Drug Disposition in Special Populations will also benefit medical professionals who provide medical and pharmaceutical care to special populations
