### **Dry Bones Rattling Community Building To Revitalize American Democracy:**

*Dry Bones Rattling* Mark R. Warren, 2001 *Dry Bones Rattling* offers the first in depth treatment of how to rebuild the social capital of America's communities while promoting racially inclusive democratic participation. The Industrial Areas Foundation IAF network in Texas and the Southwest is gaining national attention as a model for reviving democratic life in the inner city and beyond. This richly drawn study shows how the IAF network works with religious congregations and other community based institutions to cultivate the participation and leadership of Americans most left out of our elite centered politics. Interfaith leaders from poor communities of color collaborate with those from more affluent communities to build organizations with the power to construct affordable housing, create job training programs, improve schools, expand public services, and increase neighborhood safety. In clear and accessible prose, Mark Warren argues that the key to revitalizing democracy lies in connecting politics to community institutions and the values that sustain them. By doing so, the IAF network builds an organized multiracial constituency with the power to advance desperately needed social policies. While Americans are most aware of the religious right, Warren documents the growth of progressive faith based politics in America. He offers a realistic yet hopeful account of how this rising trend can transform the lives of people in our most troubled neighborhoods. Drawing upon six years of original fieldwork, *Dry Bones Rattling* proposes new answers to the problems of American democracy: community life, race relations, and the urban crisis.

*We Are the Ones We Have Been Waiting For* Peter Levine, 2015 In September 2011, two leading civic engagement advocacy organizations headed respectively by Robert Putnam and Peter Levine released a joint report showing that a region's level of civic engagement was a strong predictor of its ability to recover from the Great Recession. This finding confirms what advocates of civic engagement have long hypothesized: that strengthening the networks between government and civil society and increasing citizen participation results in better government and better community outcomes. However, citizens concerned about the economic crisis need more than just deliberation or community organizing alone to achieve these outcomes. What they need, according to Peter Levine, is a movement devoted to civic renewal. Deliberative democracy, the idea that true democratic legitimacy derives from open, inclusive discussion and dialogue rather than simple voting, has become an extremely influential concept in the last two decades. In *We Are the Ones We Have Been Waiting For*, Peter Levine contends that effective deliberative democracy depends upon effective community advocacy. Deliberation, he shows, is most valuable when talk and debate are integrated into a community's everyday life. To illustrate how it works, Levine draws lessons from both community organizing and developmental psychology and uses examples of successful efforts from communities across America as well as fledgling democracies in Africa and Eastern Europe. By engaging in this type of civic work, American citizens can meaningfully contribute to civic renewal, which in turn will address serious social problems that cannot be fixed in any other way.

**Religion in the Neoliberal Age** François Gauthier, 2016-04-08 This book together with a complementary volume Religion in Consumer Society focuses on religion neoliberalism and consumer society offering an overview of an emerging field of research in the study of contemporary religion Claiming that we are entering a new phase of

state religion relations the editors examine how this is historically anchored in modernity but affected by neoliberalization and globalization of society and social life. Seemingly distant developments such as marketization and commoditization of religion as well as legalization and securitization of social conflicts are transforming historical expressions of religion and religiosity yet these changes are seldom if ever understood as forming a coherent structured and systemic ensemble. Religion in the Neoliberal Age includes an extensive introduction framing the research area and linking it to existing scholarship before looking at four key issues: 1 How changes in state structures have empowered new modes of religious activity in welfare production and the delivery of a range of state services; 2 How are religion state relations transforming under the pressures of globalization and neoliberalism; 3 How historical churches and their administrations are undergoing change due to structural changes in society and what new forms of religious body are emerging; 4 How have law and security become new areas for solving religious conflicts. Outlining changes in both the political institutional and cultural spheres the contributors offer an international overview of developments in different countries and state of the art representation of religion in the new global political economy.

*Politics Is for Power* Eitan Hersh, 2020-01-14 A brilliant condemnation of political hobbyism treating politics like entertainment and a call to arms for well meaning well informed citizens who consume political news but do not take political action. Who is to blame for our broken politics? The uncomfortable answer to this question starts with ordinary citizens with good intentions. We vote sometimes and occasionally sign a petition or attend a rally. But we mainly engage by consuming politics as if it's a sport or a hobby. We soak in daily political gossip and eat up statistics about who's up and who's down. We tweet and post and share. We crave outrage. The hours we spend on politics are used mainly as pastime. Instead we should be spending the same number of hours building political organizations implementing a long term vision for our city or town and getting to know our neighbors whose votes will be needed for solving hard problems. We could be accumulating power so that when there are opportunities to make a difference to lobby to advocate to mobilize we will be ready. But most of us who are spending time on politics today are focused inward choosing roles and activities designed for our short term pleasure. We are repelled by the slow and steady activities that characterize service to the common good. In *Politics Is for Power* pioneering and brilliant data analyst Eitan Hersh shows us a way toward more effective political participation. Aided by political theory history cutting edge social science as well as remarkable stories of ordinary citizens who got off their couches and took political power seriously this book shows us how to channel our energy away from political hobbyism and toward empowering our values.

*Everyday Politics* Harry C. Boyte, 2010-11-24 Increasingly a spectator sport electoral politics have become bitterly polarized by professional consultants and lobbyists and have been boiled down to the distributive mantra of who gets what. In *Everyday Politics* Harry Boyte transcends partisan politics to offer an alternative. He demonstrates how community rooted activities reconnect citizens to engaged responsible public life and not just on election day but throughout the year. Boyte demonstrates that this type of

activism has a rich history and strong philosophical foundation. It rests on the stubborn faith that the talents and insights of ordinary citizens from nursery school to nursing home are crucial elements in public life. Drawing on concrete examples of successful public work projects accomplished by diverse groups of people across the nation, Boyte demonstrates how citizens can master essential political skills such as understanding issues in public terms, mapping complex issues of institutional power to create alliances, raising funds, communicating and negotiating across lines of difference. He describes how these skills can be used to address the larger challenges of our time, thereby advancing a renewed vision of democratic society and freedom in the twenty-first century. *Introduction to Community Development* Jerry W. Hudson, 2012-07-13

By introducing the history of democratic theory in terms of four models of democracy, Hudson provides readers with a set of criteria against which to evaluate the challenges discussed later.
