**Restoration**

**Literature** Paul Hammond, 2002 This anthology brings together a stimulating and entertaining collection of works from the confident and creative period of 1660-1700. The literature of this time is by turns refined, poignant and brash. Alongside major works such as Dryden's *Absalom and Achitophel* and Mac Flecknoe, printed in their entirety, is a substantial group of lyrics by Rochester while Milton's *Paradise Lost* provides a running commentary on the Restoration scene. Scurrilous satires and pamphlets, diaries, theatrical prologues, translations and striking work by women poets and autobiographers illustrate the period in politics, religion, philosophy and in attitudes to town and country, love and friendship.

**Pope's Mythologies** A.D. Cousins, Daniel Derrin, 2023-05-05 This volume is the first to discuss the canon of Pope's verse in relation to Early British Enlightenment thinking about mythology and mythography. Pope did not merely use classical along with non-classical mythology in his verse as a traditional, richly diverse medium through which to represent the diversity of private and civic life in his day, but he was an ambitious translator as well as refashioner of myth. It is a medium that he shapes anew and variously across all his major poems. This volume enhances appreciation of myth as a mode of apprehension as well as expression throughout Pope's verse. In doing so, it illuminates how in early eighteenth-century Britain understandings of what myth is and what it does were taking new directions, not least in response to Baconian thought and its legacy.

**Virgil and the Augustan Reception** Richard F. Thomas, 2001-03-15 This book is an examination of the ideological reception of Virgil at specific moments in the last two millennia. The author focuses on the emperor Augustus in the poetry of Virgil, detects in the poets and grammarians of antiquity alternately a collaborative, oppositional reading and an attempt to suppress such reading, studies creative translation, particularly Dryden's, which reasserts the Augustan Virgil and examines naive translation which can be truer to the spirit of Virgil. Scrutiny of textual cleansing, philology's rewriting or excision of troubling readings leads to readings by both supporters and opponents of fascism and National Socialism to support or subvert the latter-day Augustus. The book ends with a diachronic examination of the ways successive ages have tried to make the *Aeneid* conform to their upbeat expectations of this poet.

referencing capabilities      *Dangerous Women, Libertine Epicures, and the Rise of Sensibility, 1670-1730* Laura Linker, 2016-05-13 In the first full length study of the figure of the female libertine in late seventeenth and early eighteenth century literature Laura Linker examines heroines appearing in literature by John Dryden Aphra Behn Catharine Trotter Delariviere Manley and Daniel Defoe Linker argues that this figure partially inspired by Epicurean ideas found in Lucretius's *De rerum natura* interrogates gender roles and assumptions and emerges as a source of considerable tension during the late Stuart and early Georgian periods Witty and rebellious the female libertine becomes a frequent satiric target because of her transgressive sexuality As a result of negative portrayals of lady libertines women writers begin to associate their libertine heroines with the pathos figures they read in French texts of sensibility Beginning with a discussion of Charles II's mistresses Linker shows that these women continue to serve as models for the female libertine in literature long after their reigns at court ended Her study places the female libertine within her cultural philosophical and literary contexts and suggests new ways of considering women's participation and the early novel which prominently features female libertines as heroines of sensibility      **The Oxford History of Poetry in English** Laura L. Knoppers, 2024-08-08 Beginning with the last years of the reign of Elizabeth I and ending late in the seventeenth century this volume traces the growth of the literary marketplace the development of poetic genres and the participation of different writers in a century of poetic continuity change and transformation      **The Oxford Handbook of Restoration Literature** Matthew C. Augustine, Steven N. Zwicker, 2024-10-22 The Oxford Handbook of Restoration Literature begins by asking if there was a distinctive literature of the Restoration For a long time the answer seemed obvious heroic drama libertine comedy scandalous lyrics and the short but brilliant career of John Wilmot earl of Rochester Could there be an age when the coincidence of literary culture and political rule were any more obvious But as this Handbook will remind us some of the most wonderful literature of this Restoration came from writers who had lived across the decades of turbulence and into an age when the Stuart kings returned when the Church and House of Lords were restored a world made safe for bishops and for the memory of divine right rule Of course these returns and restorations did not meet with uniform celebration John Milton wrote his great epic poems not in quiet submission but in a kind of resistance to the dominant culture of the 1660s and Andrew Marvell produced his most brilliant satiric verse by holding up a looking glass to court corruption and Anglican intolerance So we begin with the most obvious conclusion Restoration literature does and does not fit to the categories that so long defined the late Stuart age This book explores and contests challenges and reimagines the experience embodied by the writing of the late Stuart world and invites readers new to this world and those who have often read its literatures to the pleasures but as well to the challenges and discomforts of its texts      **The Age of Projects** Maximillian E. Novak, 2008-08-23 The Projecting Age was a term the English novelist Daniel Defoe used to describe the end of the seventeenth century This term could just as easily be used however to describe the period known as the Long Eighteenth Century 1660-1789 The Age of Projects uses the notion of a project as a key to

understanding the massive social cultural political literary and scientific transitions that occurred in Europe during this time The contributors to this collection examine fraudulent grandiose altruistic and idealistic projects that reveal the period s radical breaks from the past and its preoccupation with the future Examining topics as diverse as Jonathan Swift s satire on the possibility of a computer to Gottfried Leibniz s effort to build one and Edmund Burke s prediction that the project of democratic governance would be taken over by greedy adventurers this volume provides significant insight into the period s ambitions for an improved future A well balanced collection by leading scholars from diverse disciplines The Age of Projects is a significant contribution to intellectual history literary history and the history of science

**Authorship in the Long Eighteenth Century** Dustin Griffin, 2013-12-11 This book deals with changing conditions and conceptions of authorship in the long eighteenth century a period often said to have witnessed the birth of the modern author It focuses not on authorial self presentation or self revelation but on an author s interactions with booksellers collaborators rivals correspondents patrons and audiences Challenging older accounts of the development of authorship in the period as well as newer claims about the public sphere and the professional writer it engages with recent work on print culture and the history of the book Methodologically eclectic it moves from close readings to strategic contextualization The book is organized both chronologically and topically Early chapters deal with writers notably Milton and Dryden at the beginning of the long eighteenth century and later chapters focus more on writers among them Johnson Gray and Gibbon toward its end Looking beyond the traditional canon it considers a number of little known or little studied writers including Richard Bentley Thomas Birch William Oldys James Ralph and Thomas Ruddiman Some of the essays are organized around a single writer but most deal with a broad topic literary collaboration literary careers the republic of letters the alleged rise of the professional writer

and the rather different figure of the author by profession Published by University of Delaware Press Distributed worldwide by Rutgers University Press      **The Cambridge Companion to Roman Satire** Kirk Freudenburg, 2005-05-12 Satire as a distinct genre of writing was first developed by the Romans in the second century BCE Regarded by them as uniquely their own satire held a special place in the Roman imagination as the one genre that could address the problems of city life from the perspective of a real Roman In this Cambridge Companion an international team of scholars provides a stimulating introduction to Roman satire's core practitioners and practices placing them within the contexts of Greco Roman literary and political history Besides addressing basic questions of authors content and form the volume looks to the question of what satire does within the world of Greco Roman social exchanges and goes on to treat the genre's further development reception and translation in Elizabethan England and beyond Included are studies of the prosimetric Menippean satires that would become the models of Rabelais Erasmus More and narrative satire's crowning jewel Swift      **The Poetry of Translation** Matthew Reynolds, 2011-09-29 A very wide ranging book which launches a new theory of poetry translation and pursues it through readings of poem translations from across the history of English literature It engages with the key debates in translation studies and offers new interpretations of major works such as Pope's Iliad Pound's Cathay and Dryden's Aeneis
